## PRESENT:

## THE QUEEN'S MOST EXCELLENT MAJESTY IN COUNCIL.

WHEREAS by "The Merchant Shipping Act Amendment Act, 1862," it was enacted that on and after the first day of June one thousand eight hundred and sixty-three, or such later day as might be fixed for the purpose by Order in Council, the Regulations contained in the table marked C in the schedule to the said Act should come into operation and be of the same force as if they were enacted in the body of the said Act; but that Her Majesty might from time to time, on the joint recommendation of the Admiralty and the Board of Trade, by Order in Council, annul or modify any of the said Regulations, or make new Regulations in addition thereto or in substitution therefor; and that any alterations in, or additions to, such Regulations made in manner aforesaid should be of the same force as the Regulations in the said schedule:

And whereas by the same Act it was further provided that whenever it should be made to appear to Her Majesty that the Government of any foreign country was willing that the Regulations for preventing collisions contained in Table C in the schedule to the said Act, or such other Regulations for preventing collisions as are for the time being in force under the said Act, should apply to the ships of such country when beyond the limits of British jurisdiction, Her Majesty might, by Order in Council, direct that such Regulations should apply to the ships of the said foreign country, whether within British jurisdiction or not; and it was further provided by the said Act that whenever an Order in Council had been issued applying any Regulation made by, or in pursuance of, the said Act to the ships of any foreign country, such ships should in all cases arising in any British court, be deemed to be subject to such Regulation, and should, for the purpose of such Regulation, be treated as if they were British ships:

And whereas by an Order in Council made in pursuance of the said recited Act, and dated the ninth day of January one thousand eight hundred and sixty-three, Her Majesty was pleased to direct:—First, that the Regulations contained in the schedule to the said Act should be modified by the substitution for such Regulations of certain Regulations appended to the said Order;

Secondly, that the said Regulations appended to the said Order should, on and after the first day of June one thousand eight hundred and sixty-three, apply to French ships, whether within British jurisdiction or not:

And whereas by several Orders in Council subsequently made, Her Majesty was pleased to direct that the Regulations appended to the said Order of the ninth of January one thousand eight hundred and sixty-three, should apply to ships of the countries specified in the said Orders, whether within British jurisdiction or not:

And whereas by Order in Council, dated the thirtieth day of July one thousand eight hundred and sixty-eight, Her Majesty, on the joint recommendation of the Admiralty and the Board of Trade, was pleased to make certain additions to the Regulations appended to the said first-recited Order in Council, for the purpose of explaining Articles 11 and 13 of the said Regulations, and of removing doubt and misapprehension concerning the effect of the said two Articles:

And whereas the Admiralty and the Board of Trade have jointly recommended to Her Majesty that the Regulations contained in the Order in Council dated the ninth day of January one thousand eight hundred and sixty-three, and the additions to the said Regulations contained in the said Order in Council of the thirtieth day of July one thousand eight hundred and sixty-eight, shall be annulled from the first day of September one thousand eight hundred and eighty, and that there shall be substituted for the said Regulations and additions respectively the new Regulations hereinafter set forth:

And whereas it has been made to appear to Her Majesty that the Governments of the several foreign countries mentioned in the second schedule hereto are respectively willing that the Regulations contained in the first schedule hereto shall apply to ships of the said countries respectively, whether within British jurisdiction or not:

Now therefore Her Majesty, by virtue of the powers vested in Her by the said recited Act, and by and with the advice of Her Privy Council, is pleased to direct—

First, that on and after the first day of September one thousand eight hundred and eighty, the Regulations appended to the said Order in Council of the ninth day of January one thousand eight hundred and sixty-three, and the additions to the said Regulations contained in the said Order in Council of the thirtieth day of July one thousand eight hundred and sixty-eight, shall be annulled, and that there shall be substituted for the said Regulations and additions respectively the new Regulations contained in the first schedule hereto.

Second, that the said Regulations contained in the said first schedule hereto shall, from and after the first day of September one thousand eight hundred and eighty, apply to ships of the countries mentioned in the said second schedule hereto, whether within British jurisdiction or not.

C. L. PEARL.

## FIRST SCHEDULE.

## REGULATIONS FOR PREVENTING COLLISIONS AT SEA.

*Preliminary.*

ART. 1. In the following rules every steam-ship which is under sail and not under steam is to be considered a sailing ship; and every steam-ship which is under steam, whether under sail or not, is to be considered a ship under steam.

*Rules Concerning Lights.*

ART. 2. The lights mentioned in the following Articles, numbered 3, 4, 5, 6, 7, 8, 9, 10, and 11, and no others, shall be carried in all weathers, from sunset to sunrise.

ART. 3. A sea-going steam-ship when under way shall carry—

- (a.) On or in front of the foremast, at a height above the hull of not less than 20 feet, and if the breadth of the ship exceeds 20 feet then at a height above the hull not less than such breadth, a bright white light, so constructed as to show an uniform and unbroken light over an arc of the horizon of 20 points of the compass; so fixed as to throw the light 10 points on each side of the ship, viz. from right ahead to 2 points abaft the beam on either side; and of such a character as to be visible on a dark night, with a clear atmosphere, at a distance of at least five miles.
- (b.) On the starboard side, a green light so constructed as to show an uniform and unbroken light over an arc of the horizon of 10 points of the compass; so fixed as to throw the light from right ahead to 2 points abaft the beam on the starboard side; and of such a character as to be visible on a dark night, with a clear atmosphere, at a distance of at least two miles.
- (c.) On the port side, a red light, so constructed as to show an uniform and unbroken light over an arc of the horizon of 10 points of the compass; so fixed as to throw the light from right ahead to 2 points abaft the beam on the port side; and of such a character as to be visible on a dark night, with a clear atmosphere, at a distance of at least two miles.
- (d.) The said green and red side lights shall be fitted with inboard screens projecting at least three feet forward from the light, so as to prevent these lights from being seen across the bow.

ART. 4. A steam-ship, when towing another ship, shall, in addition to her side lights carry two bright white lights in a vertical line one over the other, not less than three feet apart, so as to distinguish her from other steam-ships. Each of these lights shall be of the same construction and character, and shall be carried in the same position, as the white light which other steam-ships are required to carry.

ART. 5. A ship, whether a steam-ship or a sailing ship, when employed either in laying or in picking up a telegraph cable, or which from any accident is not under command, shall at night carry in the same position as the white light which steam-ships are required to carry, and, if a steam-ship, in place of that light, three red lights in globular lanterns, each not less than 10 inches in diameter, in a vertical line one over the other, not less than three feet apart: and shall by day carry in a vertical line one over the other, not less than three feet apart, in front of, but not lower than, her foremast head, three black balls or shapes, each two feet in diameter.

These shapes and lights are to be taken by approaching ships as signals that the ship using them is not under command, and cannot therefore get out of the way.

The above ships when not making any way through the water, shall not carry the side lights, but when making way shall carry them.

ART. 6. A sailing ship under way, or being towed, shall carry the same lights as are provided by Article 3 for a steam-ship under way, with the exception of the white light, which she shall never carry.

ART. 7. Whenever, as in the case of small vessels during bad weather, the green and red side lights cannot be fixed, these lights shall be kept on deck, on their respective sides of the vessel, ready for use: and shall, on the approach of or to other vessels, be exhibited on their respective sides in sufficient time to prevent collision, in such manner as to make them most visible, and so that the green light shall not be seen on the port side, nor the red light on the starboard side.

To make the use of these portable lights more certain and easy, the lanterns containing them shall each be painted outside with the colour of the light they respectively contain, and shall be provided with proper screens.

ART. 8. A ship, whether a steam-ship or a sailing ship, when at anchor, shall carry, where it can best be seen, but at a height not exceeding 20 feet above the hull, a white light, in a globular lantern of not less than eight inches in diameter, and so constructed as to show a clear uniform and unbroken light visible all round the horizon, at a distance of at least one mile.

ART. 9. A pilot vessel, when engaged on her station on pilotage duty, shall not carry the lights required for other vessels, but shall carry a white light at the mast-head visible all round the horizon, and shall also exhibit a flare-up light or flare-up lights at short intervals which shall never exceed fifteen minutes.

A pilot vessel, when not engaged on her station on pilotage duty, shall carry lights similar to those of other ships.

ART. 10. (a)—Open fishing boats and other open boats when under way shall not be obliged to carry the side lights required for other vessels; but every such boat shall in lieu thereof have ready at hand a lantern with a green glass on the one side and a red glass on the other side; and on the approach of or to other vessels such lantern shall be exhibited in sufficient time to prevent collision, so that the green light shall not be seen on the port side, nor the red light on the starboard side.

(b)—A fishing vessel and an open boat when at anchor shall exhibit a bright white light.

(c)—A fishing vessel when employed in drift net fishing, shall carry on one of her masts two red lights in a vertical line one over the other, not less than three feet apart.

(d)—A trawler at work shall carry on one of her masts two lights in a vertical line one over the other, not less than three feet apart, the upper light red and the lower green, and shall also either carry the side lights required for other vessels, or if the side lights cannot be carried, have ready at hand the coloured lights as provided in Article 7, or a lantern with a red and a green glass as described in paragraph (a) of this Article.

(e)—Fishing vessels and open boats shall not be prevented from using a flare-up in addition if they desire to do so.

(f)—The lights mentioned in this Article are substituted for those mentioned in the 12th, 13th, and 14th Articles of the Convention between France and England scheduled to the British Sea Fisheries Act, 1868.

(g)—All lights required by this Article, except side lights, shall be in globular lanterns so constructed as to show all round the horizon.

ART. 11. A ship which is being overtaken by another shall show from her stern to such last-mentioned ship a white light or a flare-up light.

#### *Sound Signals for Fog, &c.*

ART. 12. A steam-ship shall be provided with a steam whistle, or other efficient steam sound signal, so placed that the sound may not be intercepted by any obstructions, and with an efficient fog-horn to be sounded by bellows or other mechanical means, and also with an efficient bell. A sailing ship shall be provided with a similar fog-horn and bell.

In fog, mist, or falling snow, whether by day or night, the signals described in this Article shall be used as follows, that is to say—

(a)—A steam-ship under way shall make with her steam whistle, or other steam sound signal, at intervals of not more than two minutes, a prolonged blast.

(b)—A sailing ship under way shall make with her fog-horn, at intervals of not more than two minutes, when on the starboard tack one blast, when on the port tack two blasts in succession, and when with the wind abaft the beam three blasts in succession.

(c)—A steam-ship and a sailing ship when not under way shall, at intervals of not more than two minutes, ring the bell.

#### *Speed of Ships to be moderate in Fog, &c.*

ART. 13. Every ship, whether a sailing ship or steam-ship, shall in a fog, mist, or falling snow go at a moderate speed.

#### *Steering and Sailing Rules.*

ART. 14. When two sailing ships are approaching one another, so as to involve risk of collision, one of them shall keep out of the way of the other as follows, viz:—

(a)—A ship which is running free shall keep out of the way of a ship which is close-hauled.

(b)—A ship which is close-hauled on the port tack shall keep out of the way of a ship which is close-hauled on the starboard tack.

(c)—When both are running free with the wind on different sides, the ship which has the wind on the port side shall keep out of the way of the other.

(d)—When both are running free with the wind on the same side, the ship which is to windward shall keep out of the way of the ship which is to leeward.

(e)—A ship which has the wind aft shall keep out of the way of the other ship.

ART. 15. If two ships under steam are meeting end on, or nearly end on, so as to involve risk of collision, each shall alter her course to starboard, so that each may pass on the port side of the other.

This Article only applies to cases where ships are meeting end on, or nearly end on, in such a manner as to involve risk of collision, and does not apply to two ships which must, if both keep on their respective courses, pass clear of each other.

The only cases to which it does apply are, when each of the two ships is end on, or nearly end on to the other, in other words, to cases in which by day each ship sees the mast of the other in a line, or nearly in a line, with her own; and by night, to cases in which each ship is in such a position as to see both the side lights of the other.

It does not apply by day to cases in which a ship sees another ahead crossing her own course; or by night, to cases where the red light of one ship is opposed to the red light of the other, or where the green light of one ship is opposed to the green light of the other, or where a red light without a green light, or a green light without a red light is seen ahead, or where both green and red lights are seen anywhere but ahead.

ART. 16. If two ships under steam are crossing so as to involve risk of collision, the ship which has the other on her own starboard side shall keep out of the way of the other.

ART. 17. If two ships, one of which is a sailing ship and the other a steam-ship, are proceeding in such directions as to involve risk of collision, the steam-ship shall keep out of the way of the sailing ship.

ART. 18. Every steam-ship when approaching another ship, so as to involve risk of collision, shall slacken her speed, or stop and reverse if necessary.

ART. 19. In taking any course authorized or required by these Regulations a steam-ship under way may indicate that course to any other ship which she has in sight by the following signals on her steam whistle, viz:—

One short blast to mean—"I am directing my course to starboard."

Two short blasts to mean—"I am directing my course to port."

Three short blasts to mean—"I am going full speed astern."

The use of these signals is optional; but if they are used, the course of the ship must be in accordance with the signal made.

ART. 20. Notwithstanding anything contained in any preceding Article every ship, whether a sailing ship or steam-ship, overtaking any other, shall keep out of the way of the overtaken ship.

ART. 21. In narrow channels every steam-ship shall, when it is safe and practicable, keep to that side of the fair way or midchannel which lies on the starboard side of such ship.

ART. 22. Where by the above rules one of two ships is to keep out of the way the other shall keep her course.

ART. 23. In obeying and construing these rules due regard shall be had to all dangers of navigation, and to any special circumstances which may render a departure from the above rules necessary in order to avoid immediate danger.

*No Ship under any circumstances to neglect proper precautions.*

ART. 24. Nothing in these rules shall exonerate any ship, or the owner, or master, or crew thereof, from the consequences of any neglect to carry lights or signals, or of any neglect to keep a proper look-out, or of the neglect of any precaution which may be required by the ordinary practice of seamen, or by the special circumstances of the case.

*Reservation of Rules for Harbours and Inland Navigation.*

ART. 25. Nothing in these rules shall interfere with the operation of a special rule duly made by local authority relative to the navigation of any harbour, river, or inland navigation.

*Special Lights for Squadrons and Convoys.*

ART. 26. Nothing in these rules shall interfere with the operation of any special rules made by the Government of any nation with respect to additional station and signal lights for two or more ships of war, or for ships sailing under convoy.

## DRAFT RULES PROPOSED UNDER ACT III (B.C.) OF 1876.

No. 76. *Notification.*—In exercise of the powers conferred on him by Section 99 of Act III (B.C.) of 1876, the Hon'ble the Lieutenant-Governor is pleased to direct the publication of the following rules for the Orissa Canals.

H. C. LEVINGR,

*Jt.-Secy. to the Govt. of Bengal,**P. W. Dept., Irrigation Branch.*

## RULES UNDER ACT III (B.C.) OF 1876.

## PART I.

*Of Supply.*

**Rule 1.**—Canal water will be supplied on written applications at the rates and on the conditions to be hereafter stated. (Section 74, Act III of 1876.)

**Rule 2.**—All applications must be made in forms which may be obtained free of cost at the Canal Revenue Offices. (Appendices A and B)

**Rule 3.**—Applications for water will be received by the Deputy Revenue Superintendents or their duly authorized subordinates at the various circle and branch circle offices.

**Rule 4.**—Any Deputy Superintendent may refuse an application if he thinks it would not be to the interest of Government to comply with it. This discretion will be vested in the Deputy Superintendents only. Other canal revenue officers authorized to receive applications must refer for orders all doubtful cases to the Deputy Superintendent in charge of their respective circles.

## PART II.

*Rates and Conditions of Supply.*

**Rule 5.**—The rates chargeable per acre for the different descriptions of crops have been fixed up to the end of November 1882, and are as follow:—

Crop.	Flow.			Lift.		
	Rs.	A.	P.	Rs.	A.	P.
<b>First Rice.</b>						
For the whole irrigable and rice cultivated area of any village if applied for up to expiration of sanctioned rates ...	1	8	0	1	0	0
For any fractional area of any village or for other term...	3	0	0	2	0	0
<b>Second Rice.</b>						
For dry-weather or rubber crops for dalwa rice ..	1	8	0	1	0	0
For cotton, tobacco, haldi, ginger, wheat, vegetables, indigo, and all garden produce ..	2	0	0	1	8	0
For linseed, oilseed, dal, and all pulses	1	0	0	0	10	0
<b>Third Rice.</b>						
For sugarcane ..	6	0	0	4	0	0

**Fourth Rice.**

For filling tanks Re 1 per 10,000 cubic feet.

**Rule 6.**—Applications for water for the irrigation of rice crops at Rs. 1-8 per acre "flow" and Re. 1 "lift" must be signed by all the cultivators holding rice culturable and irrigable lands in the villages mentioned in the applications, and the names of the villages adjoining that in respect of which the application is made must be specified at the back of the applications.

**Rule 7.**—Applications for water at Rs. 3 "flow" and Rs. 2 "lift" irrigation must be signed by all those cultivating in the specific portion of the villages applied for. At the back of such applications should be entered the names and boundaries of the *chaks* or plots for which water is required.

**Rule 8.**—The provisions of Rule 7 will apply to all applications for water for sugarcane and dry-weather crops.

**Rule 9.**—Applications under Rules 6, 7, and 9 will not be deemed complete until all the signatures of intending irrigators have been obtained, and water may be refused by the Deputy Superintendent until all the signatures shall have been obtained. Those who cannot write must affix their marks.

**Rule 10.**—All applicants should have distinctly explained to them the terms of the agreement at the head of their applications. The assessments made will be on the areas actually irrigable or irrigated and cultivated by applicants, and not on the areas as stated by them.

**Rule 11.**—Separate applications must be given in respect of each description of crop mentioned in the statement attached to Rule 5.

**Rule 12.**—The Deputy Superintendent may refuse to comply with the application of any village from the cultivators of which any arrears of water-rates are due, until such time as the arrears are paid.

## PART III.

*Of the Procedure for the Disposal of Applications for Water.*

**Rule 13.**—On receipt of an application for water it should be dated and initialled by the receiving officer and entered in the register of applications (Register No. I). The officer receiving it, or his duly authorized subordinate, will then proceed to ascertain by local enquiry and the aid of survey maps, or by actual measurement, the following particulars regarding the lands mentioned in the applications:—

- (1) Whether canal supply can be given.
- (2) Whether the particulars as to areas and boundaries as given in the application are correct.
- (3) Whether, with reference to the situation of the lands and areas applied for, it is to the interest of Government to comply with the application.

**Rule 14.**—After ascertaining by survey maps or actual measurement, and recording on the application the areas being or to be irrigated, the enquiring officer shall prepare a permit to supply water in the form prescribed in Appendix C for despatch to the supplying officer. A copy of the permit may, if wished, be made over to the applicants.

**Rule 15.**—Should the enquiring officer be of opinion that the areas applied for cannot be irrigated, or that the application should not for other reasons be sanctioned, he will submit his report with all the papers of the case for the orders of the Deputy Superintendent.

**Rule 16.**—It shall be at the discretion of the Deputy Superintendent to grant supply of water to any village or villages for which applications for water may have been received without waiting for the completion of any local enquiry or measurement.

**Rule 17.**—The manner in which any application may be finally disposed of should be briefly stated in the column of remarks in Register No. I.

**Rule 18.**—When an application for water has been finally disposed of, either by an order to supply water or otherwise, it should be forwarded to the head office, where it will be registered in detail in the register of leases (Register No. II).

#### PART IV.

##### *Of Water Distribution to Applicants.*

**Rule 19.**—Village channels have been constructed and are maintained by Government for the purpose of leading water to some convenient point or points within the boundaries of certain villages; and wherever such channels exist, canal water shall, if possible, be supplied from them to all applicants by the Superintending Engineer, his Executive Engineers, and their subordinates.

**Rule 20.**—Where no village channels exist from which supply can be given, applicants shall be directed to construct such village channels as may be required to irrigate their areas, and supply may be withheld until proper channels are made.

**Rule 21.**—Canal officers shall give every assistance to applicants in laying out and aligning village channels, and every effort must be made to induce villagers to construct their own channels.

**Rule 22.**—The complete control and custody of all irrigation sluices shall rest in the Superintending Engineer and the Executive Engineers subordinate to him; but it shall be competent to either of these officers, by an order in writing, to transfer the control and custody of any sluice to any person deemed fit to take charge thereof.

**Rule 23.**—All questions as to priority of right to take water, and all disputes regarding the quantity and regulation of supply, shall be determined by the Executive Engineer. It shall further be competent to this officer, at his discretion, to close entirely such channels and outlets as he may deem expedient to ensure proper rotation of supply to all applicants, and no claims for compensation for such closure shall lie.

**Rule 24.**—Applicants whose applications may have been sanctioned shall as far as possible be supplied at any time during the growth of the crop mentioned in their applications: but no applicant for water for a rice crop can claim a full supply before the 15th of June.

**Rule 25.**—Cultivators shall embank the field to which water is supplied, so that the water shall not run to waste or flow unnecessarily on land not entitled to irrigation.

**Rule 26.**—Where water is appropriated in an unauthorized manner, by cutting canal, distributary or village channel banks, or by opening sluices or shoots fixed in such banks, or by cutting or neglecting to keep in repair the boundaries of fields to which water is supplied, and the person by whose act or neglect such appropriation has ensued cannot be identified, all lands deriving benefit shall be liable to twice the ordinary charge, or such other charge, not being less than the ordinary rate, as the Deputy Superintendent of Canal Revenue may determine.

#### PART V.

##### *Of Realization of Water-rates.*

**Rule 27.**—Any person appointed as a Collector under section 82 of the Act shall receive sunnuds of appointment in Form D for each village from which he agrees to collect, and he will be entitled to receive commission at the rate of 5 per cent. on all sums paid by him to Government on or before such dates as may be stated in his sunnuds of appointment. The person appointed Collector shall usually be a nominee of the cultivators from whom water-rates are due. No person appointed as Collector of water-rate shall be entitled to claim his commission until he has submitted such accounts as the Deputy Superintendent may prescribe.

**Rule 28.**—The Deputy Superintendent shall be at liberty to cancel any sunnud of appointment to collect, whenever such course appears advisable in the interest of Government or of the cultivators.

**Rule 29.**—Where no Collectors of water-rates are appointed, realizations will be made by the Canal Revenue Officers in charge of circles and by their authorized subordinates. The instructions embodied in Appendix E regarding collections must be read as part and parcel of these rules, and must be adhered to by all canal revenue subordinates.

**Rule 30.**—Demand statements of the water-rates due from each village will be issued from the Canal Revenue Office at least two months before such water-rates fall due. All demand statements will contain the names and residences of the cultivators from whom water-rates are due, the areas on which rates are payable, and amounts due from each ryot. Demand statements shall be served on the Collector, or if no Collector has been appointed, on some one of the principal applicants. General notice of such service shall be posted on some conspicuous part of each village, and shall specify dates of payment.

**Rule 31.**—The dates of payment of water-rates for the different crops shall be as follow:—

For rice	1st February.
„ sugarcane	1st June.
„ dalwa and other dry- weather crops	1st August.

All payments of water-rates shall be paid in one instalment.

## PART VI.

**Rule 32.**—All objections and claims for remission shall be made to the Deputy Superintendent.

**Rule 33.**—Remissions of water-rates will be granted in whole or in part by the Deputy Superintendent on the following grounds:—

- (1) The total failure of supply.
- (2) Damage to crops caused by deficiency or delay in the supply of water, in consequence of some act or omission on the part of the supplying officer, and independent of any act or omission on the part of the applicants.
- (3) Damage caused by excess water under above restrictions.
- (4) Where it can be shown that no crop was grown as originally intended. Provided that no claim for remission shall be allowed unless made while the crops alleged to have been damaged are on the ground.

**Rule 34.**—Special cases for remission not coming under the above heads shall be reported to the Collector for orders.

**Rule 35.**—All orders passed on claims for remission shall be duly communicated to the parties concerned.

## PART VII.

*Of Miscellaneous Sources of Revenue.*

**Rule 36.**—Written applications must be given on plain paper to the Deputy Superintendent or to his duly authorized subordinate by any person wishing to cultivate Government canal lands, catch fish, or farm or purchase any miscellaneous source of canal revenue. The rules and procedure for dealing with these applications

will be the same as those for dealing with applications for water, except that after necessary enquiry the applicant shall, if his demand be complied with, be called on to execute a kaboolyut, a *pattah* being made over to him.

**Rule 37.**—Leases for miscellaneous sources of revenue shall usually run for three or five years, at the discretion of the Deputy Superintendent; but all payments thereon shall be annual and payable on the 1st of June.

**Rule 38.**—A separate register (Register No. III) shall be maintained of all miscellaneous leases.

## PART VIII.

*Of Registers to be maintained under these Rules.*

**Rule 39.**—The following registers shall be maintained by the Deputy Revenue Superintendent:—

Register No. I.—Register of applications.  
Do. No. II.—Do. of water-rate leases (in head office only).

Register No. III.—Register of miscellaneous leases.

Register No. IV.—Daily cash-book.

Do. No. V.—Register of applications for remissions.

Register No. VI.—Register of persons appointed Collector under section 82.

Register No. VII.—Register of unauthorized irrigation.

**Rule 40.**—Register of all village channels shall be maintained by the Executive Engineers in such form as the Superintending Engineer may direct, and lists of all such registered village channels shall from time to time be supplied to the Deputy Superintendent.

## FORM D.

4. I shall be entitled to receive a commission of 5 per cent. on the total sum collected and paid in by me on or before the day of in full of the demand of each ryot, and shall not be entitled to any further remuneration whatever.

5. For a breach of any of the above conditions I will forfeit to the Secretary of State a sum not exceeding Rs. 500.

(Sd.) A. B.

## SUNNUD No.

To A. B., of village , pergunnah

You are hereby appointed under section 82 of Act III (B.C.) of 1876 to collect the sums due on lease No. , in accordance with the terms of the agreement given by you, and which are detailed below:—

1. I will not collect or take from any of the lessees any sum whatever over and above that specified in the lease without written authority from the Deputy Revenue Superintendent.

2. For every sum paid to me by any lessee I will, at the time of payment, grant a receipt in such form as may be prescribed by the Deputy Revenue Superintendent, and I will duly make over to the Deputy Revenue Superintendent or other duly authorized officer every sum received by me from every lessee.

3. On the day of , corresponding to (Uryah date), I will pay in to the Deputy Revenue Superintendent or other duly authorized officer the whole sum collected by me from the lessees, and if such sum be not the full amount due on the lease, my sunnud may be cancelled by the Deputy Revenue Superintendent. I will also give up the counterfoils of my receipt book, together with an account showing the total sum collected from, and the balance still due from, each ryot.

4. I shall be entitled to receive a commission of 5 per cent. on the total sum collected and paid in by me on or before the day of in full of the demand of each ryot, and shall not be entitled to any further remuneration whatever.

5. For a breach of any of the above conditions I will forfeit to the Secretary of State a sum not exceeding Rs. 500.

Deputy Revenue Superintendent.

## APPENDIX E.

The following rules are issued for the information and guidance of the Deputy Revenue Superintendents, tehsildars, and mohurirs:—

*Rule 1.*—As a rule all collections should be made by the tehsildar only, or by such other officer as may be in charge of a canal revenue circle.

*Rule 2.*—The tehsildar or officer in charge of a circle will as heretofore grant detail receipts for all collections made by him, will enter such collections as usual in his siha or No. IV Register, will remit all collections periodically to the head office in Cuttack, with detailed "challans" and counterfoils of all receipts granted. In addition to this, he will at the close of each month submit to the Deputy Superintendent in charge of his circle a detailed statement of all collections made by himself during the month. This will be simply a copy of all "siha" entries made by him during the month, and an abstract statement of demands and collections in the subjoined form:—

## HIGH COURT NOTICES.

Circular Order issued by authority of the High Court of Judicature at Fort William in Bengal.

### CIVIL AND CRIMINAL.

*No. 22, dated the 2nd June 1880.*

In supersession of the orders contained in Circular Order No. 85 of 5th August 1861; of the late Sudder Nizamut Adawlut, and in Circular Order No. 8 (Civil), dated 29th June 1875, the Court are pleased to direct that in future, in all Civil and Criminal Courts, a uniform charge be made for the preparation of copies, whether authenticated or unauthenticated, at the rate of four annas per folio. This term, it is to be carefully explained to all subordinate officers, merely denominates a certain quantity of manuscript; the folio to consist of 150 words English, or of 300 words Vernacular.

2. It is intended that this charge should eventually be levied by means of an impressed stamp of four annas on each sheet of paper corresponding with the folio to be provided by the applicant for a copy. Till such stamps are available, sheets bearing each an impressed (non-judicial) stamp of two annas\* will be used for the preparation of the copies; and the applicant will be required to affix to his application court-fee stamps of an amount sufficient to make up the balance of the charge at the rate of two annas per folio.

\* The Superintendent of Stamps will be requested to arrange for the supply of these stamps through the usual channel, and to have them surfaced with the words "For copies."

3. All copies, whether authenticated or unauthenticated, must in future, before issue, be examined by a salaried officer. The copies themselves will in all cases be made by section-writers, who will be remunerated at the rate of 2 annas per folio. *General Letter No. 19, dated 29th November 1877, is cancelled.*

4. The charge of two annas per folio, levied by means of the impressed stamp, represents the payment to Government on account of the salary of examiners, cost of paper, &c. No refund of this amount will accordingly be allowed. The amount received in court-fee stamps will represent the earnings of the section-writers, whose accounts will be made up monthly, and the amount due to each paid out of contingencies. These payments must be checked at the time with the applications for copies; and care must be taken to see that nothing in excess of the court-fee stamps realized is paid away.

5. To prevent the risk of court-fee stamps being used more than once, the stamps must be cancelled in the usual way at once, when the application is presented, and entry of the amount made, not in the Register of Court-fee Stamps, but in a separate register to be kept for the purpose. At the end of the month, the officer passing the copyist's account will, after checking it with the court-fee stamps, remove the upper part of the applications containing the latter, and after tearing them to pieces, cause them to be burnt in his presence. A certificate that this has been done must be attached to the contingent-bill on which the copyist's fees are drawn.

6. To protect the interests of the Government, care must be taken to see that no copies issue from the courts which are not prepared on the prescribed stamp paper, which must be written on one side of the sheet only,† and not contain more than the authorized number of words. On the other hand, care must be taken to see that applicants are not imposed upon by the copyists spreading their writing over a larger number of sheets than is necessary. By insisting on the number of lines in each sheet being uniform, control may easily be exercised in this matter, the number of words in a few of the lines in each folio being checked. The business of a copyist is (like most other occupations) one calling for skill, and greatly dependent for its successful practice in experience: copyists therefore must possess or acquire skill in their business, or they ought not to be retained.

7. In the case of authenticated copies, the court-fee chargeable under the Court-fee Act should be levied by affixing the necessary stamp to the first folio of the copy,

† As the size of the paper at present available is somewhat small, it may be found convenient to make the copy, not on the side bearing the impressed stamp, but on the reverse.

8. A register of applications for copies should be maintained in the following form :—

*Register of Applications for Copies.*

Serial number.	Date of application.	Name of applicant.	NUMBER OF FOLIOS				Amount of court-fees realized.	Date on which copy was ready for delivery.	Date on which delivery was taken.	REMARKS.
			Filed with application.	Filed afterwards.	Returned unused.	Used.

CIVIL.

*No. 23, dated the 3rd June 1880.*

The Court having found on inquiry that the practice based on its Circular Order No. 13, dated 28th March 1872, differs in different districts as regards recovering from parties to a suit the cost of retransmitting records called for by the Court, is pleased to lay down the following instructions with a view to securing uniformity of practice.

2. When a record is called for by a Civil Court at the instance of a party, the cost of postage should be borne by such party, both for the transmission of the record and for its retransmission; more especially in execution cases. And when a Court calls for records of its own motion, and sees fit in its discretion to make the postage, which is in the first instance paid by the State, a part of the costs payable by the losing or other party, such postage should include the cost of retransmission of the records.

3. With reference to the practice which appears to exist in some districts of sending to Moonsiffs records of execution cases by peons, the Court observes that, although in appearance no cost may be incurred in sending records by peons or coolies, it certainly must cause outlay indirectly. But what is more important is, that to trust the carriage of records to chance "peons and coolies" is an insecure and unsatisfactory plan, as no one could effectually be held responsible in case of important documents being lost in such circumstances.

4. The Court is accordingly of opinion that the post is the proper and regular mode of transmission, and ought to be resorted to on all these occasions.

*No. 24, dated the 11th June 1880.*

The Court are pleased to sanction, as an experimental measure, the filling up by duly certificated Mookhtars, of the requisite particulars, names of parties and witnesses, and the like, in the forms of processes to be served on defendants and on witnesses; the parties who apply for the issue of such processes being held responsible for the correct filling up, which must be effected before the processes are signed and sealed by the Court.

2. District Judges will be good enough to watch the working of this measure, and to report upon it at the end of six months.

## NOTIFICATION.

The following rules, made by the High Court of Judicature at Fort William in Bengal for the guidance of Courts in the exercise of their duties under Section 287 of the Code of Civil Procedure, are published for general information.

C. A. WILKINS, *Officiating Registrar.*

FORT WILLIAM, the 29th June 1880.

## RULES.

N.B.—These rules do not apply to sales of under-tenures held in pursuance of Sections 59, 60 of Act VIII (B.C.) of 1869.

1. Whenever a Court, in the execution of a decree, shall make an order for the sale of any property under Section 284 of the Code, it shall at the same time fix an early day, not being distant more than ten days, for settling the proclamation of sale, of which day notice shall be given to the party or parties applying for the order of sale, and also to the judgment-debtor or judgment-debtors, or his or their respective vakils.

2. When immoveable property is under attachment in execution of a decree, the party applying for the order of sale, or, if more than one, then one of them, shall, before he makes his application, cause search to be made in the office or offices of the Registrar or Sub-Registrars of Deeds, within whose circle or circles the property is situate, with a view to ascertain whether such property is subject to any, and, if so, what encumbrances; and he shall also procure an extract from the register kept by the Collector under Act VII (B.C.) of 1876 if the immoveable property to be sold be the property of a proprietor as defined by the last-mentioned Act.

3. Every application for an order for the sale of property in execution, whether moveable or immoveable, shall be supported by an affidavit to be made by the applicant or by some other person acquainted with the facts of the case, and to be verified in the manner prescribed by the Code for the verification of plaints, which affidavit shall state everything, known or believed by the deponent to exist, which relates to the nature or affects the value of the property to be sold; and, if the deponent has no knowledge or belief on either of these matters, he shall in his affidavit state to the effect that, after making due enquiry into the matter, he has no knowledge or belief respecting the existence of either of such matters. Furthermore, whenever the application is for the sale of immoveable property, the deponent shall state the result of the search hereinbefore directed to be made in the Registrar's Office or offices, and shall also, if the property is a revenue-paying or rent-paying estate, state the revenue or rent payable in respect of such property, and if the immoveable property belong to a proprietor within the meaning of Act VII (B.C.) of 1876, he shall also append to his affidavit the extract from the Collector's register, which by the preceding rule he is directed to procure.

4. The Court may, if for good reason dissatisfied with the affidavit of any deponent made under the second of these rules, require from such deponent a further affidavit respecting the matters as to which he is by that rule required to make an affidavit, and, if the deponent is other than the party at whose instance the application for an order of sale is made, the Court may also for good reason require such last-mentioned party himself to make an affidavit respecting any of such matters.

5. On the day fixed for the settling of the proclamation, the Court shall enquire into the matters necessary to be specified therein, and shall, after perusing the affidavit or affidavits and examining any witnesses whom it may have thought necessary to summon, or whom, being present without being summoned, it may have thought necessary to examine, and after considering any document which it may have required to be produced, settle the proclamation of sale, specifying, as fairly and accurately as possible, the matters required by Section 287 of the Code to be specified; and the proclamation when so settled shall be signed by the judicial officer settling the same.

6. If, when the proclamation is being settled, any of the parties to the suit in which the decree was passed is present, he shall be at liberty to put any relevant questions to any witness who may be examined by the Court, whether that witness be a party to the suit or not, and may also cross-examine such witness, if such witness gives evidence hostile to the interests of the examining party.

7. Every person examined by the Court shall be sworn or affirmed, and a short note or memorandum of his evidence shall be taken down by the Court.

8. The Court may for good reason from time to time adjourn the settling of the proclamation; provided that no such adjournments shall be for longer than a week at a time, and that the entire time consumed by such adjournments shall not exceed four weeks.

9. The costs of the searches, affidavits, and proceedings upon the settlement of the proclamation of sale shall be paid, in the first instance, by the judgment-creditor or creditors; but he or they, as the case may be, shall be at liberty to recover them as part of the costs of execution, unless the Court, for reasons to be specified in writing, should consider that the judgment-creditor or creditors should be deprived either wholly or in part of the first-mentioned costs, or should pay the costs of the judgment-debtor or judgment-debtors in the event of the latter appearing, when the proclamation is settled.

10. In case the applicant for sale has been admitted to sue as a pauper, the costs first mentioned in the preceding rules shall, on the application of the pauper, be in the first

instance paid by Government, but shall be recovered as part of the costs of execution and in the manner provided by Section 411 of the Code of Civil Procedure.

11. If, after the sale-proclamation has been published, any written communication regarding the property to be sold shall be received by the Court, which it considers material for purchasers to know, the Court shall cause the same to be read out when the property is put up for sale.

12. Subject to the proviso in Section 269 of the Code of Civil Procedure, sales of property in execution of decrees in the several Courts of each district (not being Courts of Small Causes) shall be held and commence at a certain day in each month, such day to be fixed by the District Judge or other principal Judge in the district, as regards his own Court and all other Courts sitting at the same place as his own; but as regards subordinate Courts sitting at other places within his district, he shall fix the day in consultation with the Judges of those Courts: Provided that where two or more of such Courts are stationed in the same place, the District Judge may fix the time for sales in consultation with only one of them.

13. All property to be sold at each place of sale shall be entered in lists for each place; the lists of moveable and of immoveable property being distinct. The lists shall be so prepared as to contain, in regular order, each item of property to be sold in execution of the decrees of each Court severally; and shall be stuck up in the Courts where the sales are to be held not less than seven days before the date fixed for the commencement of each set of sales.

14. At the stated hour upon each fixed date the sales shall be commenced, and shall be carried on in the order stated in the lists above mentioned. No sale shall continue after sunset; but the sales shall be held from day to day, except when the Court is closed and until the lists are finished: Provided that this rule shall not interfere with the adjournment of any particular sale according to law.

15. The same days shall not ordinarily be fixed for the sale of movable and of immoveable property.

16. Except as regards property of the kind mentioned in the next succeeding rule, sales in execution of decrees for all courts sitting in sudder stations shall be held in the Court of the District Judge or other chief judicial officer. If, in other places, there are two or more subordinate Courts, all the sales in that place shall be held in such one of the Courts as may be selected by the District Judge. Where there is only one Court, the sales shall be held in that Court: Provided that the Court executing a decree may, if it see fit, for reasons to be specified in writing, direct in the interest of the parties that the sale be held at any other time and place within its jurisdiction, and, when acting under this last-mentioned proviso, shall, except for good reason to the contrary, give the preference as regards choice of time and place to the wishes of the judgment-debtor.

17. All sales of live stock, agricultural produce, articles of local manufacture and of other things commonly sold at country markets shall, unless the Court otherwise direct, be held at such market in the neighbourhood of the place where the goods were attached, as may appear likely to be for the greatest advantage of the debtor, regard being had to the prospect of good prices and to the saving of expense in conveyance and carriage.

### Mary Carpenter Scholarships.

It is hereby notified that the Committee of the National Indian Association in London have renewed for the present year their grant for the award of "Mary Carpenter" Scholarships, to be competed for by girls in Bengal. The scholarships are five in number, and are tenable for one year; two of the annual value of Rs. 60, and three of the annual value of Rs. 48. They will be awarded by the Bengal Branch of the Association to female candidates passing at the Departmental Scholarship examinations, middle and lower, to be held next October.

One scholarship will be assigned to each of the five educational circles,—namely, the Presidency, Western, Eastern, Rajshahye, and Behar Circles. A scholarship not taken up in one circle will be awardable in any other; candidates from Orissa having the first claim on a scholarship not taken up in the Rajshahye Division.

Candidates requiring further information should apply to the Inspector of Schools of the Circle, the Deputy Inspector of the district, and the Secretary to the District Committee.

## PUBLIC WORKS DEPARTMENT.—BENGAL.

## ESTABLISHMENT.

*The 13th July 1880.*

No 124.—*Notification.*—The following Notification of the Government of India in the Public Works Department, is republished for information:—

\* No. 337, dated 9th July 1880.—Resolution by the Government of India in the Public Works Department, No. 13724, dated 9th July 1880:—

\* Read.

\* Public Works Department Resolution No. 365G, dated 5th February 1880.

\* Public Works Department Resolution No. 1174G, dated 4th June 1880.

\* Public Works Department Resolution No. 1272G, dated 18th June 1880.

\* *Resolution.*—In accordance with the two Resolutions last read, and the principle laid down for the promotion of Officers of the Engineer Establishment, the Governor-General in Council is pleased to

**Rule 14.**—After ascertaining by survey maps or actual measurement, and recording on the application the areas being or to be irrigated, the enquiring officer shall prepare a permit to supply water in the form prescribed in Appendix C for despatch to the supplying officer. A copy of the permit may, if wished, be made over to the applicants.

**Rule 15.**—Should the enquiring officer be of opinion that the areas applied for cannot be irrigated, or that the application should not for other reasons be sanctioned, he will submit his report with all the papers of the case for the orders of the Deputy Superintendent.

**Rule 16.**—It shall be at the discretion of the Deputy Superintendent to grant supply of water to any village or villages for which applications for water may have been received without waiting for the completion of any local enquiry or measurement.

**Rule 17.**—The manner in which any application may be finally disposed of should be briefly stated in the column of remarks in Register No. I.

**Rule 18.**—When an application for water has been finally disposed of, either by an order to supply water or otherwise, it should be forwarded to the head office, where it will be registered in detail in the register of leases (Register No. II).

#### PART IV.

##### *Of Water Distribution to Applicants.*

**Rule 19.**—Village channels have been constructed and are maintained by Government for the purpose of leading water to some convenient point or points within the boundaries of certain villages; and wherever such channels exist, canal water shall, if possible, be supplied from them to all applicants by the Superintending Engineer, his Executive Engineers, and their subordinates.

**Rule 20.**—Where village channels exist from which supply can be given, applicants shall be directed to construct such village channels as may be required to irrigate their areas, and supply may be withheld until proper channels are made.

**Rule 21.**—Canal officers shall give every assistance to applicants in laying out and aligning village channels, and every effort must be made to induce villagers to construct their own channels.

**Rule 22.**—The complete control and custody of all irrigation sluices shall rest in the Superintending Engineer and the Executive Engineers subordinate to him; but it shall be competent to either of these officers, by an order in writing, to transfer the control and custody of any sluice to any person deemed fit to take charge thereof.

**Rule 23.**—All questions as to priority of right to take water, and all disputes regarding the quantity and regulation of supply, shall be determined by the Executive Engineer. It shall further be competent to this officer, at his discretion, to close entirely such channels and outlets as he may deem expedient to ensure proper rotation of supply to all applicants, and no claims for compensation for such closure shall lie.

**Rule 24.**—Applicants whose applications may have been sanctioned shall as far as possible be supplied at any time during the growth of the crop mentioned in their applications; but no applicant for water for a rice crop can claim a full supply before the 15th of June.

**Rule 25.**—Cultivators shall embank the field to which water is supplied, so that the water shall not run to waste or flow unnecessarily on land not entitled to irrigation.

**Rule 26.**—Where water is appropriated in an unauthorized manner, by cutting canal, distributary or village channel banks, or by opening sluices or shoots fixed in such banks, or by cutting or neglecting to keep in repair the boundaries of fields to which water is supplied, and the person by whose act or neglect such appropriation has ensued cannot be identified, all lands deriving benefit shall be liable to twice the ordinary charge, or such other charge, not being less than the ordinary rate, as the Deputy Superintendent of Canal Revenue may determine.

#### PART V.

##### *Of Realization of Water-rates.*

**Rule 27.**—Any person appointed as a Collector under section 82 of the Act shall receive sunnuds of appointment in Form D for each village from which he agrees to collect, and he will be entitled to receive commission at the rate of 5 per cent. on all sums paid by him to Government on or before such dates as may be stated in his sunnuds of appointment. The person appointed Collector shall usually be a nominee of the cultivators from whom water-rates are due. No person appointed as Collector of water-rate shall be entitled to claim his commission until he has submitted such accounts as the Deputy Superintendent may prescribe.

**Rule 28.**—The Deputy Superintendent shall be at liberty to cancel any sunnud of appointment to collect, whenever such course appears advisable in the interest of Government or of the cultivators.

**Rule 29.**—Where no Collectors of water-rates are appointed, realizations will be made by the Canal Revenue Officers in charge of circles and by their authorized subordinates. The instructions embodied in Appendix E regarding collections must be read as part and parcel of these rules, and must be adhered to by all canal revenue subordinates.

**Rule 30.**—Demand statements of the water-rates due from each village will be issued from the Canal Revenue Office at least two months before such water-rates fall due. All demand statements will contain the names and residences of the cultivators from whom water-rates are due, the areas on which rates are payable, and amounts due from each ryot. Demand statements shall be served on the Collector, or if no Collector has been appointed, on some one of the principal applicants. General notice of such service shall be posted on some conspicuous part of each village, and shall specify dates of payment.

**Rule 31.**—The dates of payment of water-rates for the different crops shall be as follow:—

For rice	1st February.
„ sugarcane	1st June.
„ dalwa and other dry- weather crops	1st August.

All payments of water-rates shall be paid in one instalment.

## PART VI.

**Rule 32.**—All objections and claims for remission shall be made to the Deputy Superintendent.

**Rule 33.**—Remissions of water-rates will be granted in whole or in part by the Deputy Superintendent on the following grounds:—

- (1) The total failure of supply.
- (2) Damage to crops caused by deficiency or delay in the supply of water, in consequence of some act or omission on the part of the supplying officer, and independent of any act or omission on the part of the applicants.
- (3) Damage caused by excess water under above restrictions.
- (4) Where it can be shown that no crop was grown as originally intended. Provided that no claim for remission shall be allowed unless made while the crops alleged to have been damaged are on the ground.

**Rule 34.**—Special cases for remission not coming under the above heads shall be reported to the Collector for orders.

**Rule 35.**—All orders passed on claims for remission shall be duly communicated to the parties concerned.

## PART VII.

*Of Miscellaneous Sources of Revenue.*

**Rule 36.**—Written applications must be given on plain paper to the Deputy Superintendent or to his duly authorized subordinate by any person wishing to cultivate Government canal lands, catch fish, or farm or purchase any miscellaneous source of canal revenue. The rules and procedure for dealing with these applications

will be the same as those for dealing with applications for water, except that after necessary enquiry the applicant shall, if his demand be complied with, be called on to execute a kaboolyut, a *pattah* being made over to him.

**Rule 37.**—Leases for miscellaneous sources of revenue shall usually run for three or five years, at the discretion of the Deputy Superintendent; but all payments thereon shall be annual and payable on the 1st of June.

**Rule 38.**—A separate register (Register No. III) shall be maintained of all miscellaneous leases.

## PART VIII.

*Of Registers to be maintained under these Rules.*

**Rule 39.**—The following registers shall be maintained by the Deputy Revenue Superintendent:—

Register No. I.—Register of applications.  
Do. No. II.—Do. of water-rate leases (in head office only).

Register No. III.—Register of miscellaneous leases.

Register No. IV.—Daily cash-book.

Do. No. V.—Register of applications for remissions.

Register No. VI.—Register of persons appointed Collector under section 82.

Register No. VII.—Register of unauthorized irrigation.

**Rule 40.**—Register of all village channels shall be maintained by the Executive Engineers in such form as the Superintending Engineer may direct, and lists of all such registered village channels shall from time to time be supplied to the Deputy Superintendent.

4. I shall be entitled to receive a commission of 5 per cent. on the total sum collected and paid in by me on or before the day of , in full of the demand of each ryot, and shall not be entitled to any further remuneration whatever.

5. For a breach of any of the above conditions I will forfeit to the Secretary of State a sum not exceeding Rs. 500.

Deputy Revenue Superintendent.

## APPENDIX E.

The following rules are issued for the information and guidance of the Deputy Revenue Superintendents, tehsildars, and mohurirs :—

*Rule 1.*—As a rule all collections should be made by the tehsildar only, or by such other officer as may be in charge of a canal revenue circle.

*Rule 2.*—The tehsildar or officer in charge of a circle will as heretofore grant detail receipts for all collections made by him, will enter such collections as usual in his siha or No. IV Register, will remit all collections periodically to the head office in Outtack, with detailed "challans" and counterfoils of all receipts granted. In addition to this, he will at the close of each month submit to the Deputy Superintendent in charge of his circle a detailed statement of all collections made by himself during the month. This will be simply a copy of all "siha" entries made by him during the month, and an abstract statement of demands and collections in the subjoined form :—

The tehsildar or officer in charge of a circle will also submit to the head office in Outtack half-yearly returns of all outstanding balances. These returns will show in detail the amounts due from each defaulter. They will be checked and compared in the head office, and then forwarded to the Deputy Superintendent in charge of the canal to which they refer, and he will, when on tour of inspection, ascertain by personal enquiry from the alleged defaulters, as noted in such balance sheet, whether the sums due from them have been realized or not.

*Rule 3.*—Whenever it may be found necessary to employ ameens and mohurirs for collection work, the following system will be adopted :—

- The tehsildar or officer in charge of the circle will remain at head-quarters.
- The ameens and mohurirs collecting money will remit once or twice a week all their collections to the tehsildar's cutcherry. These remittances will be accompanied by a challan showing in gross the amounts remitted—
  - under the head of water-rates, and
  - under miscellaneous, thus—

and all the counterfoils of receipts granted by the collecting officer.

For the sums so remitted the collecting officer will obtain a receipt from the tehsildar or officer in charge of the tehsil cutcherry, and these receipts will as heretofore be posted into collecting officer's "siha" below dates of remittance, sufficient space being left for the purpose. Collecting ameens and mohurirs will keep up detail "sihas" showing the particulars of all sums collected and remitted to the tehsil cutcherry, and at the close of each month will forward their "sihas" to the Deputy Superintendent in charge, procuring from him a receipt for their monthly "siha" in the subjoined form :—

- Dates between which collections noted in the "siha" were made.
- Name of collecting officer.

Irrigation Branch.*

## RULES UNDER ACT III (B.C.) 1876.

1. The Collector, before awarding compensation under section 16, or for making a reference under section 17 of the Act, shall obtain the written opinion of the Superintending Canal Officer, which shall form part of the record of the proceedings.
2. Persons desirous of acquiring land for the construction of a village channel, or for having a village channel constructed by Canal Agency, shall prefer a written application to the Divisional Canal Officer, or to any other officer duly authorized by him to receive such application.
3. Ordinarily, no village channel shall exceed two miles in length from its head to the point of contact with the village boundary.
4. It shall be the duty of the Canal Officer to register all village channels after due notice has been given to the owner of his intention to do so; if the latter objects, no water will be given.
5. No alteration among the shareholders will be recognized, unless the sanction of the Canal Officer has been first obtained.
6. Persons desirous of taking water from a registered village channel shall, previous to doing so, prefer a written application (Appendix A) to the Divisional Canal Officer, Sub-Divisional Canal Officer, or any subordinate duly authorized by the Divisional Canal Officer to receive such application; and no water shall be taken until after the receipt of a permit (Appendix B) from competent authority.
7. Water shall not be granted where, in the opinion of the Canal Officer, waste is likely to occur.
8. An application under Rule 6 shall, if granted, and unless otherwise specially agreed upon, be subject to the following conditions:—
  - (a)—That the water supplied shall not be used for other purposes than irrigation without the written consent of the Divisional or Sub-Divisional Canal Officer.
  - (b)—That the Sub-Divisional Canal Officer shall, in consultation with the applicants, appoint a headman (to be called a *Lambardar*), known, or ascertained to be, a substantial person possessed of property, to attend to their interests, to receive and carry out the orders of the Canal Officers, and to distribute the water among the shareholders in the village channel according to their shares.
  - (c)—That in any case where the Sub-Divisional Canal Officer cannot agree with the applicants in the appointment of a *Lambardar*, the Sub-Divisional Canal Officer shall make the appointment himself, subject to the approval of the Divisional Canal Officer.
9. The Divisional Canal Officer is empowered to pay to the *Lambardar* appointed under Rule 81, the fees detailed in the rule next following, subject to the condition of satisfactory performance of duty.

10. The allowance to the *Lambardar* for duties connected with the village channel such as arranging that it shall be kept in proper repair, reporting unauthorized irrigation, distributing the water to the shareholders, seeing that the outlet is closed according to the orders of the Sub-Divisional Canal Officer, and generally assisting the officers of the Irrigation Department, shall be half anna in the rupee on the amount of canal water-rate assessed on the lands irrigated from the village channel under his charge. The Divisional Canal Officer may retrench the whole or any part of the fees under this rule in the event of non-compliance with these conditions.

11. The Sub-Divisional Canal Officer may, by written order under section 76 (a), stop the supply to any village channel when he is satisfied, after inspection by himself or by one of his subordinates, that it is not maintained in proper repair; such order shall be recorded in the Sub-Divisional Office.

12. The Divisional Canal Officer may close the outlets in rotation as he may consider necessary. Such closures shall not extend beyond ten consecutive days, and shall be notified to the *Lambardars* of village channels. For longer closures the authority of the Superintending Canal Officer is required.

13. Nothing in the above rules shall be taken to affect the power of the Superintending or Divisional Canal Officer to stop the supply of water in case of pressing emergency.

14. The water-gauges on distributaries or other channels shall be held to give authoritative data for all calculations of discharge required to verify claims for remission of water-rate on account of loss of water.

15. Claims to remission of water-rates under section 76 (b) shall only be admitted on proof of actual loss caused by the stoppage of supply. On proof of such loss, the Divisional Canal Officer may remit the whole or any portion of the rates. All applications for remission of water-rates shall be made in writing by the parties concerned, either in person, or through their headman, to the nearest Sub-Divisional Canal Officer, at least seven days prior to the cutting of the crop. On receipt of such application, the Sub-Divisional Canal Officer shall, after due local enquiry, forward the application with his remarks to the Divisional Canal Officer for decision.

16. Before awarding compensation under section 76 (c), the Collector shall obtain the written opinion of the Divisional Canal Officer, and such opinion shall form part of the record of the proceedings.

17. Contracts between the Divisional Canal Officer on the part of Government, and private individuals, for the use of water as a motive power, or for any other purpose whatsoever, not included in the published schedule of rates, shall, if for any period not exceeding one year, require the previous sanction of the Superintending Canal Officer. If exceeding for longer periods, such contracts shall be submitted for the sanction of the Lieutenant-Governor in the Irrigation Department.

18. Tanks may be filled with canal water without charge, and without reference to the area irrigated in any village, wherever water can be made available without injury to the cultivation dependent on any canal, under the following conditions:—

(a).—No tank shall be so filled unless the water is to be exclusively used for domestic purposes or for watering cattle, or both.

(b).—No tank shall be so filled from which irrigation is practised.

(c).—No tank shall be so filled which, intercepting any line of drainage, is liable to overflow from accumulation of water derived from natural causes.

(d).—No tank shall be so filled except on the written order of the Sub-Divisional Canal Officer issued on the written application of the parties concerned.

(e).—No tank shall be so filled unless the village channel used to fill it shall be shown to the satisfaction of the Sub-Divisional Canal Officer to be in a sound condition when the application is made.

(f).—The privilege herein accorded may, by written order of the Divisional Canal Officer, subject to revision by the Superintending Canal Officer, whose decision shall be final, be suspended for 12 months for breach of any of the above conditions.

19. Leases for terms of five years for the supply of water between the 25th June of one year and the 1st April of the following year will be given at the rates fixed in the Schedule, Rule 83, provided that land leased in any village forms one or more compact blocks, each of not less than 50 acres, defined by well-marked boundaries of such a nature as clearly to distinguish leased from the adjoining unleased lands, and to prevent the latter from being surreptitiously watered under cover of the lease.

20. Well-marked boundaries of the nature required by the foregoing rule generally exist. Village roads, bunds of *abrams*, village boundaries, and similar natural marks will be sufficient. If such do not exist, and it appears advisable to grant the lease, the villagers may, at the discretion of the Divisional Canal Officer, be required to make small bunds round the leased area, or mark its limits by the erection of cheap boundary marks, or cause to be carried out such arrangements as may suffice for the future identification of the leased area.

21. No restriction is placed on the description of crop to be grown under five-year leases, but no water will be given on these leases between the 1st of April and the 25th of June. The Superintending Canal Officer may relax this rule in the case of water being required for rice-seed beds.

22. If in the opinion of the Divisional Canal Officer it appears advisable to grant a lease for a block of less than 50 acres in area, he must refer the matter for the decision of the Superintending Canal Officer, at whose discretion the restriction as to area may be relaxed.

23. Present holders of three-year leases may at their option avail themselves of the terms offered to the holders of the five-year leases, but without retrospective effect.

24. Leases for five years at the rates entered in Rule 33 may be given—(1) on the application of all the cultivators of the area proposed to be leased, on condition of their agreeing in such application to become jointly and severally responsible for the payment of all amounts due on account of water-rates; or (2) on the joint application of the cultivators and of some person hereinafter called the Contractor, who may agree to collect and pay to Government, under section 82 of Act III (B.C.) of 1876, all sums due under the agreement on account of water-rates. The agreement of villagers binding themselves jointly and severally will be in the form prescribed in Appendix C. The joint agreement of villagers and a water-rate Contractor shall be in the form prescribed in Appendix D. Every agreement under this rule must be signed by each applicant in the presence of at least one respectable witness.

25. Contractors shall be entitled to collect water-dues, at the rates given in schedule 4 attached to Rule 33, from the cultivators who have applied for the water supplied. Every due from a cultivator to the Contractor on account of water-rates shall be deemed to be a sum due to Government under sections 82 and 85 of Act III (B.C.) of 1876.

26. A Contractor (or in case there be more than one, each Contractor severally and jointly) shall be responsible for all sums payable on the agreement (Appendix D), except such sums as may be remitted by competent authority under the rules in force, and shall be entitled to a deduction of 5 per cent. for cost of collection.

27. No water shall be taken previous to the receipt of a permit (Appendix B) signed by the Divisional Canal Officer. When an agreement has been made for the collection of the rates by a Contractor, the Divisional Canal Officer shall under section 82 furnish such Contractor with a written authority to collect the amounts due by the cultivators according to a list furnished in the application, one copy of which is to be sent to the Collector.

28. Every Contractor shall nominate a headman, to be approved of by the Divisional Canal Officer, to perform the duties specified in Rule 10. Such headman or the contractor, according to the arrangement made at the time of contract, shall receive 5 per cent. on the assessment, but the Divisional Canal Officer may retrench the whole or any part of these fees if the duties are not properly performed.

29. All water-rates for five years leases leviable under the above leases shall become due on the 31st December and 15th March in equal portions, and shall be paid within one month of such dates.

30. Under section 78 of the Act, the rates chargeable per acre for water supplied to the different description of crops up to 1st of April 1881, except in cases of three-year leases now in existence, will be as follow:—

SCHEDULE 1.—Existing rates.

37. In the case of lands held in *bhaoli*, the zemindar shall sign jointly with the cultivators. (This rule only applies to the case of five-year leases.)

38. The area irrigated in any village shall be measured by an *Ameen* appointed for the purpose. The *Putwari* shall be present at the measurement, and shall at the time take a copy of the *khasrah* of the *Ameen*; if for any reason the *Putwari* is not present, the cost of preparing the copy will be charged against him. This copy shall be delivered to the *Putwari*, or, in his absence, to the *Lambardar*. Both the *Lambardar* and *Putwari* shall sign the *khasrah*.

39. When the measurement is completed, the *khasrah* shall be forwarded to the Sub-Divisional Canal Officer, who shall prepare the *khatiani* with all possible despatch. A copy of the *khatiani*, signed and sealed by the *Zilladar*, shall, as soon as it is prepared, be forwarded to the *Putwari*, who shall grant a receipt for the same. If the *Putwari* is not present, or declines to receive the *khatiani*, the Sub-Divisional Officer shall forward it direct to the Collector.

40. It shall be the duty of the *Putwari*, immediately on the completion of the measurement, to inform each ryot, on application, of the fields measured against him, and on receipt of the *khatiani* to supply each person charged with a *porcha* showing the water-rates due. For these duties, and for attending the measurement and rendering such other reasonable assistance to the Canal Officer and Collector as may be required, an allowance of one quarter anna per rupee on the amount collected shall be made.

41. This allowance shall be paid to the *Putwari* by the Collector if he is satisfied that the work has been properly done.

42. The Canal Officer shall note on the *khatiani* whether the *Putwari* has given proper assistance during the measurement.

43. If a cultivator is dissatisfied with the entries made against him in the *khatiani*, whether as to the fact of the land having been charged "flow" instead of "lift" or as to the measurements and entries of classes of crops, he must lodge a complaint, either personally or through the *Lambardar* of his village channel, with the Divisional or Sub-Divisional Canal Officer within a month after the date of the demand being made on him.

44. The *Zilladar* shall submit his check measurements in a form (Appendix E) which shall be sent in for the inspection of the Divisional Canal Officer. The Sub-Divisional Canal Officer shall check the *Amcens'* measurements as often as he possibly can. If it be found that any *ameen* wilfully or frequently makes wrong measurements, he shall be punished by dismissal.

45. Collection of all water-rates shall be made by the Collector in accordance with the statement of demands furnished to him by the Divisional Canal Officer.

46. Objections to the demand addressed to the Collector, if preferred within one month after the demand has been made, shall, if remission be claimed on the score of short supply, or of any matter affecting the Irrigation Department, be referred for orders to the Divisional Canal Officer. The Collector shall have discretion to suspend collections by a written order in cases where (objections having been filed) it may seem advisable to do so.

47. Claims for remission, referred by the Collector and admitted by the Divisional Canal Officer, shall be reported by him for the sanction of the Superintending Canal Officer, except in cases where remissions are made on account of excess areas having been charged, or a wrong name entered in the *khatiani*.

48. If the Divisional Canal Officer reject the claim, an appeal may be made to the Superintending Canal Officer, provided that it is preferred within forty days from the issue of the order of the Divisional Canal Officer.

49. A remission statement, signed by the Superintending or Divisional Canal Officer, shall be sufficient authority for a refund by the Collector.

50. In special cases not otherwise provided in these rules, and in cases where water-rates are not recoverable owing to the absconding or bankruptcy of the defaulter, the Collector will obtain the sanction of the Commissioner of the Division to the remission of such sums as he may deem irrecoverable. The details of such remission shall be communicated at the close of each official year to the Divisional Canal Officer.

51. The Collector shall appoint a headman (to be called a *Tehsildar*), whose duty will be to collect and pay in, to the Collector or other duly authorized person, all water-rates leviable on the land irrigated.

52. The *Tehsildar* shall furnish security for the payment of all sums realized by him, the stamp and registration fees on security bonds being deducted from the percentage allowed, under the following rule.

53. The allowance to the *Tehsildars* of a village or villages for collecting the water-rates shall be fixed by the Collector, but the total amount to be paid in any one year to all the *Tehsildars* in a district shall not exceed half an anna in the rupee on the amounts actually paid in. If the *Tehsildar* shall satisfy the Collector that arrears have not accrued through any negligence on his part, it shall be at the option of the Collector to pay him the allowance on the whole or any part of such arrears.

54. If only a portion of a field be irrigated, the water-rate shall be chargeable on the whole field, unless such portion shall have been clearly demarcated, previous to the admission of the water, by a ridge not less than half a foot high.

55. When a portion of a field has been irrigated with canal water, and a portion with well or reservoir water, the whole field shall be liable for canal water-rate, unless a clearly-distinguishable boundary exists between the two portions.

56. If well or reservoir water is conveyed in the same channel as canal water, the whole of the irrigation from that channel shall be liable to canal water-rate. The *Lambardar* will be held personally responsible that this and any breach of Rules 54 and 55 is duly reported.

57. Irrigation from escape channels, when the supply is permanent, shall be governed by the same rules as irrigation from other parts of the canal.

58. Irrigation from such channels, when the supply is intermittent, may be allowed at such reduced rates as shall from time to time be fixed by the Lieutenant-Governor.

59. Persons using water without a written permit, or taking water at times prohibited by proper authority, shall be liable to a penalty not exceeding double water-rates on the area irrigated, and such charge shall be leviable at the time of report to the Collector.

60. The charge leviable for water suffered to run to waste on uncultivated lands shall be calculated at the highest rate specified in the schedule, viz. Rs. 5 per acre on the area flooded; provided that in every such case the Divisional Canal Officer may impose a lower rate if he thinks fit. The *Lambardar* is to be held responsible for reporting such waste of water.

61. When the original crop sown in a field irrigated by canal water fails, and is ploughed up, and a fresh crop is sown in the same season, the water-rates shall be levied on the second crop.

62. No person shall, without the permission in writing of the Divisional or Sub-Divisional Canal Officer, pass, or cause any animal or vehicle to pass, on or across any of the works, banks, or channels of a canal or drainage work after he has been desired to desist therefrom; excepting by means of such bridges, fords, and ferries, and their approaches, as are provided by the Divisional Canal Officer.

63. No Canal Officer, unless specially exempted by the Lieutenant-Governor from the operation of this rule, shall have any interest in the distribution of water from any of the canals, or purchase or bid for any Government property sold thereon, either in his own name, or in the name of another, or jointly, or in shares with others.

# RULES UNDER ACT III (B.C.) OF 1876.

## PART I.

### Of Supply.

Rule 1.—Canal water will be supplied on written applications at the rates and on the conditions to be hereafter stated. (Section 74, Act III of 1876.)

Rule 2.—All applications must be made in forms which may be obtained free of cost at the Canal Revenue Offices. (Appendices A and B.)

Rule 3.—Applications for water will be received by the Deputy Revenue Superintendents or their duly authorized subordinates at the various circle and branch circle offices.

Rule 4.—Any Deputy Superintendent may refuse an application if he thinks it would not be to the interest of Government to comply with it. This discretion will be vested in the Deputy Superintendents only. Other canal revenue officers authorized to receive applications must refer for orders all doubtful cases to the Deputy Superintendent in charge of their respective circles.

## PART II.

### Rates and Conditions of Supply.

Rule 5.—The rates chargeable per acre for the different descriptions of crops have been fixed up to the end of November 1882, and are as follow:—

Crop.	Flow.		Lift.	
First Rice.	Rs.	A. P.	Rs.	A. P.
For the whole irrigable and ripe cultivated area of any village if applied for up to expiration of sanctioned rates ...	1	8 0	1	0 0
For any fractional area of any village or for other term...	3	0 0	2	0 0
Second Rice.				
For dry-weather or rubber crops for dalwa rice ...	1	8 0	1	0 0
For cotton, tobacco, haldi, ginger, wheat, vegetables, indigo, and all garden produce ..	2	0 0	1	8 0
For linseed, oilseed, dal, and all pulses	1	0 0	0	10 0
Third Rice.				
For sugarcane ...	8	0 0	4	0 0
Fourth Rice.				
For filling tanks, Re. 1 per 10,000 cubic feet.				

Rule 6.—Applications for water for the irrigation of rice crops at Re. 1-8 per acre "flow" and Re. 1 "lift" must be signed by all the cultivators holding rice culturable and irrigable lands in the villages mentioned in the applications, and the names of the villages adjoining that in respect of which the application is made must be specified at the back of the applications.

Rule 7.—Applications for water at Rs. 3 "flow" and Rs. 2 "lift" irrigation must be signed by all those cultivating in the specific portion of the villages applied for. At the back of such applications should be entered the names and boundaries of the *chaks* or plots for which water is required.

Rule 8.—The provisions of Rule 7 will apply to all applications for water for sugarcane and dry-weather crops.

Rule 9.—Applications under Rules 6, 7, and 8 will not be deemed complete until all the signatures of intending irrigators have been obtained, and water may be refused by the Deputy Superintendent until all the signatures shall have been obtained. Those who cannot write must affix their marks.

Rule 10.—All applicants should have distinctly explained to them the terms of the agreement at the head of their applications. The assessments made will be on the areas actually irrigable or irrigated and cultivated by applicants, and not on the areas as stated by them.

Rule 11.—Separate applications must be given in respect of each description of crop mentioned in the statement attached to Rule 5.

Rule 12.—The Deputy Superintendent may refuse to comply with the application of any village from the cultivators of which any arrears of water-rates are due, until such time as the arrears are paid.

## PART III.

### Of the Procedure for the Disposal of Applications for Water.

Rule 13.—On receipt of an application for water it should be dated and initialled by the receiving officer and entered in the register of applications (Register No. I). The officer receiving it, or his duly authorized subordinate, will then proceed to ascertain by local enquiry and the aid of survey maps, or by actual measurement, the following particulars regarding the lands mentioned in the applications:—

- (1) Whether canal supply can be given.
- (2) Whether the particulars as to areas and boundaries as given in the application are correct.
- (3) Whether, with reference to the situation of the lands and areas applied for, it is to the interest of Government to comply with the application.

**Rule 14.**—After ascertaining by survey maps or actual measurement, and recording on the application the areas being or to be irrigated, the enquiring officer shall prepare a permit to supply water in the form prescribed in Appendix C for despatch to the supplying officer. A copy of the permit may, if wished, be made over to the applicants.

**Rule 15.**—Should the enquiring officer be of opinion that the areas applied for cannot be irrigated, or that the application should not for other reasons be sanctioned, he will submit his report with all the papers of the case for the orders of the Deputy Superintendent.

**Rule 16.**—It shall be at the discretion of the Deputy Superintendent to grant supply of water to any village or villages for which applications for water may have been received without waiting for the completion of any local enquiry or measurement.

**Rule 17.**—The manner in which any application may be finally disposed of should be briefly stated in the column of remarks in Register No. I.

**Rule 18.**—When an application for water has been finally disposed of, either by an order to supply water or otherwise, it should be forwarded to the head office, where it will be registered in detail in the register of leases (Register No. II).

#### PART IV.

##### *Of Water Distribution to Applicants.*

**Rule 19.**—Village channels have been constructed and are maintained by Government for the purpose of leading water to some convenient point or points within the boundaries of certain villages; and wherever such channels exist, canal water shall, if possible, be supplied from them to all applicants by the Superintending Engineer, his Executive Engineers, and their subordinates.

**Rule 20.**—Where no village channels exist from which supply can be given, applicants shall be directed to construct such village channels as may be required to irrigate their areas, and supply may be withheld until proper channels are made.

**Rule 21.**—Canal officers shall give every assistance to applicants in laying out and aligning village channels, and every effort must be made to induce villagers to construct their own channels.

**Rule 22.**—The complete control and custody of all irrigation sluices shall rest in the Superintending Engineer and the Executive Engineers subordinate to him; but it shall be competent to either of these officers, by an order in writing, to transfer the control and custody of any sluice to any person deemed fit to take charge thereof.

**Rule 23.**—All questions as to priority of right to take water, and all disputes regarding the quantity and regulation of supply, shall be determined by the Executive Engineer. It shall further be competent to this officer, at his discretion, to close entirely such channels and outlets as he may deem expedient to ensure proper rotation of supply to all applicants, and no claims for compensation for such closure shall lie.

**Rule 24.**—Applicants whose applications may have been sanctioned shall as far as possible be supplied at any time during the growth of the crop mentioned in their applications: but no applicant for water for a rice crop can claim a full supply before the 15th of June.

**Rule 25.**—Cultivators shall embank the field to which water is supplied, so that the water shall not run to waste or flow unnecessarily on land not entitled to irrigation.

**Rule 26.**—Where water is appropriated in an unauthorized manner, by cutting canal, distributary or village channel banks, or by opening sluices or shoots fixed in such banks, or by cutting or neglecting to keep in repair the boundaries of fields to which water is supplied, and the person by whose act or neglect such appropriation has ensued cannot be identified, all lands deriving benefit shall be liable to twice the ordinary charge, or such other charge, not being less than the ordinary rate, as the Deputy Superintendent of Canal Revenue may determine.

#### PART V.

##### *Of Realization of Water-rates.*

**Rule 27.**—Any person appointed as a Collector under section 82 of the Act shall receive sunnuds of appointment in Form D for each village from which he agrees to collect, and he will be entitled to receive commission at the rate of 5 per cent. on all sums paid by him to Government on or before such dates as may be stated in his sunnuds of appointment. The person appointed Collector shall usually be a nominee of the cultivators from whom water-rates are due. No person appointed as Collector of water-rate shall be entitled to claim his commission until he has submitted such accounts as the Deputy Superintendent may prescribe.

**Rule 28.**—The Deputy Superintendent shall be at liberty to cancel any sunnud of appointment to collect, whenever such course appears advisable in the interest of Government or of the cultivators.

**Rule 29.**—Where no Collectors of water-rates are appointed, realizations will be made by the Canal Revenue Officers in charge of circles and by their authorized subordinates. The instructions embodied in Appendix E regarding collections must be read as part and parcel of these rules, and must be adhered to by all canal revenue subordinates.

**Rule 30.**—Demand statements of the water-rates due from each village will be issued from the Canal Revenue Office at least two months before such water-rates fall due. All demand statements will contain the names and residences of the cultivators from whom water-rates are due, the areas on which rates are payable, and amounts due from each ryot. Demand statements shall be served on the Collector, or if no Collector has been appointed, on some one of the principal applicants. General notice of such service shall be posted on some conspicuous part of each village, and shall specify dates of payment.

**Rule 31.**—The dates of payment of water-rates for the different crops shall be as follows:—

For rice	1st February.
„ sugarcane	1st June.
„ dalwa and other dry- weather crops	1st August.

All payments of water-rates shall be paid in one instalment.

## PART VI.

**Rule 32.**—All objections and claims for remission shall be made to the Deputy Superintendent.

**Rule 33.**—Remissions of water-rates will be granted in whole or in part by the Deputy Superintendent on the following grounds:—

- (1) The total failure of supply.
- (2) Damage to crops caused by deficiency or delay in the supply of water, in consequence of some act or omission on the part of the supplying officer, and independent of any act or omission on the part of the applicants.
- (3) Damage caused by excess water under above restrictions.
- (4) Where it can be shown that no crop was grown as originally intended. Provided that no claim for remission shall be allowed unless made while the crops alleged to have been damaged are on the ground.

**Rule 34.**—Special cases for remission not coming under the above heads shall be reported to the Collector for orders.

**Rule 35.**—All orders passed on claims for remission shall be duly communicated to the parties concerned.

## PART VII.

*Of Miscellaneous Sources of Revenue.*

**Rule 36.**—Written applications must be given on plain paper to the Deputy Superintendent or to his duly authorized subordinate by any person wishing to cultivate Government canal lands, catch fish, or farm or purchase any miscellaneous source of canal revenue. The rules

and procedure for dealing with these applications will be the same as those for dealing with applications for water, except that after necessary enquiry the applicant shall, if his demand be complied with, be called on to execute a kaboolyut, a *pattah* being made over to him.

**Rule 37.**—Leases for miscellaneous sources of revenue shall usually run for three or five years, at the discretion of the Deputy Superintendent; but all payments thereon shall be annual and payable on the 1st of June.

**Rule 38.**—A separate register (Register No. III) shall be maintained of all miscellaneous leases.

## PART VIII.

*Of Registers to be maintained under these Rules.*

**Rule 39.**—The following registers shall be maintained by the Deputy Revenue Superintendent:—

Register No. I.—Register of applications.

Do. No. II.—Do. of water-rate leases (in head office only).

Register No. III.—Register of miscellaneous leases.

Register No. IV.—Daily cash-book.

Do. No. V.—Register of applications for remissions.

Register No. VI.—Register of persons appointed Collector under section 82.

Register No. VII.—Register of unauthorized irrigation.

**Rule 40.**—Register of all village channels shall be maintained by the Executive Engineers in such form as the Superintending Engineer may direct, and lists of all such registered village channels shall from time to time be supplied to the Deputy Superintendent.

## FORM D.

*Agreement to be taken from, and Sunnud given to, the person appointed under Part V, Rule 27.*

## AGREEMENT No.

I, A. B., of village , pergunnah , having on the nomination of the lessee been appointed by the Deputy Revenue Superintendent, under section 82, Act III of 1876, to collect the sum of Rs. on account of water-rates due on lease No. as specified therein, do hereby engage and promise as follows:—

1. I will not collect or take from any of the lessees any sum whatever over and above that specified in the lease without written authority from the Deputy Revenue Superintendent.

2. For every sum paid to me by any lessee, I will, at the time of payment, grant a receipt in such form as may be prescribed by the Deputy Revenue Superintendent, and I will duly make over to the Deputy Revenue Superintendent or other duly authorized officer every sum received by me from every lessee.

3. On the day of , corresponding to (Cryah date), I will pay in to the Deputy Revenue Superintendent or other duly authorized officer the whole sum collected by me from the lessees, and if such sum be not the full amount due on the lease, my sunnud may be cancelled by the Deputy Revenue Superintendent. I will also give up the counterfoils of my receipt book, together with an account showing the total sum collected from, and the balance still due from, each ryot.

4. I shall be entitled to receive a commission of 5 per cent. on the total sum collected and paid in by me on or before the day of in full of the demand of each ryot, and shall not be entitled to any further remuneration whatever.

5. For a breach of any of the above conditions I will forfeit to the Secretary of State a sum not exceeding Rs. 500.

(Sd.) A. B.

## SUNNUD No.

To A. B., of village , pergunnah

You are hereby appointed under section 82 of Act III (B.C.) of 1876 to collect the sum due on lease No. , in accordance with the terms of the agreement given by you, and which are detailed below:—

1. I will not collect or take from any of the lessees any sum whatever over and above that specified in the lease without written authority from the Deputy Revenue Superintendent.

2. For every sum paid to me by any lessee I will, at the time of payment, grant a receipt in such form as may be prescribed by the Deputy Revenue Superintendent, and I will duly make over to the Deputy Revenue Superintendent or other duly authorized officer every sum received by me from every lessee.

3. On the day of , corresponding to (Cryah date), I will pay in to the Deputy Revenue Superintendent or other duly authorized officer the whole sum collected by me from the lessees, and if such sum be not the full amount due on the lease, my sunnud may be cancelled by the Deputy Revenue Superintendent. I will also give up the counterfoils of my receipt book, together with an account showing the total sum collected from, and the balance still due from, each ryot.

4. I shall be entitled to receive a commission of 5 per cent. on the total sum collected and paid in by me on or before the day of in full of the demand of each ryot, and shall not be entitled to any further remuneration whatever.

5. For a breach of any of the above conditions I will forfeit to the Secretary of State a sum not exceeding Rs. 500.

Deputy Revenue Superintendent.

## APPENDIX E.

The following rules are issued for the information and guidance of the Deputy Revenue Superintendents, tehsildars, and mohurirs:—

**Rule 1.**—As a rule all collections should be made by the tehsildar only, or by such other officer as may be in charge of a canal revenue circle.

**Rule 2.**—The tehsildar or officer in charge of a circle will as heretofore grant detail receipts for all collections made by him, will enter such collections as usual in his "siha" or No. IV Register, will remit all collections periodically to the head office in Cuttack, with detailed "challans" and counterfoils of all receipts granted. In addition to this, he will at the close of each month submit to the Deputy Superintendent in charge of his circle a detailed statement of all collections made by himself during the month. This will be simply a copy of all "siha" entries made by him during the month, and an abstract statement of demands and collections in the subjoined form:—

The tehsildar or officer in charge of a circle will also submit to the head office in Cuttack half-yearly returns of all outstanding balances. These returns will show in detail the amounts due from each defaulter. They will be checked and compared in the head office, and then forwarded to the Deputy Superintendent in charge of the canal to which they refer, and he will, when on tour of inspection, ascertain by personal enquiry from the alleged defaulters, as noted in such balance sheet, whether the sums due from them have been realized or not.

**Rule 3.**—Whenever it may be found necessary to employ ameens and mohurirs for collection work, the following system will be adopted:—

- The tehsildar or officer in charge of the circle will remain at head-quarters.
- The ameens and mohurirs collecting money will remit once or twice a week and their collections to the tehsildar's outcherry. These remittances will be accompanied by a challan showing in gross the amounts remitted—
  - under the head of water-rates, and (2) under miscellaneous, thus—

1877-78.				Rs.	A.	P.

and all the counterfoils of receipts granted by the collecting officer.

For the sums so remitted the collecting officer will obtain a receipt from the tehsildar or officer in charge of the tehsil outcherry, and these receipts will as heretofore be posted into collecting officer's "siha" below dates of remittance, sufficient space being left for the purpose. Collecting ameens and mohurirs will keep up detail "sihas" showing the particulars of all sums collected and remitted to the tehsil outcherry, and at the close of each month will forward their "sihas" to the Deputy Superintendent in charge, procuring from him a receipt for their monthly "siha" in the subjoined form:—

- Dates between which collections noted in the "siha" were made.
- Name of collecting officer.

## DRAFT RULES PROPOSED FOR THE SONE CANALS UNDER ACT III (B.C.) OF 1876.

Dated the 20th July 1880.

No. 102.—*Notification.*—In exercise of the powers conferred on him by section 99 of Act III (B.C.) of 1876, the Hon'ble the Lieutenant-Governor is pleased to direct the publication of the following rules for the Sone Canals which it is proposed to substitute for the rules passed and published at pages 761 to 767, Part I of the *Calcutta Gazette* of the 23rd July 1879.

C. TAYLOR,  
Offg. Asst. Secy., for Joint.-Secy.  
to the Govt. of Bengal, P. W. Dept.,  
Irrigation Branch.

## RULES UNDER ACT III (B.C.) 1876.

1. The Collector, before awarding compensation under section 16, or for making a reference under section 17 of the Act, shall obtain the written opinion of the Superintending Canal Officer, which shall form part of the record of the proceedings.
2. Persons desirous of acquiring land for the construction of a village channel, or for having a village channel constructed by Canal Agency, shall prefer a written application to the Divisional Canal Officer, or to any other officer duly authorized by him to receive such application.
3. Ordinarily, no village channel shall exceed two miles in length from its head to the point of contact with the village boundary.
4. It shall be the duty of the Canal Officer to register all village channels after due notice has been given to the owner of his intention to do so; if the latter objects, no water will be given.
5. No alteration among the shareholders will be recognized, unless the sanction of the Canal Officer has been first obtained.
6. Persons desirous of taking water from a registered village channel shall, previous to doing so, prefer a written application (Appendix A) to the Divisional Canal Officer, Sub-Divisional Canal Officer, or any subordinate duly authorized by the Divisional Canal Officer to receive such application; and no water shall be taken until after the receipt of a permit (Appendix B) from competent authority.
7. Water shall not be granted where, in the opinion of the Canal Officer, waste is likely to occur.
8. An application under Rule 6 shall, if granted, and unless otherwise specially agreed upon, be subject to the following conditions:—
  - (a)—That the water supplied shall not be used for other purposes than irrigation without the written consent of the Divisional or Sub-Divisional Canal Officer.
  - (b)—That the Sub-Divisional Canal Officer shall, in consultation with the applicants, appoint a headman (to be called a *Lambardar*), known, or ascertained to be, a substantial person possessed of property, to attend to their interests, to receive and carry out the orders of the Canal Officers, and to distribute the water among the shareholders in the village channel according to their shares.
  - (c)—That in any case where the Sub-Divisional Canal Officer cannot agree with the applicants in the appointment of a *Lambardar*, the Sub-Divisional Canal Officer shall make the appointment himself, subject to the approval of the Divisional Canal Officer.
9. The Divisional Canal Officer is empowered to pay to the *Lambardar* appointed under Rule 8, the fees detailed in the rule next following, subject to the condition of satisfactory performance of duty.

10. The allowance to the *Lumbardar* for duties connected with the village channel such as arranging that it shall be kept in proper repair, reporting unauthorized irrigation, distributing the water to the shareholders, seeing that the outlet is closed according to the orders of the Sub-Divisional Canal Officer, and generally assisting the officers of the Irrigation Department, shall be half anna in the rupee on the amount of canal water-rates assessed on the lands irrigated from the village channel under his charge. The Divisional Canal Officer may retrench the whole or any part of the fees under this rule in the event of non-compliance with these conditions.

11. The Sub-Divisional Canal Officer may, by written order under section 76 (a), stop the supply to any village channel when he is satisfied, after inspection by himself or by one of his subordinates, that it is not maintained in proper repair; such order shall be recorded in the Sub-Divisional Office.

12. The Divisional Canal Officer may close the outlets in rotation as he may consider necessary. Such closures shall not extend beyond ten consecutive days, and shall be notified to the *Lumbardars* of village channels. For longer closures the authority of the Superintending Canal Officer is required.

13. Nothing in the above rules shall be taken to affect the power of the Superintending or Divisional Canal Officer to stop the supply of water in case of pressing emergency.

14. The water-gauges on distributaries or other channels shall be held to give authoritative data for all calculations of discharge required to verify claims for remission of water-rate on account of loss of water.

15. Claims to remission of water-rates under section 76(b) shall only be admitted on proof of actual loss caused by the stoppage of supply. On proof of such loss, the Divisional Canal Officer may remit the whole or any portion of the rates. All applications for remission of water-rates shall be made in writing by the parties concerned, either in person, or through their headman, to the nearest Sub-Divisional Canal Officer, at least seven days prior to the cutting of the crop. On receipt of such application, the Sub-Divisional Canal Officer shall, after due local enquiry, forward the application with his remarks to the Divisional Canal Officer for decision.

16. Before awarding compensation under section 76(c), the Collector shall obtain the written opinion of the Divisional Canal Officer, and such opinion shall form part of the record of the proceedings.

17. Contracts between the Divisional Canal Officer on the part of Government, and private individuals, for the use of water as a motive power, or for any other purpose whatsoever, not included in the published schedule of rates, shall, if for any period not exceeding one year, require the previous sanction of the Superintending Canal Officer. If proposed for longer periods, such contracts shall be submitted for the sanction of the Lieutenant-Governor in the Irrigation Department.

18. Tanks may be filled with canal water without charge, and without reference to the area irrigated in any village, wherever water can be made available without injury to the cultivation dependent on any canal, under the following conditions:—

- (a.)—No tank shall be so filled unless the water is to be exclusively used for domestic purposes or for watering cattle, or both.
- (b.)—No tank shall be so filled from which irrigation is practised.
- (c.)—No tank shall be so filled which, intercepting any line of drainage, is liable to overflow from accumulation of water derived from natural causes.
- (d.)—No tank shall be so filled except on the written order of the Sub-Divisional Canal Officer issued on the written application of the parties concerned.
- (e.)—No tank shall be so filled unless the village channel used to fill it shall be shown to the satisfaction of the Sub-Divisional Canal Officer to be in a sound condition when the application is made.
- (f.)—The privilege herein accorded may, by written order of the Divisional Canal Officer, subject to revision by the Superintending Canal Officer, whose decision shall be final, be suspended for 12 months for breach of any of the above conditions.

19. Leases for terms of five years for the supply of water between the 25th June of one year and the 1st April of the following year will be given at the rates fixed in the Schedule, Rule 33, provided that land leased in any village forms one or more compact blocks, each of not less than 50 acres, defined by well-marked boundaries of such a nature as clearly to distinguish leased from the adjoining unleased lands, and to prevent the latter from being surreptitiously watered under cover of the lease.

20. Well-marked boundaries of the nature required by the foregoing rule generally exist. Village roads, bunds of *akhra*, village boundaries, and similar natural marks will be sufficient. If such do not exist, and it appears advisable to grant the lease, the villagers may, at the discretion of the Divisional Canal Officer, be required to make small bunds round the leased area, or mark its limits by the erection of cheap boundary marks, or cause to be carried out such arrangements as may suffice for the future identification of the leased area.

21. No restriction is placed on the description of crop to be grown under five-year leases, but no water will be given on these leases between the 1st of April and the 25th of June. The Superintending Canal Officer may relax this rule in the case of water being required for rice seed beds.

22. If in the opinion of the Divisional Canal Officer it appears advisable to grant a lease for a block of less than 50 acres in area, he must refer the matter for the decision of the Superintending Canal Officer, at whose discretion the restriction as to area may be relaxed.

23. Present holders of three-year leases may at their option avail themselves of the terms offered to the holders of five-year leases, but without retrospective effect.

24. Leases for five years at the rates entered in Rule 33 may be given—(1) on the application of all the cultivators of the area proposed to be leased, on condition of their agreeing in such application to become jointly and severally responsible for the payment of all amounts due on account of water-rates; or (2) on the joint application of the cultivators and of some person hereinafter called the Contractor, who may agree to collect and pay to Government, under section 82 of Act III (B.C.) of 1876, all sums due under the agreement, on account of water-rates. The agreement of villagers binding themselves jointly and severally will be in the form prescribed in Appendix O. The joint agreement of villagers and a water-rate Contractor shall be in the form prescribed in Appendix D. Every agreement under this rule must be signed by each applicant in the presence of at least one respectable witness.

25. Contractors shall be entitled to collect water-dues, at the rates given in schedule 4 attached to Rule 33, from the cultivators who have applied for the water supplied. Every due from a cultivator to the Contractor on account of water-rates shall be deemed to be a sum due to Government under sections 82 and 85 of Act III (B.C.) of 1876.

26. A Contractor (or in case there be more than one, each Contractor severally and jointly) shall be responsible for all sums payable on the agreement (Appendix D), except such sums as may be remitted by competent authority under the rules in force, and shall be entitled to a deduction of 5 per cent. for cost of collection.

27. No water shall be taken previous to the receipt of a permit (Appendix B) signed by the Divisional Canal Officer. When an agreement has been made for the collection of the rates by a Contractor, the Divisional Canal Officer shall under section 82 furnish such Contractor with a written authority to collect the amounts due by the cultivators according to a list furnished in the application, one copy of which is to be sent to the Collector.

28. Every Contractor shall nominate a headman, to be approved of by the Divisional Canal Officer, to perform the duties specified in Rule 10. Such headman or the contractor, according to the arrangement made at the time of contract, shall receive 5 per cent. on the assessment, but the Divisional Canal Officer may retrench the whole or any part of those fees if the duties are not properly performed.

29. All water-rates leviable under the above rules for five-years leases shall become due on the 31st December and 15th March in equal portions, and shall be paid within one month of such dates.

30. Under section 78 of the Act, the rates chargeable per acre for water supplied to the different description of crops up to 1st of April 1881, except in cases of three-year leases now in existence, will be as follow:—

34. The statements of the amounts demandable for water-rates levied under the rules in force shall be prepared under the supervision and signature of the Divisional Canal Officer in such form as shall from time to time be sanctioned by the Lieutenant-Governor.

35. All water-rates shall become due on the dates below stated, and shall be paid within one month of such dates :—

Water-rate on spring crops, wheat, barley, peas, poppy, &c.	15th March.
Water-rate on summer crops, cheena, &c.	15th July.
Water-rate on bhadoi crops, early rice, indian-corn, murwa, &c.	31st October.
Water-rate on annual and winter crops, sugarcane, aghani rice, jowar, &c.	31st December.

36. In the case of lands held in *bhaoli*, the water-rate shall be recoverable from both the cultivator and the person or persons in receipt of the *bhaoli* rents in the same proportion as the produce is divisible amongst them.

37. In the case of lands held in *bhaoli*, the zemindar shall sign jointly with the cultivators. (This rule only applies to the case of five-year leases.)

38. The area irrigated in any village shall be measured by an *Ameen* appointed for the purpose. The *Putwari* shall be present at the measurement, and shall at the time take a copy of the *khurak* of the *Ameen*; if for any reason the *Putwari* is not present, the cost of preparing the copy will be charged against him. This copy shall be delivered to the *Putwari*, or, in his absence, to the *Lambardar*. Both the *Lambardar* and *Putwari* shall sign the *khurak*.

39. When the measurement is completed, the *khurak* shall be forwarded to the Sub-Divisional Canal Officer, who shall prepare the *khatiani* with all possible despatch. A copy of the *khatiani*, signed and sealed by the *Zilladar*, shall, as soon as it is prepared, be forwarded to the *Putwari*, who shall grant a receipt for the same. If the *Putwari* is not present, or declines to receive the *khatiani*, the Sub-Divisional Officer shall forward it direct to the Collector.

40. It shall be the duty of the *Putwari*, immediately on the completion of the measurement, to inform each ryot, on application, of the fields measured against him, and on receipt of the *khatiani* to supply each person charged with a *percha* showing the water-rates due. For these duties, and for attending the measurement and rendering such other reasonable assistance to the Canal Officer and Collector as may be required, an allowance of one quarter anna per rupee on the amount collected shall be made.

41. This allowance shall be paid to the *Putwari* by the Collector if he is satisfied that the work has been properly done.

42. The Canal Officer shall note on the *khatiani* whether the *Putwari* has given proper assistance during the measurement.

43. If a cultivator is dissatisfied with the entries made against him in the *khatiani*, whether as to the fact of the land having been charged "flow" instead of "lift" or as to the measurements and entries of classes of crops, he must lodge a complaint, either personally or through the *Lambardar* of his village channel, with the Divisional or Sub-Divisional Canal Officer within a month after the date of the demand being made on him.

44. The *Zilladar* shall submit his check measurements in a form (Appendix E) which shall be sent in for the inspection of the Divisional Canal Officer. The Sub-Divisional Canal Officer shall check the *Ameens'* measurements as often as he possibly can. If it be found that any *ameen* wilfully or frequently makes wrong measurements, he shall be punished by dismissal.

45. Collection of all water-rates shall be made by the Collector in accordance with the statement of demands furnished to him by the Divisional Canal Officer.

46. Objections to the demand addressed to the Collector, if preferred within one month after the demand has been made, shall, if remission be claimed on the score of short supply, or of any matter affecting the Irrigation Department, be referred for orders to the Divisional Canal Officer. The Collector shall have discretion to suspend collections by a written order in cases where (objections having been filed) it may seem advisable to do so.

47. Claims for remission, referred by the Collector and admitted by the Divisional Canal Officer, shall be reported by him for the sanction of the Superintending Canal Officer, except in cases where remissions are made on account of excess areas having been charged, or a wrong name entered in the *khatiani*.

48. If the Divisional Canal Officer reject the claim, an appeal may be made to the Superintending Canal Officer, provided that it is preferred within forty days from the issue of the order of the Divisional Canal Officer.

49. A remission statement, signed by the Superintending or Divisional Canal Officer, shall be sufficient authority for a refund by the Collector.

50. In special cases not otherwise provided in these rules, and in cases where water-rates are not recoverable owing to the absconding or bankruptcy of the defaulter, the Collector will obtain the sanction of the Commissioner of the Division to the remission of such sums as he may deem irrecoverable. The details of such remission shall be communicated at the close of each official year to the Divisional Canal Officer.

51. The Collector shall appoint a headman (to be called a *Tchsildar*), whose duty will be to collect and pay in, to the Collector or other duly authorized person, all water-rates leviable on the land irrigated.

52. The *Tchsildar* shall furnish security for the payment of all sums realized by him, the stamp and registration fees on security bonds being deducted from the percentage allowed, under the following rule.

53. The allowance to the *Tchsildars* of a village or villages for collecting the water-rates shall be fixed by the Collector, but the total amount to be paid in any one year to all the *Tchsildars* in a district shall not exceed half an anna in the rupee on the amounts actually paid in. If the *Tchsildar* shall satisfy the Collector that arrears have not accrued through any negligence on his part, it shall be at the option of the Collector to pay him the allowance on the whole or any part of such arrears.

54. If only a portion of a field be irrigated, the water-rate shall be chargeable on the whole field, unless such portion shall have been clearly demarcated, previous to the admission of the water, by a ridge not less than half a foot high.

55. When a portion of a field has been irrigated with canal water, and a portion with well or reservoir water, the whole field shall be liable for canal water-rate, unless a clearly distinguishable boundary exists between the two portions.

56. If well or reservoir water is conveyed in the same channel as canal water, the whole of the irrigation from that channel shall be liable to canal water-rate. The *Lambardar* will be held personally responsible that any breach of this rule or of Rules 54 and 55 is duly reported.

57. Irrigation from escape channels, when the supply is permanent, shall be governed by the same rules as irrigation from other parts of the canal.

58. Irrigation from such channels, when the supply is intermittent, may be allowed at such reduced rates as shall from time to time be fixed by the Lieutenant-Governor.

59. Persons using water without a written permit, or taking water at times prohibited by proper authority, shall be liable to a penalty not exceeding double water-rates on the area irrigated, and such charge shall be leviable at the time of report to the Collector.

60. The charge leviable for water suffered to run to waste on uncultivated lands shall be calculated at the highest rate specified in the schedule, on the area flooded; provided that in every such case the Divisional Canal Officer may impose a lower rate if he thinks fit. The *Lambardar* is to be held responsible for reporting such waste of water.

61. When the original crop sown in a field irrigated by canal water fails, and is ploughed up, and a fresh crop is sown in the same season, the water-rates shall be levied on the second crop.

62. No person shall, without the permission in writing of the Divisional or Sub-Divisional Canal Officer, pass, or cause any animal or vehicle to pass, on or across any of the works, banks, or channels of a canal or drainage work after he has been desired to desist therefrom, excepting by means of such bridges, fords, and ferries, and their approaches, as are provided by the Divisional Canal Officer.

63. No Canal Officer, unless specially exempted by the Lieutenant-Governor from the operation of this rule, shall have any interest in the distribution of water from any of the canals, or purchase or bid for any Government property sold thereon, either in his own name, or in the name of another, or jointly, or in shares with others.

## JAIL DEPARTMENT.

No. 6479, dated the 23rd July 1880.—Surgeon-Major J. J. Wood made over charge of the Chittagong Jail to Surgeon J. F. Mullen in the afternoon of the 3rd July 1880.

A. S. LETHBRIDGE,  
Inspector-General of Jails, Bengal.

## HIGH COURT NOTICES.

## High Court—Original Side.

The 26th July 1880.

THE following Rules, passed by the High Court of Judicature at Fort William in Bengal, are now published for general information.

By order,

R. BELCHAMBERS, Registrar.

WHEREAS it is expedient to consolidate the rules relating to the admission of Attorneys of this Court and alter the same so as to entitle the Attorneys of this Court to the benefit of "the Colonial Attorneys Relief Act," it is ordered as follows:—

1. Any Attorney or Solicitor of Her Majesty's Superior Courts of Law or Equity in England shall be entitled to be admitted as an Attorney of this Court, without service or examination in India, on production of his certificate of admission in such English Courts, and of a certificate that his name is still borne on the rolls of such Courts, and also on producing satisfactory testimonials to his good character.

Admission, without examination, of Attorney or Solicitor of Her Majesty's Superior Courts in England.

2. An Attorney of the High Court of Madras or of the High Court of Bombay, shall be entitled to be admitted as an Attorney of this Court: provided that he shall produce a certificate of admission in either of the said Courts, and a certificate that his name is still borne on the rolls thereof, and shall also produce satisfactory testimonials to good character, and shall moreover satisfy the Court that, previous to his admission as an Attorney, he had served under articles of clerkship to some Attorney or Attorneys-at-Law for the full term of five years.

Admission, without examination, of Attorney of High Courts of Madras or Bombay.

3. Any Solicitor of the High Court of Judicature in Ireland shall be entitled to be admitted as an Attorney of this Court: provided that he shall produce a certificate of admission in such Court and a certificate that his name is still borne on the rolls of such Court, and shall give satisfactory assurances of good character, and shall also produce a certificate signed by the major part of the Examiners actually present and conducting the examination (one of them being the Registrar of the Court on the Original Side, hereinafter mentioned as the Registrar), that he has satisfactorily passed an examination upon the following subjects:—

Admission, after examination, of Attorney or Solicitor of the High Court of Judicature in Ireland.

Subjects of examination.

- (1)—The Letters-patent Constituting the High Court.
- (2)—The Code of Civil Procedure.
- (3)—The Indian Penal Code.
- (4)—Criminal Procedure on the Original Side.
- (5)—The Indian Succession Act.
- (6)—The Indian Contract Act.
- (7)—The Evidence Act.
- (8)—The Registration Act.
- (9)—The Limitation Act.

The Acts in force at the time.

4. The examination shall be conducted by the Examiners appointed under Rule 26 for the examination of persons applying to be admitted as Attorneys of this Court (hereinafter mentioned as the Examiners).

Examination by whom to be conducted.

5. Except as provided in the foregoing rules, every person before admission to practise as an Attorney, shall serve a regular clerkship to an Attorney of this Court, under articles of clerkship by contract in writing pursuant to the rules hereinafter contained, for the full period of five years.

Period of service.

6. The term of service required by the last preceding rule need not be all under one and the same contract, nor to one and the same Attorney, but may be to different Attorneys, either by virtue of an assignment or assignments, or by virtue of successive independent contracts upon the dissolution of the original or succeeding contract.

\*Service may be to different Attorneys.

7. The Attorney or Attorneys under whom the articles shall be served shall, during the whole period of the service, be actually practising as such in this Court on his or their behalf, and not as clerk to any other Attorney.

Master must be a practising Attorney on his own behalf.

8. No Attorney shall, without special leave of the Court, be entitled to take more than one clerk for service under these rules at one and the same time, nor any clerk until he shall have been himself in practice as an Attorney for at least three years.

Only one article clerk allowed at one time.

9. No person who is not an Advocate of this Court, or a writer to the Signet, or a Solicitor of the Supreme Courts of Scotland, or a Procurator before any of the Sheriffs' Courts of Scotland, or who shall not have been article to an Attorney or Solicitor of one of Her Majesty's Superior Courts of Law or Equity in England or Ireland, shall be capable of service under these rules, until he shall have passed the B.A. examination of the University of Calcutta, or the preliminary examination of article clerks in England, or the first public examination before the Moderators at Oxford, or the previous examination at Cambridge, or the preliminary examination in Arts in any of the Scotch Universities, or the examination in Arts for the second grade in Durham, or the Matriculation of the Universities of Dublin or London, or shall produce a certificate of the Oxford and Cambridge Schools Examination Board granted under the regulations issued by the Board; provided that persons educated in Europe who have not passed any of the examinations abovementioned, and who shall appear to the Chief Justice and Judges to have been educated up to a sufficient standard, may, by special order, be permitted to enter into articles of clerkship.

Persons not Advocates of this Court, or writers to the Signet, or Solicitors or Procurators of the Scotch Courts, or who have not passed a University or preliminary examination in England, or been article in England or Ireland, or have not been educated in Europe up to a sufficient standard, incapable of entering into articles.

10. The contract in writing whereby a person shall engage as aforesaid to serve as a clerk to any Attorney, shall be filed with the proper officer, to be appointed for receiving and filing affidavits and other documents to be filed under these rules, within one calendar month after the execution of the same, together with an affidavit by such Attorney that he has been himself duly admitted and has been practising for three years as an Attorney; that such contract has been duly executed by himself and by the clerk therein mentioned; and an affidavit by such clerk that he has passed one of the examinations mentioned in Rule 9, or has, previous to his service in this country, served under articles of clerkship to an Attorney or Solicitor of one of Her Majesty's Superior Courts of Law or Equity in England or Ireland. And in every such affidavit shall be specified the name of the Attorney and his place of business, the name of the clerk and his place of abode, together with the day on which the contract was actually executed.

Articles, with affidavit of Master, to be filed within one month.

11. In case the articles of clerkship shall be assigned, the assignment shall be in writing, and shall, in like manner as aforesaid, be filed within one calendar month after the execution thereof, together with an affidavit by the Attorney to whom the assignment has been made, that he has been duly admitted and has been practising for three years, and that such assignment has been executed by all the necessary parties. And in every such affidavit shall be specified the name of the Attorney to whom the articles are assigned, and his place of business, together with the day on which the assignment was actually executed.

Assignment of articles, with affidavit, to be filed within one month.

12. If, by reason of death, or for any other good and sufficient reason, an assignment of the articles cannot be obtained, a fresh contract in writing for the remaining period of his term of service shall be entered into by the clerk with the Attorney under whom the service is to be continued, which shall be filed within the time, and with an affidavit similar to that prescribed by Rule 10.

Fresh articles to be entered into, if necessary, and filed with affidavit.

13. In case the contract or assignment, together with the necessary affidavit, be not filed within the time specified, the same may be filed after the expiration thereof, but the service of the clerk shall be reckoned to have been commenced or renewed from the date of the filing of such contract or assignment, unless the Court shall otherwise order.

Effect of omission to file contract or assignment within one month.

14. No person who shall be article to serve as a clerk to an Attorney for the purpose of being admitted as an Attorney shall, during the period of such service, hold any office or engage in any employment whatsoever other than the employment of clerk to such Attorney and his partner or partners (if any) in the business, practice, or employment of an Attorney; and every such person shall, during the whole period of service under articles, continue and be really and actually employed in the proper business, practice, or employment of an Attorney.

Article clerk not to hold other office or employment.

15. Every article clerk shall, after he has been article and before admission, pass two examinations,—one after he has served half the term of his articles, and the other after he has served the full term of his articles: provided that he shall not be admitted to the second examination until the expiration of six months after he shall have passed the first examination, unless the Court shall otherwise order.

Article clerk to pass two examinations.

Period that must intervene between the two examinations.

16. The first of these (hereinafter called the intermediate examination) shall be in the following subjects:—

Intermediate examination.

- (1)—Letters-patent.
- (2)—Civil Procedure Code.
- (3)—Belchambers' Rules of the High Court, Original Side.
- (4)—Conveyancing.
- (5)—Criminal Procedure on the Original Side.

17. The intermediate examination shall be directed to the candidate's knowledge of the practice of his profession. The number of questions in each paper shall be ten, and the total number of marks shall be 400, of which the candidate must obtain not less than 250.

18. The second of the said examinations (hereinafter called the final examination) shall be in the following subjects, and the number of papers to be set and the subjects to which they relate, shall be as indicated below :—

	Paper.

	Hindoo Law ... 1
	Mahomedan Law ... 1

19. The number of questions in each paper shall be eight, and the aggregate number of marks for the whole eight questions shall be 160. To be entitled to pass, a candidate must obtain 90 marks in each paper.

20. Before any article clerk shall be admitted to the final examination, he shall sign and leave with the Registrar answers to the questions contained in the Schedule A herunto annexed, as also a certificate of his having passed one of the examinations mentioned in Rule 9, or the document mentioned in Rule 24, and a certificate of the Examiners of his having passed the intermediate examination, and an affidavit by himself stating that he has actually and really served and been employed by the Attorney or Attorneys to whom he was bound during the whole term and in the manner required by these rules; that he has not held any office or engaged in any employment contrary to these rules; that he has attained the age of 21 years; and that he has not been adjudicated an insolvent. And the Attorney or Attorneys with whom he shall have served his clerkship shall sign and leave with the Registrar answers to the questions contained in the Schedule B herunto annexed, as also a certificate in the form therein given.

21. The applicant shall, at the same time, produce satisfactory testimonials to his good character.

22. Every person applying to be admitted to the final examination shall also, if required, sign and leave, or cause to be left, with the Registrar answers in writing to such other written or printed questions as shall be proposed by the Examiners touching his service and conduct, and also, if required, attend the Examiners personally for the purpose of giving further explanation touching the same, and shall also, if required, procure the Attorney or Attorneys with whom he shall have served his clerkship as aforesaid, to answer either personally or in writing any questions touching such service or conduct, or shall make proof to the satisfaction of the Examiners of his inability to procure the same.

23. Every person so applying shall also attend the Examiners at such place or places, and at such time or times, as shall be appointed for that purpose, and shall answer such questions as the Examiners shall then and there put to him, by written or printed papers, touching his fitness and capacity to act as an Attorney.

24. If any person, previous to being article clerk to an Attorney of this Court shall have been article clerk to an Attorney or Solicitor of one of Her Majesty's Superior Courts of Law or Equity in England or Ireland, he shall leave with the Registrar his original articles entered into in England or Ireland, or an authenticated copy thereof, and shall state in the affidavit to be made by him pursuant to Rule 20, the circumstances under which the service under such last-mentioned articles was terminated.

25. In case the applicant shall show sufficient cause to the satisfaction of the Examiners why the requirements of Rules 20 and 24 cannot be fully complied with, it shall be in the power of the Examiners, upon other sufficient proof being given of the qualification of the candidate under these rules, to dispense with any part of such requirements that they may think fit and reasonable.

26. The Registrar for the time being of the High Court, Criminal Jurisdiction, together with such Advocates and Attorneys of the Court to the number of six or more as the Chief Justice shall from

time to time appoint, shall be Examiners to examine such persons as shall desire to be admitted Attorneys of the said Court; and any four of such Examiners shall be competent to conduct the said examinations.

Four to form a quorum.

Examinations to be held every six months.

27. The examinations shall be held once in every six months at such time and place as the Examiners shall appoint.

28. Any clerk shall be at liberty to attend the final examination next preceding the expiration of his term of service, but he shall not be admitted as an Attorney until after his term of service shall have expired; nor shall the certificate mentioned in Rule 33 be issued without proof to the satisfaction of the Examiners that the clerk has duly served the remaining period of his term of service.

Clerk may attend the final examination next preceding the expiration of his articles.

Not to be admitted an Attorney until after the expiration of his articles.

Certificate to be stayed.

29. The Registrar shall reduce all notices of intention to appear at any examination into an alphabetical table under convenient heads, and shall, three weeks previous to the examination, affix the same on the notice-board, and also on a board to be exhibited daily at the entrance to the principal court-room on the Original Side, and shall send a copy of the same to the Secretary to the Attorneys' Association.

Notices of examination to be tabulated and posted up.

30. The Registrar shall inform each candidate, who shall have given notice of his intention to appear at any of the examinations, of the days fixed for such examination.

31. Every person [except an Attorney or Solicitor of Her Majesty's Superior Courts of Law or Equity in England] intending to apply for admission as an Attorney of this Court, shall give one month's notice in writing to the Registrar, stating his intention, such notice to be included in the notice for final examination or given separately.

Notice of admission.

32. Every person liable to pass the intermediate and final examinations, or the final examination alone, before being admitted as an Attorney, shall obtain a certificate signed by the major part of the Examiners actually present at, and conducting the, examination (one of them being the Registrar) that he has satisfactorily passed the same.

Certificate of having passed the final examination.

33. Every such person shall before admission likewise produce a certificate signed by the major part of the Examiners (one of them being the Registrar) that he has satisfied the Examiners that he has really and actually served his articles in accordance with the foregoing rules, and that he is a fit and proper person to be admitted as an Attorney.

Certificate of being a fit and proper person to be admitted an Attorney.

34. In case any person shall be dissatisfied with the refusal of the Examiners to grant him the certificate mentioned in Rule 35, he shall be at liberty, within one month, to apply for admission by petition in writing to the Chief Justice, which application shall be heard by any two or more Judges whom the Chief Justice shall appoint for that purpose.

Appeal from Examiners' rejection.

35. No person, except an Attorney or Solicitor of Her Majesty's Superior Courts of Law or Equity in England, shall be admitted to practise as an Attorney of this Court without proof that he has attained the age of 21 years.

Clerk under age ineligible to be admitted an Attorney.

Insolvent ineligible to be admitted to any examination or as an Attorney.

36. Unless the Court shall otherwise order, no person who shall have been adjudicated an insolvent shall be admitted to any of the examinations prescribed by these rules, or shall be admitted to practise as an Attorney of this Court.

Mode of applying for admission. Petition and documents to be left with the Registrar.

37. The mode of applying to be admitted an Attorney shall be by petition. Such petition shall be left with the Registrar, together with, in the case of a person applying under rule 1—

- (1) the certificates required by Rule 1;
- or in the case of a person applying under Rule 2—
- (1) the certificates required by Rule 2;
- (2) proof of service under articles for five years;
- (3) proof of good character;

or in the case of a person applying under Rule 3—

- (1) the certificates required by Rule 3;
- (2) proof of good character;

or in the case of an article clerk—

the certificates of the Examiners to be issued under Rules 32 and 33.

38. The Registrar shall submit the petition to be admitted an Attorney, with the other documents to be left with him, to the Judge for the time being exercising Original jurisdiction for his fiat.

and to be submitted by him to the Judge

39. Every person applying to be admitted an Attorney of this Court shall, before being admitted and enrolled, take and subscribe the oath or affirmation of allegiance, and also the following oath or affirmation.

Oath to be taken before enrolment.

I, A. B., do swear [or solemnly affirm] that I will truly and honourably demean myself in the practice of an Attorney according to the best of my knowledge and ability.

40. Every person on being admitted and enrolled as an Attorney of this Court may, without the payment of any fee besides the admission fee, obtain a certificate of admission under the signature of the Registrar and the seal of the Court.

*Certificate of admission.*

41. Every person intending to undergo the intermediate or final examination prescribed by these rules [the examination prescribed by Rule 3 being deemed to be a final examination], shall, before each half-yearly examination, give one calendar month's notice in writing to the Registrar, stating his intention, and shall at the same time, and on each occasion of giving notice of examination, pay to the Registrar a fee of Rs. 50 if the notice be for an intermediate examination, and a fee of Rs. 100 if the notice be for a final examination.

*Notice of examination.*

*Fee to be paid.*

42. Every person who shall have given notice of his intention to appear at an intermediate or a final examination, or to apply for admission as an Attorney, and who shall not have attended to be examined, or not have passed the examination, or not have been admitted, may renew the notice for examination or admission from time to time as often as he shall think proper: provided that every renewed notice shall be given in conformity with Rules 31 and 40 unless the Court shall otherwise order.

*Renewed notice.*

43. All expenses that may be incurred on account of the examinations to be conducted under these rules, shall be defrayed by the Registrar out of the Examination Fee Fund, and the balance of the fees realized on each examination shall be divided between the Examiners who shall conduct such examination: provided that no larger sum shall be received by any Examiner on account of any one examination than Rs. 300.

*All expenses to be defrayed out of the Fee Fund.*

*Balance of fees to be paid to the Examiners.*

44. The Registrar shall keep an account of all such fees as shall be paid to him under Rule 42, and shall at the end of each year file a statement of account signed by himself and two other Examiners.

*Account of fees to be filed at the end of every year.*

45. Any Attorney of this Court may, on the payment of a fee of Rs. 5, to be paid by means of court-fees stamps, obtain a certificate, under the signature of the Registrar and the seal of the Court, that his name is borne on the roll of Attorneys of this Court, and if such be the case, that he is a practising Attorney of this Court.

*Certificate of being on the roll of Attorneys.*

46. The Registrar of this Court on the Original side shall be the proper officer for receiving and filing all such affidavits and documents as are required to be produced and filed under these rules, and shall have the custody and care of the rolls or books wherein persons are at present enrolled as Attorneys, and shall enroll the name of every person who shall be admitted as an Attorney, with the date of his admission, in alphabetical order, in a roll or book to be kept by him for that purpose, to which roll or book all persons shall have free access without fee or reward.

*All documents to be filed with the Registrar, who is to have the care of the rolls.*

*Inspection of rolls.*

47. Forms of notice of examination are set forth in the Schedule C, hereunto annexed.

48. The Judge or Senior Judge of the Court for the time being exercising ordinary Original Civil Jurisdiction shall hear all applications, the hearing of which is not otherwise provided for, and shall exercise all the powers of the Court under these rules unless the Chief Justice shall otherwise specially direct.

*Applications under these rules by whom to be heard.*

49. A petition in writing appealing from any order made under the last preceding rule may be presented to the Chief Justice within one month from the date of such order. Such appeal shall be heard by any two or more Judges whom the Chief Justice shall appoint for that purpose.

*Appeal from order.*

50. These rules shall take effect from the 1st day of August 1880, except as to persons who are now serving, or have already served, under articles of clerkship to some Attorney of this Court: provided that every such person shall pay the fee payable under Rule 40, with the notice for the intermediate or final examination, on each occasion of giving such notice; and except as to such persons and to all matters and things previously done in virtue thereof, all former rules for the admission of Attorneys are hereby repealed.

*When rules to take effect.*

*Except as to persons already articulated.*

*Former rules repealed.*

#### SCHEDULE A (REFERRED TO IN RULE 20).

*Questions as to due service of clerkship to be answered by the Clerk.*

1. What was your age at your last birthday immediately preceding the date of your articles?
2. Have you served the whole term of your articles at the office where the Attorney or Attorneys to whom you were articulated or assigned carried on his or their business? And if not, state the reason.
3. Have you, at any time during the term of your articles, been absent without the permission of the Attorney or Attorneys to whom you were articulated or assigned? And if so, state the length and occasion of such absence.

4. Have you, during the period of your articles, been engaged or concerned in any, and if any, what profession, business or employment other than your professional employment as clerk to the Attorney or Attorneys to whom you were articulated or assigned?

*The 3rd August 1880.*—The following rules regarding the possession of licit salt in the excepted limits of Calcutta, and its transport therefrom into protected limits, are published for general information:—

(a)—Every application for a “certificate” for landing salt from shipboard, or for removing it from the bonded golahs into the excepted limits of Calcutta, must in future be made to the Collector of Customs instead of to the Board of Revenue, and any person attempting to land salt within such limits without having taken out such certificate will be liable to the penalties provided under the Sea Customs Act VIII of 1878.

This cancels rule 36, section 2 of the Rules for the guidance of officers engaged in the administration of the Salt Department in the Lower Provinces of Bengal.

The following rules are added to Rule 30, section 2 of the same rules:—

(b)—In granting a rowanah for salt which is to be conveyed out of the excepted limits of Calcutta into protected limits the Board will require the applicant for the rowanah to give the full particulars of the certificate under which it was landed in Calcutta.

(c)—If the holder of a rowanah issued by the Board of Revenue for salt to be taken from shipboard out of the excepted limits desires to land the whole or any portion of such salt within the excepted limits, he must apply for the Board's orders to cancel the original rowanah. On his application being granted, he will, on payment of the usual fees, be furnished with a letter of advice to the Collector of Customs for the issue of a "certificate" in respect of the whole or such portion of the salt as he desires to land within the excepted limits of Calcutta; and if necessary, with an "exchange rowanah" in respect of the balance to be taken beyond the excepted limits.

(d)—The holder of a rowanah for the transport of salt from the bonded golahs or from shipboard into the protected limits *via* the Chitpore pass-station will be at liberty to choose any of the three following routes:—

(1)—By the river Hooghly by boat.

(2)—By the Port Commissioners' tramway *via* Armenian Ghât.

(3)—By the Port Commissioners' tramway *via* Rathtollah Ghât.

The route chosen must be declared when the rowanah is taken out, and the customs officer on board the ship from which the salt is delivered will make out the boat-notes according to the route chosen. If the holder of the rowanah wishes to alter the route, he can do so by applying to the Board as provided in Rule 31.

*The 4th February 1880.*—The Lieutenant-Governor is pleased to publish for general information the following Order in Council, and the Regulations appended thereto, for preventing collisions at sea, which will come into force on the 1st September 1880.

H. J. REYNOLDS,  
Secy. to the Govt. of Bengal.

*At the Court at Osborne House, Isle of Wight, the 14th day of August 1879.*

PRESENT:

## THE QUEEN'S MOST EXCELLENT MAJESTY IN COUNCIL.

WHEREAS by "The Merchant Shipping Act Amendment Act, 1862," it was enacted that on and after the first day of June one thousand eight hundred and sixty-three, or such later day as might be fixed for the purpose by Order in Council, the Regulations contained in the table marked C in the schedule to the said Act should come into operation and be of the same force as if they were enacted in the body of the said Act; but that Her Majesty might from time to time, on the joint recommendation of the Admiralty and the Board of Trade, by Order in Council, annul or modify any of the said Regulations, or make new Regulations in addition thereto or in substitution therefor; and that any alterations in, or additions to, such Regulations made in manner aforesaid should be of the same force as the Regulations in the said schedule:

And whereas by the same Act it was further provided that whenever it should be made to appear to Her Majesty that the Government of any foreign country was willing that the Regulations for preventing collisions contained in Table C in the schedule to the said Act, or such other Regulations for preventing collisions as are for the time being in force under the said Act, should apply to the ships of such country when beyond the limits of British jurisdiction, Her Majesty might, by Order in Council, direct that such Regulations should apply to the ships of the said foreign country, whether within British jurisdiction or not; and it was further provided by the said Act that whenever an Order in Council had been issued applying any Regulation made by, or in pursuance of, the said Act to the ships of any foreign country, such ships should in all cases arising in any British court, be deemed to be subject to such Regulation, and should, for the purpose of such Regulation, be treated as if they were British ships:

And whereas by an Order in Council made in pursuance of the said recited Act, and dated the ninth day of January one thousand eight hundred and sixty-three, Her Majesty was pleased to direct: First, that the Regulations contained in the schedule to the said Act should be modified by the substitution for such Regulations of certain Regulations appended to the said Order;

Secondly, that the said Regulations appended to the said Order should, on and after the first day of June one thousand eight hundred and sixty-three, apply to French ships, whether within British jurisdiction or not:

And whereas by several Orders in Council subsequently made, Her Majesty was pleased to direct that the Regulations appended to the said Order of the ninth of January one thousand eight hundred and sixty-three, should apply to ships of the countries specified in the said Orders, whether within British jurisdiction or not:

And whereas by Order in Council, dated the thirtieth day of July one thousand eight hundred and sixty-eight, Her Majesty, on the joint recommendation of the Admiralty and the Board of Trade, was pleased to make certain additions to the Regulations appended to the said first-recited Order in Council, for the purpose of explaining Articles 11 and 13 of the said Regulations, and of removing doubt and misapprehension concerning the effect of the said two Articles:

And whereas the Admiralty and the Board of Trade have jointly recommended to Her Majesty that the Regulations contained in the Order in Council dated the ninth day of January one thousand eight hundred and sixty-three, and the additions to the said Regulations contained in the said Order in Council of the thirtieth day of July one thousand eight hundred and sixty-eight, shall be annulled from the first day of September one thousand eight hundred and eighty, and that there shall be substituted for the said Regulations and additions respectively the new Regulations hereinafter set forth:

And whereas it has been made to appear to Her Majesty that the Governments of the several foreign countries mentioned in the second schedule hereto are respectively willing that the Regulations contained in the first schedule hereto shall apply to ships of the said countries respectively, whether within British jurisdiction or not:

Now therefore Her Majesty, by virtue of the powers vested in Her by the said recited Act, and by and with the advice of Her Privy Council, is pleased to direct—

First, that on and after the first day of September one thousand eight hundred and eighty, the Regulations appended to the said Order in Council of the ninth day of January one thousand eight hundred and sixty-three, and the additions to the said Regulations contained in the said Order in Council of the thirtieth day of July one thousand eight hundred and sixty-eight, shall be annulled, and that there shall be substituted for the said Regulations and additions respectively the new Regulations contained in the first schedule hereto.

Second, that the said Regulations contained in the said first schedule hereto shall, from and after the first day of September one thousand eight hundred and eighty, apply to ships of the countries mentioned in the said second schedule hereto, whether within British jurisdiction or not.

C. L. PAUL.

## FIRST SCHEDULE.

## REGULATIONS FOR PREVENTING COLLISIONS AT SEA.

*Preliminary.*

ART. 1. In the following rules every steam-ship which is under sail and not under steam is to be considered a sailing ship; and every steam-ship which is under steam, whether under sail or not, is to be considered a ship under steam.

*Rules Concerning Lights.*

ART. 2. The lights mentioned in the following Articles, numbered 3, 4, 5, 6, 7, 8, 9, 10 and 11, and no others, shall be carried in all weathers, from sunset to sunrise.

ART. 3. A sea-going steam-ship when under way shall carry—

- (a.) On or in front of the foremast, at a height above the hull of not less than 20 feet and if the breadth of the ship exceeds 20 feet, then at a height above the hull not less than such breadth, a bright white light, so constructed as to show an uniform and unbroken light over an arc of the horizon of 20 points of the compass; so fixed as to throw the light 10 points on each side of the ship, viz. from right ahead to 2 points abaft the beam on either side; and of such a character as to be visible on a dark night, with a clear atmosphere, at a distance of at least five miles.
- (b.) On the starboard side, a green light so constructed as to show an uniform and unbroken light over an arc of the horizon of 10 points of the compass; so fixed as to throw the light from right ahead to 2 points abaft the beam on the starboard side; and of such a character as to be visible on a dark night, with a clear atmosphere, at a distance of at least two miles.
- (c.) On the port side, a red light, so constructed as to show an uniform and unbroken light over an arc of the horizon of 10 points of the compass; so fixed as to throw the light from right ahead to 2 points abaft the beam on the port side; and of such a character as to be visible on a dark night, with a clear atmosphere, at a distance of at least two miles.
- (d.) The said green and red side lights shall be fitted with inboard screens projecting at least three feet forward from the light, so as to prevent these lights from being seen across the bow.

ART. 4. A steam-ship, when towing another ship, shall, in addition to her side lights carry two bright white lights in a vertical line one over the other, not less than three feet apart, so as to distinguish her from other steam-ships. Each of these lights shall be of the same construction and character, and shall be carried in the same position, as the white light which other steam-ships are required to carry.

ART. 5. A ship, whether a steam-ship or a sailing ship, when employed either in laying or in picking up a telegraph cable, or which from any accident is not under command, shall at night carry in the same position as the white light which steam-ships are required to carry, and, if a steam-ship, in place of that light, three red lights in globular lanterns, each not less than 10 inches in diameter, in a vertical line one over the other, not less than three feet apart; and shall by day carry in a vertical line one over the other, not less than three feet apart, in front of, but not lower than, her foremast head, three black balls or shapes, each two feet in diameter.

These shapes and lights are to be taken by approaching ships as signals that the ship using them is not under command, and cannot therefore get out of the way.

The above ships when not making any way through the water, shall not carry the side lights, but when making way shall carry them.

ART. 6. A sailing ship under way, or being towed, shall carry the same lights as are provided by Article 3 for a steam-ship under way, with the exception of the white light, which she shall never carry.

ART. 7. Whenever, as in the case of small vessels during bad weather, the green and red side lights cannot be fixed, these lights shall be kept on deck, on their respective sides of the vessel, ready for use; and shall, on the approach of or to other vessels, be exhibited on their respective sides in sufficient time to prevent collision, in such manner as to make them most visible, and so that the green light shall not be seen on the port side, nor the red light on the starboard side.

To make the use of these portable lights more certain and easy, the lanterns containing them shall each be painted outside with the colour of the light they respectively contain, and shall be provided with proper screens.

ART. 8. A ship, whether a steam-ship or a sailing ship, when at anchor, shall carry, where it can best be seen, but at a height not exceeding 20 feet above the hull, a white light, in a globular lantern of not less than eight inches in diameter, and so constructed as to show a clear uniform and unbroken light visible all round the horizon, at a distance of at least one mile.

ART. 9. A pilot vessel, when engaged on her station on pilotage duty, shall not carry the lights required for other vessels, but shall carry a white light at the mast-head visible all round the horizon, and shall also exhibit a flare-up light or flare-up lights at short intervals which shall never exceed fifteen minutes.

A pilot vessel, when not engaged on her station on pilotage duty, shall carry lights similar to those of other ships.

ART. 10. (a)—Open fishing boats and other open boats when under way shall not be obliged to carry the side lights required for other vessels; but every such boat shall in lieu thereof have ready at hand a lantern with a green glass on the one side and a red glass on the other side; and on the approach of or to other vessels such lantern shall be exhibited in sufficient time to prevent collision, so that the green light shall not be seen on the port side, nor the red light on the starboard side.

(b)—A fishing vessel and an open boat when at anchor shall exhibit a bright white light.

(c)—A fishing vessel when employed in drift net fishing, shall carry on one of her masts two red lights in a vertical line one over the other, not less than three feet apart.

(d)—A trawler at work shall carry on one of her masts two lights in a vertical line one over the other, not less than three feet apart, the upper light red and the lower green, and shall also either carry the side lights required for other vessels, or if the side lights cannot be carried, have ready at hand the coloured lights as provided in Article 7, or a lantern with a red and a green glass as described in paragraph (a) of this Article.

(e)—Fishing vessels and open boats shall not be prevented from using a flare-up in addition if they desire to do so.

(f)—The lights mentioned in this Article are substituted for those mentioned in the 12th, 13th, and 14th Articles of the Convention between France and England scheduled to the British Sea Fisheries Act, 1868.

(g)—All lights required by this Article, except side lights, shall be in globular lanterns so constructed as to show all round the horizon.

ART. 11. A ship which is being overtaken by another shall show from her stern to such last-mentioned ship a white light or a flare-up light.

#### *Sound Signals for Fog, &c.*

ART. 12. A steam-ship shall be provided with a steam whistle, or other efficient steam sound signal, so placed that the sound may not be intercepted by any obstructions, and with an efficient fog-horn to be sounded by bellows or other mechanical means, and also with an efficient bell. A sailing ship shall be provided with a similar fog-horn and bell.

In fog, mist, or falling snow, whether by day or night, the signals described in this Article shall be used as follows, that is to say—

(a)—A steam-ship under way shall make with her steam whistle, or other steam sound signal, at intervals of not more than two minutes, a prolonged blast.

(b)—A sailing ship under way shall make with her fog-horn, at intervals of not more than two minutes, when on the starboard tack one blast, when on the port tack two blasts in succession, and when with the wind abaft the beam three blasts in succession.

(c)—A steam-ship and a sailing ship when not under way shall, at intervals of not more than two minutes, ring the bell.

#### *Speed of Ships to be moderate in Fog, &c.*

ART. 13. Every ship, whether a sailing ship or steam-ship, shall in a fog, mist, or falling snow go at a moderate speed.

#### *Steering and Sailing Rules.*

ART. 14. When two sailing ships are approaching one another, so as to involve risk of collision, one of them shall keep out of the way of the other as follows, viz:—

(a)—A ship which is running free shall keep out of the way of a ship which is close-hauled.

(b)—A ship which is close-hauled on the port tack shall keep out of the way of a ship which is close-hauled on the starboard tack.

(c)—When both are running free with the wind on different sides, the ship which has the wind on the port side shall keep out of the way of the other.

(d)—When both are running free with the wind on the same side, the ship which is to windward shall keep out of the way of the ship which is to leeward.

(e)—A ship which has the wind aft shall keep out of the way of the other ship.

ART. 15. If two ships under steam are meeting end on, or nearly end on, so as to involve risk of collision, each shall alter her course to starboard, so that each may pass on the port side of the other.

This Article only applies to cases where ships are meeting end on, or nearly end on in such a manner as to involve risk of collision, and does not apply to two ships which must, if both keep on their respective courses, pass clear of each other.

The only cases to which it does apply are, when each of the two ships is end on, or nearly end on to the other, in other words, to cases in which by day each ship sees the mast of the other in a line, or nearly in a line, with her own and by night, to cases in which each ship is in such a position as to see both the side lights of the other.

It does not apply by day to cases in which a ship sees another ahead crossing her own course; or by night, to cases where the red light of one ship is opposed to the red light of the other, or where the green light of one ship is opposed to the green light of the other, or where a red light without a green light, or a green light without a red light is seen ahead, or where both green and red lights are seen anywhere but ahead.

ART. 16. If two ships under steam are crossing so as to involve risk of collision, the ship which has the other on her own starboard side shall keep out of the way of the other.

ART. 17. If two ships, one of which is a sailing ship and the other a steam-ship, are proceeding in such directions as to involve risk of collision, the steam-ship shall keep out of the way of the sailing ship.

ART. 18. Every steam-ship when approaching another ship, so as to involve risk of collision, shall slacken her speed, or stop and reverse if necessary.

ART. 19. In taking any course authorized or required by these Regulations a steam-ship under way may indicate that course to any other ship which she has in sight by the following signals on her steam whistle, viz:—

One short blast to mean—"I am directing my course to starboard."

Two short blasts to mean—"I am directing my course to port."

Three short blasts to mean—"I am going full speed astern."

The use of these signals is optional; but if they are used, the course of the ship must be in accordance with the signal made.

ART. 20. Notwithstanding anything contained in any preceding Article every ship, whether a sailing ship or steam-ship, overtaking any other, shall keep out of the way of the overtaken ship.

ART. 21. In narrow channels every steam-ship shall, when it is safe and practicable keep to that side of the fair way or midchannel which lies on the starboard side of such ship.

ART. 22. Where by the above rules one of two ships is to keep out of the way the other shall keep her course.

ART. 23. In obeying and construing these rules due regard shall be had to all dangers of navigation, and to any special circumstances which may render a departure from the above rules necessary in order to avoid immediate danger.

*No Ship under any circumstances to neglect proper precautions.*

ART. 24. Nothing in these rules shall exonerate any ship, or the owner, or master, or crew thereof, from the consequences of any neglect to carry lights or signals, or of any neglect to keep a proper look-out, or of the neglect of any precaution which may be required by the ordinary practice of seamen, or by the special circumstances of the case.

*Reservation of Rules for Harbours and Inland Navigation.*

ART. 25. Nothing in these rules shall interfere with the operation of a special rule duly made by local authority relative to the navigation of any harbour, river, or inland navigation.

*Special Lights for Squadrons and Convoys.*

ART. 26. Nothing in these rules shall interfere with the operation of any special rules made by the Government of any nation with respect to additional station and signal lights for two or more ships of war, or for ships sailing under convoy.

## DRAFT RULES PROPOSED FOR THE SONE CANALS UNDER ACT III (B.C.) OF 1876.

Dated the 20th July 1880.

No. 102.—*Notification*.—In exercise of the powers conferred on him by section 99 of Act III (B.C.) of 1876, the Hon'ble the Lieutenant-Governor is pleased to direct the publication of the following rules for the Sone Canals which it is proposed to substitute for the rules passed and published at pages 761 to 767, Part I of the *Calcutta Gazette* of the 23rd July 1879.

C. TAYLOR,

*Offg. Asst. Secy., for Joint.-Secy.  
to the Govt. of Bengal, P. W. Dept.,  
Irrigation Branch.*

## RULES UNDER ACT III (B.C.) 1876.

1. The Collector, before awarding compensation under section 16, or for making a reference under section 17 of the Act, shall obtain the written opinion of the Superintending Canal Officer, which shall form part of the record of the proceedings.
2. Persons desirous of acquiring land for the construction of a village channel, or for having a village channel constructed by Canal Agency, shall prefer a written application to the Divisional Canal Officer, or to any other officer duly authorized by him to receive such application.
3. Ordinarily, no village channel shall exceed two miles in length from its head to the point of contact with the village boundary.
4. It shall be the duty of the Canal Officer to register all village channels after due notice has been given to the owner of his intention to do so; if the latter objects, no water will be given.
5. No alteration among the shareholders will be recognized, unless the sanction of the Canal Officer has been first obtained.
6. Persons desirous of taking water from a registered village channel shall, previous to doing so, prefer a written application (Appendix A) to the Divisional Canal Officer, Sub-Divisional Canal Officer, or any subordinate duly authorized by the Divisional Canal Officer to receive such application; and no water shall be taken until after the receipt of a permit (Appendix B) from competent authority.
7. Water shall not be granted where, in the opinion of the Canal Officer, waste is likely to occur.
8. An application under Rule 6 shall, if granted, and unless otherwise specially agreed upon, be subject to the following conditions:—
  - (a)—That the water supplied shall not be used for other purposes than irrigation without the written consent of the Divisional or Sub-Divisional Canal Officer.
  - (b)—That the Sub-Divisional Canal Officer shall, in consultation with the applicants, appoint a headman (to be called a *Lambardar*), known, or ascertained to be, a substantial person possessed of property, to attend to their interests, to receive and carry out the orders of the Canal Officers, and to distribute the water among the shareholders in the village channel according to their shares.
  - (c)—That in any case where the Sub-Divisional Canal Officer cannot agree with the applicants in the appointment of a *Lambardar*, the Sub-Divisional Canal Officer shall make the appointment himself, subject to the approval of the Divisional Canal Officer.
9. The Divisional Canal Officer is empowered to pay to the *Lambardar* appointed under Rule 8, the fees detailed in the rule next following, subject to the condition of satisfactory performance of duty.

10. The allowance to the *Lambardar* for duties connected with the village channel such as arranging that it shall be kept in proper repair, reporting unauthorized irrigation, distributing the water to the shareholders, seeing that the outlet is closed according to the orders of the Sub-Divisional Canal Officer, and generally assisting the officers of the Irrigation Department, shall be half anna in the rupee on the amount of canal water-rates assessed on the lands irrigated from the village channel under his charge. The Divisional Canal Officer may retrace the whole or any part of the fees under this rule in the event of non-compliance with these conditions.

11. The Sub-Divisional Canal Officer may, by written order under section 76 (a), stop the supply to any village channel when he is satisfied, after inspection by himself or by one of his subordinates, that it is not maintained in proper repair; such order shall be recorded in the Sub-Divisional Office.

12. The Divisional Canal Officer may close the outlets in rotation as he may consider necessary. Such closures shall not extend beyond ten consecutive days, and shall be notified to the *Lambardars* of village channels. For longer closures the authority of the Superintending Canal Officer is required.

13. Nothing in the above rules shall be taken to affect the power of the Superintending or Divisional Canal Officer to stop the supply of water in case of pressing emergency.

14. The water-gauges on distributaries or other channels shall be held to give authoritative data for all calculations of discharge required to verify claims for remission of water-rate on account of loss of water.

15. Claims to remission of water-rates under section 76(b) shall only be admitted on proof of actual loss caused by the stoppage of supply. On proof of such loss, the Divisional Canal Officer may remit the whole or any portion of the rates. All applications for remission of water-rates shall be made in writing by the parties concerned, either in person, or through their headman, to the nearest Sub-Divisional Canal Officer, at least seven days prior to the cutting of the crop. On receipt of such application, the Sub-Divisional Canal Officer shall, after due local enquiry, forward the application with his remarks to the Divisional Canal Officer for decision.

16. Before awarding compensation under section 76(c), the Collector shall obtain the written opinion of the Divisional Canal Officer, and such opinion shall form part of the record of the proceedings.

17. Contracts between the Divisional Canal Officer on the part of Government, and private individuals, for the use of water as a motive power, or for any other purpose whatsoever, not included in the published schedule of rates, shall, if for any period not exceeding one year, require the previous sanction of the Superintending Canal Officer. If proposed for longer periods, such contracts shall be submitted for the sanction of the Lieutenant-Governor in the Irrigation Department.

18. Tanks may be filled with canal water without charge, and without reference to the area irrigated in any village, wherever water can be made available without injury to the cultivation dependent on any canal, under the following conditions:—

(a.)—No tank shall be so filled unless the water is to be exclusively used for domestic purposes or for watering cattle, or both.

(b.)—No tank shall be so filled from which irrigation is practised.

(c.)—No tank shall be so filled which, intercepting any line of drainage, is liable to overflow from accumulation of water derived from natural causes.

(d.)—No tank shall be so filled except on the written order of the Sub-Divisional Canal Officer issued on the written application of the parties concerned.

(e.)—No tank shall be so filled unless the village channel used to fill it shall be shown to the satisfaction of the Sub-Divisional Canal Officer to be in a sound condition when the application is made.

(f.)—The privilege herein accorded may, by written order of the Divisional Canal Officer, subject to revision by the Superintending Canal Officer, whose decision shall be final, be suspended for 12 months for breach of any of the above conditions.

19. Leases for terms of five years for the supply of water between the 25th June of one year and the 1st April of the following year will be given at the rates fixed in the Schedule, Rule 33, provided that land leased in any village forms one or more compact blocks, each of not less than 50 acres, defined by well-marked boundaries of such a nature as clearly to distinguish leased from the adjoining unleased lands, and to prevent the latter from being surreptitiously watered under cover of the lease.

20. Well-marked boundaries of the nature required by the foregoing rule generally exist. Village roads, bunds of *agrah*, village boundaries, and similar natural marks will be sufficient. If such do not exist, and it appears advisable to grant the lease, the villagers may, at the discretion of the Divisional Canal Officer, be required to make small bunds round the leased area, or mark its limits by the erection of cheap boundary marks, or cause to be carried out such arrangements as may suffice for the future identification of the leased area.

21. No restriction is placed on the description of crop to be grown under five-year leases, but no water will be given on these leases between the 1st of April and the 25th of June. The Superintending Canal Officer may relax this rule in the case of water being required for rice-seed beds.

22. If in the opinion of the Divisional Canal Officer it appears advisable to grant a lease for a block of less than 50 acres in area, he must refer the matter for the decision of the Superintending Canal Officer, at whose discretion the restriction as to area may be relaxed.

23. Present holders of three-year leases may at their option avail themselves of the terms offered to the holders of five-year leases, but without retrospective effect.

24. Leases for five years at the rates entered in Rule 33 may be given—(1) on the application of all the cultivators of the area proposed to be leased, on condition of their agreeing in such application to become jointly and severally responsible for the payment of all amounts due on account of water-rates; or (2) on the joint application of the cultivators and of some person hereinafter called the Contractor, who may agree to collect and pay to Government, under section 82 of Act III (B.C.) of 1876, all sums due under the agreement on account of water-rates. The agreement of villagers binding themselves jointly and severally will be in the form prescribed in Appendix C. The joint agreement of villagers and a water-rate Contractor, shall be in the form prescribed in Appendix D. Every agreement under this rule must be signed by each applicant in the presence of at least one respectable witness.

25. Contractors shall be entitled to collect water-dues, at the rates given in schedule 4 attached to Rule 33, from the cultivators who have applied for the water supplied. Every due from a cultivator to the Contractor on account of water-rates shall be deemed to be a sum due to Government under sections 82 and 85 of Act III (B.C.) of 1876.

26. A Contractor (or in case there be more than one, each Contractor severally and jointly) shall be responsible for all sums payable on the agreement (Appendix D), except such sums as may be remitted by competent authority under the rules in force, and shall be entitled to a deduction of 5 per cent. for cost of collection.

27. No water shall be taken previous to the receipt of a permit (Appendix B) signed by the Divisional Canal Officer. When an agreement has been made for the collection of the rates by a Contractor, the Divisional Canal Officer shall under section 82 furnish such Contractor with a written authority to collect the amounts due by the cultivators according to a list furnished in the application, one copy of which is to be sent to the Collector.

28. Every Contractor shall nominate a headman, to be approved of by the Divisional Canal Officer, to perform the duties specified in Rule 10. Such headman or the contractor, according to the arrangement made at the time of contract, shall receive 5 per cent. on the assessment, but the Divisional Canal Officer may retrench the whole or any part of these fees if the duties are not properly performed.

29. All water-rates leviable under the above rules for five-years leases shall become due on the 31st December and 15th March in equal portions, and shall be paid within one month of such dates.

30. Under section 78 of the Act, the rates chargeable per acre for water supplied to the different description of crops up to 1st of April 1881, except in cases of three-year leases now in existence, will be as follow:—

SCHEDULE I.—Existing rates. (Annual.)

*Note.*—If water is taken for sugarcane in the hot months, in addition, under Rule 32, the total charge will be as follows:—

	Rs. A. P.
Under five-years leases per acre	2 0 0
During hot months	4 0 0
Total per acre	6 0 0

34. The statements of the amounts demandable for water-rates levied under the rules in force shall be prepared under the supervision and signature of the Divisional Canal Officer in such form as shall from time to time be sanctioned by the Lieutenant-Governor.

35. All water-rates shall become due on the dates below stated, and shall be paid within one month of such dates:—

Water-rate on spring crops, wheat, barley, peas, poppy, &c.	15th March.
Water-rate on summer crops, chenna, &c.	15th July.
Water-rate on bhadoi crops, early rice, indian-corn, murwa, &c.	31st October.
Water-rate on annual and winter crops, sugarcane, aghani rice, jowar, &c.	31st December.

36. In the case of lands held in *bhaoli*, the water-rate shall be recoverable from both the cultivator and the person or persons in receipt of the *bhaoli* rents in the same proportion as the produce is divisible amongst them.

37. In the case of lands held in *bhaoli*, the zemindar shall sign jointly with the cultivators. (This rule only applies to the case of five-year leases.)

38. The area irrigated in any village shall be measured by an *Ameen* appointed for the purpose. The *Putwari* shall be present at the measurement, and shall at the time take a copy of the *khurakh* of the *Ameen*; if for any reason the *Putwari* is not present, the cost of preparing the copy will be charged against him. This copy shall be delivered to the *Putwari*, or, in his absence, to the *Lambardar*. Both the *Lambardar* and *Putwari* shall sign the *khurakh*.

39. When the measurement is completed, the *khurakh* shall be forwarded to the Sub-Divisional Canal Officer, who shall prepare the *khatiani* with all possible despatch. A copy of the *khatiani*, signed and sealed by the *Zilladar*, shall, as soon as it is prepared, be forwarded to the *Putwari*, who shall grant a receipt for the same. If the *Putwari* is not present, or declines to receive the *khatiani*, the Sub-Divisional Officer shall forward it direct to the Collector.

40. It shall be the duty of the *Putwari*, immediately on the completion of the measurement, to inform each ryot, on application, of the fields measured against him, and on receipt of the *khatiani* to supply each person charged with a *percha* showing the water-rates due. For these duties, and for attending the measurement and rendering such other reasonable assistance to the Canal Officer and Collector as may be required, an allowance of one quarter anna per rupee on the amount collected shall be made.

41. This allowance shall be paid to the *Putwari* by the Collector if he is satisfied that the work has been properly done.

42. The Canal Officer shall note on the *khatiani* whether the *Putwari* has given proper assistance during the measurement.

43. If a cultivator is dissatisfied with the entries made against him in the *khatiani*, whether as to the fact of the land having been charged "flow" instead of "lift" or as to the measurements and entries of classes of crops, he must lodge a complaint, either personally or through the *Lambardar* of his village channel, with the Divisional or Sub-Divisional Canal Officer within a month after the date of the demand being made on him.

44. The *Zilladar* shall submit his check measurements in a form (Appendix E) which shall be sent in for the inspection of the Divisional Canal Officer. The Sub-Divisional Canal Officer shall check the *Ameens'* measurements as often as he possibly can. If it be found that any *ameen* wilfully or frequently makes wrong measurements, he shall be punished by dismissal.

45. Collection of all water-rates shall be made by the Collector in accordance with the statement of demands furnished to him by the Divisional Canal Officer.

46. Objections to the demand addressed to the Collector, if preferred within one month after the demand has been made, shall, if remission be claimed on the score of short supply, or of any matter affecting the Irrigation Department, be referred for orders to the Divisional Canal Officer. The Collector shall have discretion to suspend collections by a written order in cases where (objections having been filed) it may seem advisable to do so.

47. Claims for remission, referred by the Collector and admitted by the Divisional Canal Officer, shall be reported by him for the sanction of the Superintending Canal Officer, except in cases where remissions are made on account of excess areas having been charged, or a wrong name entered in the *khatiani*.

48. If the Divisional Canal Officer reject the claim, an appeal may be made to the Superintending Canal Officer, provided that it is preferred within forty days from the issue of the order of the Divisional Canal Officer.

49. A remission statement, signed by the Superintending or Divisional Canal Officer, shall be sufficient authority for a refund by the Collector.

50. In special cases not otherwise provided in these rules, and in cases where water-rates are not recoverable owing to the absconding or bankruptcy of the defaulter, the Collector will obtain the sanction of the Commissioner of the Division to the remission of such sums as he may deem irrecoverable. The details of such remission shall be communicated at the close of each official year to the Divisional Canal Officer.

51. The Collector shall appoint a headman (to be called a *Tehsildar*), whose duty will be to collect and pay in, to the Collector or other duly authorized person, all water-rates leviable on the land irrigated.

52. The *Tehsildar* shall furnish security for the payment of all sums realized by him, the stamp and registration fees on security bonds being deducted from the percentage allowed, under the following rule.

53. The allowance to the *Tehsildars* of a village or villages for collecting the water-rates shall be fixed by the Collector, but the total amount to be paid in any one year to all the *Tehsildars* in a district shall not exceed half an anna in the rupee on the amounts actually paid in. If the *Tehsildar* shall satisfy the Collector that arrears have not accrued through any negligence on his part, it shall be at the option of the Collector to pay him the allowance on the whole or any part of such arrears.

54. If only a portion of a field be irrigated, the water-rate shall be chargeable on the whole field, unless such portion shall have been clearly demarcated, previous to the admission of the water, by a ridge not less than half a foot high.

55. When a portion of a field has been irrigated with canal water, and a portion with well or reservoir water, the whole field shall be liable for canal water-rate, unless a clearly distinguishable boundary exists between the two portions.

56. If well or reservoir water is conveyed in the same channel as canal water, the whole of the irrigation from that channel shall be liable to canal water-rate. The *Lambardar* will be held personally responsible that any breach of this rule or of Rules 54 and 55 is duly reported.

57. Irrigation from escape channels, when the supply is permanent, shall be governed by the same rules as irrigation from other parts of the canal.

58. Irrigation from such channels, when the supply is intermittent, may be allowed at such reduced rates as shall from time to time be fixed by the Lieutenant-Governor.

59. Persons using water without a written permit, or taking water at times prohibited by proper authority, shall be liable to a penalty not exceeding double water-rates on the area irrigated, and such charge shall be leviable at the time of report to the Collector.

60. The charge leviable for water suffered to run to waste on uncultivated lands shall be calculated at the highest rate specified in the schedule, on the area flooded; provided that in every such case the Divisional Canal Officer may impose a lower rate if he thinks fit. The *Lambardar* is to be held responsible for reporting such waste of water.

61. When the original crop sown in a field irrigated by canal water fails, and is ploughed up, and a fresh crop is sown in the same season, the water-rates shall be levied on the second crop.

62. No person shall, without the permission in writing of the Divisional or Sub-Divisional Canal Officer, pass, or cause any animal or vehicle to pass, on or across any of the works, banks, or channels of a canal or drainage work after he has been desired to desist therefrom, excepting by means of such bridges, fords, and ferries, and their approaches, as are provided by the Divisional Canal Officer.

63. No Canal Officer, unless specially exempted by the Lieutenant-Governor from the operation of this rule, shall have any interest in the distribution of water from any of the canals, or purchase or bid for any Government property sold thereon, either in his own name, or in the name of another, or jointly, or in shares with others.

*The 3rd August 1880*—The following rules regarding the possession of licit salt in the excepted limits of Calcutta, and its transport therefrom into protected limits, are published for general information:—

(a)—Every application for a "certificate" for landing salt from shipboard, or for removing it from the bonded golahs into the excepted limits of Calcutta, must in future be made to the Collector of Customs instead of to the Board of Revenue, and any person attempting to land salt within such limits without having taken out such certificate will be liable to the penalties provided under the Sea Customs Act VIII of 1878.

This cancels rule 36, section 2 of the Rules for the guidance of officers engaged in the administration of the Salt Department in the Lower Provinces of Bengal.

The following rules are added to Rule 30, section 2 of the same rules:—

(b)—In granting a rowanah for salt which is to be conveyed out of the excepted limits of Calcutta into protected limits, the Board will require the applicant for the rowanah to give the full particulars of the certificate under which it was landed in Calcutta.

(c)—If the holder of a rowanah issued by the Board of Revenue for salt to be taken from shipboard out of the excepted limits desires to land the whole or any portion of such salt within the excepted limits, he must apply for the Board's orders to cancel the original rowanah. On his application being granted, he will, on payment of the usual fees, be furnished with a letter of advice to the Collector of Customs for the issue of a "certificate" in respect of the whole or such portion of the salt as he desires to land within the excepted

limits of Calcutta; and if necessary, with an "exchange rowanah" in respect of the balance to be taken beyond the excepted limits.

(d)—The holder of a rowanah for the transport of salt from the bonded golahs, or from shipboard into the protected limits *via* the Chitpore pass-station, will be at liberty to choose any of the three following routes:—

- (1)—By the river Hooghly by boat.
- (2)—By the Port Commissioners' tramway *via* Armenian Ghât.
- (3)—By the Port Commissioners' tramway *via* Rathtollah Ghât.

The route chosen must be declared when the rowanah is taken out, and the customs officer on board the ship from which the salt is delivered will make out the boat-notes according to the route chosen. If the holder of the rowanah wishes to alter the route, he can do so by applying to the Board as provided in Rule 31.

NOTIFICATION.

The 4th February 1880.—The Lieutenant-Governor is pleased to publish for general information the following Order in Council, and the Regulations appended thereto, for preventing collisions at sea, which will come into force on the 1st September 1880.

H. J. REYNOLDS,  
Secy. to the Govt. of Bengal.

At the Court at Osborne House, Isle of Wight, the 14th day of August 1879.

PRESENT:

THE QUEEN'S MOST EXCELLENT MAJESTY IN COUNCIL.

WHEREAS by "The Merchant Shipping Act Amendment Act, 1862," it was enacted that on and after the first day of June one thousand eight hundred and sixty-three, or such later day as might be fixed for the purpose by Order in Council, the Regulations contained in the table marked C in the schedule to the said Act should come into operation and be of the same force as if they were enacted in the body of the said Act; but that Her Majesty might from time to time, on the joint recommendation of the Admiralty and the Board of Trade, by Order in Council, annul or modify any of the said Regulations, or make new Regulations in addition thereto or in substitution thereof; and that any alterations in, or additions to, such Regulations made in manner aforesaid should be of the same force as the Regulations in the said schedule:

And whereas by the same Act it was further provided that whenever it should be made to appear to Her Majesty that the Government of any foreign country was willing that the Regulations for preventing collisions contained in Table C in the schedule to the said Act, or such other Regulations for preventing collisions as are for the time being in force under the said Act, should apply to the ships of such country when beyond the limits of British jurisdiction, Her Majesty might, by Order in Council, direct that such Regulations should apply to the ships of the said foreign country, whether within British jurisdiction or not; and it was further provided by the said Act that whenever an Order in Council had been issued applying any Regulation made by, or in pursuance of, the said Act to the ships of any foreign country, such ships should in all cases arising in any British court, be deemed to be subject to such Regulation, and should, for the purpose of such Regulation, be treated as if they were British ships:

And whereas by an Order in Council made in pursuance of the said recited Act, and dated the ninth day of January one thousand eight hundred and sixty-three, Her Majesty

was pleased to direct: First, that the Regulations contained in the schedule to the said Act should be modified by the substitution for such Regulations of certain Regulations appended to the said Order;

Secondly, that the said Regulations appended to the said Order should, on and after the first day of June one thousand eight hundred and sixty-three, apply to French ships, whether within British jurisdiction or not:

And whereas by several Orders in Council subsequently made, Her Majesty was pleased to direct that the Regulations appended to the said Order of the ninth of January one thousand eight hundred and sixty-three, should apply to ships of the countries specified in the said Orders, whether within British jurisdiction or not:

And whereas by Order in Council, dated the thirtieth day of July one thousand eight hundred and sixty-eight, Her Majesty, on the joint recommendation of the Admiralty and the Board of Trade, was pleased to make certain additions to the Regulations appended to the said first-recited Order in Council, for the purpose of explaining Articles 11 and 13 of the said Regulations, and of removing doubt and misapprehension concerning the effect of the said two Articles:

And whereas the Admiralty and the Board of Trade have jointly recommended to Her Majesty that the Regulations contained in the Order in Council dated the ninth day of January one thousand eight hundred and sixty-three, and the additions to the said Regulations contained in the said Order in Council of the thirtieth day of July one thousand eight hundred and sixty-eight, shall be annulled from the first day of September one thousand eight hundred and eighty, and that there shall be substituted for the said Regulations and additions respectively the new Regulations hereinafter set forth:

And whereas it has been made to appear to Her Majesty that the Governments of the several foreign countries mentioned in the second schedule hereto are respectively willing that the Regulations contained in the first schedule hereto shall apply to ships of the said countries respectively, whether within British jurisdiction or not:

Now therefore Her Majesty, by virtue of the powers vested in Her by the said recited Act, and by and with the advice of Her Privy Council, is pleased to direct—

First, that on and after the first day of September one thousand eight hundred and eighty, the Regulations appended to the said Order in Council of the ninth day of January one thousand eight hundred and sixty-three, and the additions to the said Regulations contained in the said Order in Council of the thirtieth day of July one thousand eight hundred and sixty-eight, shall be annulled, and that there shall be substituted for the said Regulations and additions respectively the new Regulations contained in the first schedule hereto.

Second, that the said Regulations contained in the said first schedule hereto shall, from and after the first day of September one thousand eight hundred and eighty, apply to ships of the countries mentioned in the said second schedule hereto, whether within British jurisdiction or not.

C. L. PEEL.

#### FIRST SCHEDULE.

##### REGULATIONS FOR PREVENTING COLLISIONS AT SEA.

###### *Preliminary.*

ART. 1. In the following rules every steam-ship which is under sail and not under steam is to be considered a sailing ship; and every steam-ship which is under steam, whether under sail or not, is to be considered a ship under steam.

###### *Rules Concerning Lights.*

ART. 2. The lights mentioned in the following Articles, numbered 3, 4, 5, 6, 7, 8, 9, 10 and 11, and no others, shall be carried in all weathers, from sunset to sunrise.

ART. 3. A sea-going steam-ship when under way shall carry—

(a.) On or in front of the foremast, at a height above the hull of not less than 20 feet, and if the breadth of the ship exceeds 20 feet, then at a height above the hull not less than such breadth, a bright white light, so constructed as to show an uniform and unbroken light over an arc of the horizon of 20 points of the compass; so fixed as to throw the light 10 points on each side of the ship, viz. from right ahead to 2 points abaft the beam on either side; and of such a character as to be visible on a dark night, with a clear atmosphere, at a distance of at least five miles.

(b.) On the starboard side, a green light so constructed as to show an uniform and unbroken light over an arc of the horizon of 10 points of the compass; so fixed as to throw the light from right ahead to 2 points abaft the beam on the starboard side; and of such a character as to be visible on a dark night, with a clear atmosphere, at a distance of at least two miles.

(c.) On the port side, a red light, so constructed as to show an uniform and unbroken light over an arc of the horizon of 10 points of the compass; so fixed as to throw the light from right ahead to 2 points abaft the beam on the port side; and of such a character as to be visible on a dark night, with a clear atmosphere, at a distance of at least two miles.

(d.) The said green and red side lights shall be fitted with inboard screens projecting at least three feet forward from the light, so as to prevent these lights from being seen across the bow.

ART. 4. A steam-ship, when towing another ship, shall, in addition to her side lights, carry two bright white lights in a vertical line one over the other, not less than three feet apart, so as to distinguish her from other steam-ships. Each of these lights shall be of the same construction and character, and shall be carried in the same position, as the white light which other steam-ships are required to carry.

ART. 5. A ship, whether a steam-ship or a sailing ship, when employed either in laying or in picking up a telegraph cable, or which from any accident is not under command, shall at night carry in the same position as the white light which steam-ships are required to carry, and, if a steam-ship, in place of that light, three red lights in globular lanterns, each not less than 10 inches in diameter, in a vertical line one over the other, not less than three feet apart: and shall by day carry in a vertical line one over the other, not less than three feet apart, in front of, but not lower than, her foremast head, three black balls or shapes, each two feet in diameter.

These shapes and lights are to be taken by approaching ships as signals that the ship using them is not under command, and cannot therefore get out of the way.

The above ships when not making any way through the water, shall not carry the side lights, but when making way shall carry them.

ART. 6. A sailing ship under way, or being towed, shall carry the same lights as are provided by Article 3 for a steam-ship under way, with the exception of the white light, which she shall never carry.

ART. 7. Whenever, as in the case of small vessels during bad weather, the green and red side lights cannot be fixed, these lights shall be kept on deck, on their respective sides of the vessel, ready for use: and shall, on the approach of or to other vessels, be exhibited on their respective sides in sufficient time to prevent collision, in such manner as to make them most visible, and so that the green light shall not be seen on the port side, nor the red light on the starboard side.

To make the use of these portable lights more certain and easy, the lanterns containing them shall each be painted outside with the colour of the light they respectively contain, and shall be provided with proper screens.

ART. 8. A ship, whether a steam-ship or a sailing ship, when at anchor, shall carry, where it can best be seen, but at a height not exceeding 20 feet above the hull, a white light, in a globular lantern of not less than eight inches in diameter, and so constructed as to show a clear uniform and unbroken light visible all round the horizon, at a distance of at least one mile.

ART. 9. A pilot vessel, when engaged on her station on pilotage duty, shall not carry the lights required for other vessels, but shall carry a white light at the mast-head visible all round the horizon, and shall also exhibit a flare-up light or flare-up lights at short intervals which shall never exceed fifteen minutes.

A pilot vessel, when not engaged on her station on pilotage duty, shall carry lights similar to those of other ships.

ART. 10. (a)—Open fishing boats and other open boats when under way shall not be obliged to carry the side lights required for other vessels; but every such boat shall in lieu thereof have ready at hand a lantern with a green glass on the one side and a red glass on the other side; and on the approach of or to other vessels such lantern shall be exhibited in sufficient time to prevent collision, so that the green light shall not be seen on the port side, nor the red light on the starboard side.

(b)—A fishing vessel and an open boat when at anchor shall exhibit a bright white light.

(c)—A fishing vessel when employed in drift net fishing, shall carry on one of her masts two red lights in a vertical line one over the other, not less than three feet apart.

(d)—A crawler at work shall carry on one of her masts two lights in a vertical line one over the other, not less than three feet apart, the upper light red and the lower green, and shall also either carry the side lights required for other vessels, or if the side lights cannot be carried, have ready at hand the coloured lights as provided in Article 7, or a lantern with a red and a green glass as described in paragraph (a) of this Article.

(e)—Fishing vessels and open boats shall not be prevented from using a flare-up in addition if they desire to do so.

(f)—The lights mentioned in this Article are substituted for those mentioned in the 12th, 13th, and 14th Articles of the Convention between France and England scheduled to the British Sea Fisheries Act, 1868.

(g)—All lights required by this Article, except side lights, shall be in globular lanterns so constructed as to show all round the horizon.

ART. 11. A ship which is being overtaken by another shall show from her stern to such last-mentioned ship a white light or a flare-up light.

#### *Sound Signals for Fog, &c.*

ART. 12. A steam-ship shall be provided with a steam whistle, or other efficient steam sound signal, so placed that the sound may not be intercepted by any obstructions, and with an efficient fog-horn to be sounded by bellows or other mechanical means, and also with an efficient bell. A sailing ship shall be provided with a similar fog-horn and bell.

In fog, mist, or falling snow, whether by day or night, the signals described in this Article shall be used as follows, that is to say—

- (a)—A steam-ship under way shall make with her steam whistle, or other steam sound signal, at intervals of not more than two minutes, a prolonged blast.
- (b)—A sailing ship under way shall make with her fog-horn, at intervals of not more than two minutes, when on the starboard tack one blast, when on the port tack two blasts in succession, and when with the wind abaft the beam three blasts in succession.
- (c)—A steam-ship and a sailing ship when not under way shall, at intervals of not more than two minutes, ring the bell.

*Speed of Ships to be moderate in Fog, &c.*

ART. 13. Every ship, whether a sailing ship or steam-ship, shall in a fog, mist, or falling snow, go at a moderate speed.

*Steering and Sailing Rules.*

ART. 14. When two sailing ships are approaching one another, so as to involve risk of collision, one of them shall keep out of the way of the other as follows, viz :—

- (a)—A ship which is running free shall keep out of the way of a ship which is close-hauled.
- (b)—A ship which is close-hauled on the port tack shall keep out of the way of a ship which is close-hauled on the starboard tack.
- (c)—When both are running free with the wind on different sides, the ship which has the wind on the port side shall keep out of the way of the other.
- (d)—When both are running free with the wind on the same side, the ship which is to windward shall keep out of the way of the ship which is to leeward.
- (e)—A ship which has the wind aft shall keep out of the way of the other ship.

ART. 15. If two ships under steam are meeting end on, or nearly end on, so as to involve risk of collision, each shall alter her course to starboard, so that each may pass on the port side of the other.

This Article only applies to cases where ships are meeting end on, or nearly end on, in such a manner as to involve risk of collision, and does not apply to two ships which must, if both keep on their respective courses, pass clear of each other.

The only cases to which it does apply are, when each of the two ships is end on, or nearly end on to the other, in other words, to cases in which by day each ship sees the mast of the other in a line, or nearly in a line, with her own and by night, to cases in which each ship is in such a position as to see both the side lights of the other.

It does not apply by day to cases in which a ship sees another ahead crossing her own course; or by night, to cases where the red light of one ship is opposed to the red light of the other, or where the green light of one ship is opposed to the green light of the other, or where a red light without a green light, or a green light without a red light is seen ahead, or where both green and red lights are seen anywhere but ahead.

ART. 16. If two ships under steam are crossing so as to involve risk of collision, the ship which has the other on her own starboard side shall keep out of the way of the other.

ART. 17. If two ships, one of which is a sailing ship and the other a steam-ship, are proceeding in such directions as to involve risk of collision, the steam-ship shall keep out of the way of the sailing ship.

ART. 18. Every steam-ship when approaching another ship, so as to involve risk of collision, shall slacken her speed, or stop and reverse if necessary.

ART. 19. In taking any course authorized or required by these Regulations a steam-ship under way may indicate that course to any other ship which she has in sight by the following signals on her steam whistle, viz :—

One short blast to mean—"I am directing my course to starboard."

Two short blasts to mean—"I am directing my course to port."

Three short blasts to mean—"I am going full speed astern."

The use of these signals is optional; but if they are used, the course of the ship must be in accordance with the signal made.

ART. 20. Notwithstanding anything contained in any preceding Article every ship, whether a sailing ship or steam-ship, overtaking any other, shall keep out of the way of the overtaken ship.

ART. 21. In narrow channels every steam-ship shall, when it is safe and practicable, keep to that side of the fair way or midchannel which lies on the starboard side of such ship.

ART. 22. Where by the above rules one of two ships is to keep out of the way the other shall keep her course.

ART. 23. In obeying and construing these rules due regard shall be had to all dangers of navigation, and to any special circumstances which may render a departure from the above rules necessary in order to avoid immediate danger.

*No Ship under any circumstances to neglect proper precautions.*

ART. 24. Nothing in these rules shall exonerate any ship, or the owner, or master, or crew thereof, from the consequences of any neglect to carry lights or signals, or of any neglect to keep a proper look-out, or of the neglect of any precaution which may be required by the ordinary practice of seamen, or by the special circumstances of the case.

*Reservation of Rules for Harbours and Inland Navigation.*

ART. 25. Nothing in these rules shall interfere with the operation of a special rule duly made by local authority relative to the navigation of any harbour, river, or inland navigation.

*Special Lights for Squadrons and Convoys.*

ART. 26. Nothing in these rules shall interfere with the operation of any special rules made by the Government of any nation with respect to additional station and signal lights for two or more ships of war, or for ships sailing under convoy.

**Passenger boats.**—A charge of one anna per head per mile will be levied on 1st class passengers in steamers and boats, and  $\frac{1}{4}$  (quarter) pie per head per mile on all other passengers over and above the toll due on the measurement of the boats or steamers. This charge will be levied on the owners of boats or steamers, and not on the passengers, except in cases in which a Government boat or steamer is hired by any person for his exclusive use. The hire in such case charged by Government is for the use of the boat,

and the tollage of boat, plus mileage charge at one anna per head, will be levied on the passenger.

**Exemption.**—Exemption from payment of canal dues at the above rates for goods or passengers will not be allowed to any department or departments. The canal officers, i.e., those directly in charge of irrigation works, and whose duty will necessitate travelling through the canal for inspection thereof, and the Deputy Revenue Superintendent, will be allowed to pass free of tollage. All other Government officers, whether travelling on duty or otherwise, will pay the ordinary tollage for themselves and their baggage boats.

**Demurrage.**—The number of days which a boat with a through ticket may remain in the canal without additional payment will be calculated at the rate of one day for every eight miles or portion of eight miles to be traversed. Boats remaining in the canal for a longer period will pay a demurrage of eight annas per 100 maunds per diem for each day or part of a day that they may remain in excess of the time allowed.

**DRAFT RULES PROPOSED FOR THE SONE CANALS UNDER ACT III (B.C.) OF 1876.**

*Dated the 20th July 1880.*

No. 102.—*Notification.*—In exercise of the powers conferred on him by section 99 of Act III (B.C.) of 1876, the Hon'ble the Lieutenant-Governor is pleased to direct the publication of the following rules for the Sone Canals which it is proposed to substitute for the rules passed and published at pages 761 to 767, Part I of the *Calcutta Gazette* of the 23rd July 1879.

C. TAYLOR,  
Offg. Asst. Secy., for Joint.-Secy.  
to the Govt. of Bengal, P. W. Dept.,  
Irrigation Branch.

**RULES UNDER ACT III (B.C.) 1876.**

1. The Collector, before awarding compensation under section 16, or for making a reference under section 17 of the Act, shall obtain the written opinion of the Superintending Canal Officer, which shall form part of the record of the proceedings.
2. Persons desirous of acquiring land for the construction of a village channel, or for having a village channel constructed by Canal Agency, shall prefer a written application to the Divisional Canal Officer, or to any other officer duly authorized by him to receive such application.
3. Ordinarily, no village channel shall exceed two miles in length from its head to the point of contact with the village boundary.
4. It shall be the duty of the Canal Officer to register all village channels after due notice has been given to the owner of his intention to do so; if the latter objects, no water will be given.
5. No alteration among the shareholders will be recognized, unless the sanction of the Canal Officer has been first obtained.
6. Persons desirous of taking water from a registered village channel shall, previous to doing so, prefer a written application (Appendix A) to the Divisional Canal Officer, Sub-Divisional Canal Officer, or any subordinate duly authorized by the Divisional Canal Officer to receive such application; and no water shall be taken until after the receipt of a permit (Appendix B) from competent authority.
7. Water shall not be granted where, in the opinion of the Canal Officer, waste is likely to occur.
8. An application under Rule 6 shall, if granted, and unless otherwise specially agreed upon, be subject to the following conditions:—
  - (a)—That the water supplied shall not be used for other purposes than irrigation without the written consent of the Divisional or Sub-Divisional Canal Officer.
  - (b)—That the Sub-Divisional Canal Officer shall, in consultation with the applicants, appoint a headman (to be called a *Lambaridar*), known, or ascertained to be, a substantial person possessed of property, to attend to their interests, to receive and carry out the orders of the Canal Officers, and to distribute the water among the shareholders in the village channel according to their shares.
  - (c)—That in any case where the Sub-Divisional Canal Officer cannot agree with the applicants in the appointment of a *Lambaridar*, the Sub-Divisional Canal Officer shall make the appointment himself, subject to the approval of the Divisional Canal Officer.

9. The Divisional Canal Officer is empowered to pay to the *Lambardar* appointed under Rule 81, the fees detailed in the rule next following, subject to the condition of satisfactory performance of duty.

10. The allowance to the *Lambardar* for duties connected with the village channel such as arranging that it shall be kept in proper repair, reporting unauthorized irrigation, distributing the water to the shareholders, seeing that the outlet is closed according to the orders of the Sub-Divisional Canal Officer, and generally assisting the officers of the Irrigation Department, shall be half anna in the rupee on the amount of canal water-rates assessed on the lands irrigated from the village channel under his charge. The Divisional Canal Officer may retrench the whole or any part of the fees under this rule in the event of non-compliance with these conditions.

11. The Sub-Divisional Canal Officer may, by written order under section 76 (a), stop the supply to any village channel when he is satisfied, after inspection by himself or by one of his subordinates, that it is not maintained in proper repair; such order shall be recorded in the Sub-Divisional Office.

12. The Divisional Canal Officer may close the outlets in rotation as he may consider necessary. Such closures shall not extend beyond ten consecutive days, and shall be notified to the *Lambardars* of village channels. For longer closures the authority of the Superintending Canal Officer is required.

13. Nothing in the above rules shall be taken to affect the power of the Superintending or Divisional Canal Officer to stop the supply of water in case of pressing emergency.

14. The water-gauges on distributaries or other channels shall be held to give authoritative data for all calculations of discharge required to verify claims for remission of water-rate on account of loss of water.

15. Claims to remission of water-rates under section 76(b) shall only be admitted on proof of actual loss caused by the stoppage of supply. On proof of such loss, the Divisional Canal Officer may remit the whole or any portion of the rates. All applications for remission of water-rates shall be made in writing by the parties concerned, either in person, or through their headman, to the nearest Sub-Divisional Canal Officer, at least seven days prior to the cutting of the crop. On receipt of such application, the Sub-Divisional Canal Officer shall, after due local enquiry, forward the application with his remarks to the Divisional Canal Officer for decision.

16. Before awarding compensation under section 76(c), the Collector shall obtain the written opinion of the Divisional Canal Officer, and such opinion shall form part of the record of the proceedings.

17. Contracts between the Divisional Canal Officer on the part of Government, and private individuals, for the use of water as a motive power, or for any other purpose whatsoever, not included in the published schedule of rates, shall, if for any period not exceeding one year, require the previous sanction of the Superintending Canal Officer. If proposed for longer periods, such contracts shall be submitted for the sanction of the Lieutenant-Governor in the Irrigation Department.

18. Tanks may be filled with canal water without charge, and without reference to the area irrigated in any village, wherever water can be made available without injury to the cultivation dependent on any canal, under the following conditions:—

- (a.)—No tank shall be so filled unless the water is to be exclusively used for domestic purposes or for watering cattle, or both.
- (b.)—No tank shall be so filled from which irrigation is practised.
- (c.)—No tank shall be so filled which, intercepting any line of drainage, is liable to overflow from accumulation of water derived from natural causes.
- (d.)—No tank shall be so filled except on the written order of the Sub-Divisional Canal Officer issued on the written application of the parties concerned.
- (e.)—No tank shall be so filled unless the village channel used to fill it shall be shown to the satisfaction of the Sub-Divisional Canal Officer to be in a sound condition when the application is made.
- (f.)—The privilege herein accorded may, by written order of the Divisional Canal Officer, subject to revision by the Superintending Canal Officer, whose decision shall be final, be suspended for 12 months for breach of any of the above conditions.

19. Leases for terms of five years for the supply of water between the 25th June of one year and the 1st April of the following year will be given at the rates fixed in the Schedule, Rule 33, provided that land leased in any village forms one or more compact blocks, each of not less than 50 acres, defined by well-marked boundaries of such a nature as clearly to distinguish leased from the adjoining unleased lands, and to prevent the latter from being surreptitiously watered under cover of the lease.

20. Well-marked boundaries of the nature required by the foregoing rule generally exist. Village roads, bunds of *akhrahs*, village boundaries, and similar natural marks will be sufficient. If such do not exist, and it appears advisable to grant the lease, the villagers may, at the discretion of the Divisional Canal Officer, be required to make small bunds round the leased area, or mark its limits by the erection of cheap boundary marks, or cause to be carried out such arrangements as may suffice for the future identification of the leased area.

21. No restriction is placed on the description of crop to be grown under five-year leases, but no water will be given on these leases between the 1st of April and the 25th of June. The Superintending Canal Officer may relax this rule in the case of water being required for rice-seed beds.

22. If in the opinion of the Divisional Canal Officer it appears advisable to grant a lease for a block of less than 50 acres in area, he must refer the matter for the decision of the Superintending Canal Officer, at whose discretion the restriction as to area may be relaxed.

23. Present holders of three-year leases may at their option avail themselves of the terms offered to the holders of five-year leases, but without retrospective effect.

24. Leases for five years at the rates entered in Rule 33 may be given—(1) on the application of all the cultivators of the area proposed to be leased, on condition of their agreeing in such application to become jointly and severally responsible for the payment of all amounts due on account of water-rates; or (2) on the joint application of the cultivators and of some person hereinafter called the Contractor, who may agree to collect and pay to Government, under section 82 of Act III (B.C.) of 1876, all sums due under the agreement on account of water-rates. The agreement of villagers binding themselves jointly and severally will be in the form prescribed in Appendix C. The joint agreement of villagers and a water-rate Contractor shall be in the form prescribed in Appendix D. Every agreement under this rule must be signed by each applicant in the presence of at least one respectable witness.

25. Contractors shall be entitled to collect water-dues, at the rates given in schedule 4 attached to Rule 33, from the cultivators who have applied for the water supplied. Every due from a cultivator to the Contractor on account of water-rates shall be deemed to be a sum due to Government under sections 82 and 85 of Act III (B.C.) of 1876.

26. A Contractor (or in case there be more than one, each Contractor severally and jointly) shall be responsible for all sums payable on the agreement (Appendix D), except such sums as may be remitted by competent authority under the rules in force, and shall be entitled to a deduction of 5 per cent. for cost of collection.

27. No water shall be taken previous to the receipt of a permit (Appendix B) signed by the Divisional Canal Officer. When an agreement has been made for the collection of the rates by a Contractor, the Divisional Canal Officer shall under section 82 furnish such Contractor with a written authority to collect the amounts due by the cultivators according to a list furnished in the application, one copy of which is to be sent to the Collector.

28. Every Contractor shall nominate a headman, to be approved of by the Divisional Canal Officer, to perform the duties specified in Rule 10. Such headman or the contractor, according to the arrangement made at the time of contract, shall receive 5 per cent. on the assessment, but the Divisional Canal Officer may retrench the whole or any part of these fees if the duties are not properly performed.

29. All water-rates leviable under the above rules for five-years leases shall become due on the 31st December and 15th March in equal portions, and shall be paid within one month of such dates.

30. Under section 78 of the Act, the rates chargeable per acre for water supplied to the different description of crops up to 1st of April 1881, except in cases of three-year leases now in existence, will be as follow:—

34. The statements of the amounts demandable for water-rates levied under the rules in force shall be prepared under the supervision and signature of the Divisional Canal Officer in such form as shall from time to time be sanctioned by the Lieutenant-Governor.

35. All water-rates shall become due on the dates below stated, and shall be paid within one month of such dates :—

Water-rate on spring crops, wheat, barley, peas, poppy, &c.	...	15th March.
Water-rate on summer crops, cheena, &c.	...	15th July.
Water-rate on bhadoi crops, early rice, indian-corn, murwa, &c.	...	31st October.
Water-rate on annual and winter crops, sugarcane, aghani rice, jowar, &c.	...	31st December.

36. In the case of lands held in *bhaoli*, the water-rate shall be recoverable from both the cultivator and the person or persons in receipt of the *bhaoli* rents in the same proportion as the produce is divisible amongst them.

37. In the case of lands held in *bhaoli*, the zemindar shall sign jointly with the cultivators. (This rule only applies to the case of five-year leases.)

38. The area irrigated in any village shall be measured by an *Ameen* appointed for the purpose. The *Putwari* shall be present at the measurement, and shall at the time take a copy of the *khurak* of the *Ameen*; if for any reason the *Putwari* is not present, the cost of preparing the copy will be charged against him. This copy shall be delivered to the *Putwari*, or, in his absence, to the *Lambardar*. Both the *Lambardar* and *Putwari* shall sign the *khurak*.

39. When the measurement is completed, the *khurak* shall be forwarded to the Sub-Divisional Canal Officer, who shall prepare the *khatiani* with all possible despatch. A copy of the *khatiani*, signed and sealed by the *Zilladar*, shall, as soon as it is prepared, be forwarded to the *Putwari*, who shall grant a receipt for the same. If the *Putwari* is not present, or declines to receive the *khatiani*, the Sub-Divisional Officer shall forward it direct to the Collector.

40. It shall be the duty of the *Putwari*, immediately on the completion of the measurement, to inform each ryot, on application, of the fields measured against him, and on receipt of the *khatiani* to supply each person charged with a *percha* showing the water-rates due. For these duties, and for attending the measurement and rendering such other reasonable assistance to the Canal Officer and Collector as may be required, an allowance of one quarter anna per rupee on the amount collected shall be made.

41. This allowance shall be paid to the *Putwari* by the Collector if he is satisfied that the work has been properly done.

42. The Canal Officer shall note on the *khatiani* whether the *Putwari* has given proper assistance during the measurement.

43. If a cultivator is dissatisfied with the entries made against him in the *khatiani*, whether as to the fact of the land having been charged "flow" instead of "lift" or as to the measurements and entries of classes of crops, he must lodge a complaint, either personally or through the *Lambardar* of his village channel, with the Divisional or Sub-Divisional Canal Officer within one month after the date of the demand being made on him.

44. The *Zilladar* shall submit his check measurements in a form (Appendix E) which shall be sent in for the inspection of the Divisional Canal Officer. The Sub-Divisional Canal Officer shall check the *Ameens'* measurements as often as he possibly can. If it be found that any *ameen* wilfully or frequently makes wrong measurements, he shall be punished by dismissal.

45. Collection of all water-rates shall be made by the Collector in accordance with the statement of demands furnished to him by the Divisional Canal Officer.

46. Objections to the demand addressed to the Collector, if preferred within one month after the demand has been made, shall, if remission be claimed on the score of short supply, or of any matter affecting the Irrigation Department, be referred for orders to the Divisional Canal Officer. The Collector shall have discretion to suspend collections by a written order in cases where (objections having been filed) it may seem advisable to do so.

47. Claims for remission, referred by the Collector and admitted by the Divisional Canal Officer, shall be reported by him for the sanction of the Superintending Canal Officer, except in cases where remissions are made on account of excess areas having been charged, or a wrong name entered in the *khariani*.

48. If the Divisional Canal Officer reject the claim, an appeal may be made to the Superintending Canal Officer, provided that it is preferred within forty days from the issue of the order of the Divisional Canal Officer.

49. A remission statement, signed by the Superintending or Divisional Canal Officer, shall be sufficient authority for a refund by the Collector.

50. In special cases not otherwise provided in these rules, and in cases where water-rates are not recoverable owing to the absconding or bankruptcy of the defaulter, the Collector will obtain the sanction of the Commissioner of the Division to the remission of such sums as he may deem irrecoverable. The details of such remission shall be communicated at the close of each official year to the Divisional Canal Officer.

51. The Collector shall appoint a headman (to be called a *Tehsildar*), whose duty will be to collect and pay in, to the Collector or other duly authorized person, all water-rates leviable on the land irrigated.

52. The *Tehsildar* shall furnish security for the payment of all sums realized by him, the stamp and registration fees on security bonds being deducted from the percentage allowed, under the following rule.

53. The allowance to the *Tehsildars* of a village or villages for collecting the water-rates shall be fixed by the Collector, but the total amount to be paid in any one year to all the *Tehsildars* in a district shall not exceed half an anna in the rupee on the amounts actually paid in. If the *Tehsildar* shall satisfy the Collector that arrears have not accrued through any negligence on his part, it shall be at the option of the Collector to pay him the allowance on the whole or any part of such arrears.

54. If only a portion of a field be irrigated, the water rate shall be chargeable on the whole field, unless such portion shall have been clearly demarcated, previous to the admission of the water, by a ridge not less than half a foot high.

55. When a portion of a field has been irrigated with canal water, and a portion with well or reservoir water, the whole field shall be liable for canal water-rate, unless a clearly distinguishable boundary exists between the two portions.

56. If well or reservoir water is conveyed in the same channel as canal water, the whole of the irrigation from that channel shall be liable to canal water-rate. The *Lambardar* will be held personally responsible that any breach of this rule or of Rules 54 and 55 is duly reported.

57. Irrigation from escape channels, when the supply is permanent, shall be governed by the same rules as irrigation from other parts of the canal.

58. Irrigation from such channels, when the supply is intermittent, may be allowed at such reduced rates as shall from time to time be fixed by the Lieutenant-Governor.

59. Persons using water without a written permit, or taking water at times prohibited by proper authority, shall be liable to a penalty not exceeding double water-rates on the area irrigated, and such charge shall be leviable at the time of report to the Collector.

60. The charge leviable for water suffered to run to waste on uncultivated lands shall be calculated at the highest rate specified in the schedule, on the area flooded; provided that in every such case the Divisional Canal Officer may impose a lower rate if he thinks fit. The *Lambardar* is to be held responsible for reporting such waste of water.

61. When the original crop sown in a field irrigated by canal water fails, and is ploughed up, and a fresh crop is sown in the same season, the water-rates shall be levied on the second crop.

62. No person shall, without the permission in writing of the Divisional or Sub-Divisional Canal Officer, pass, or cause any animal or vehicle to pass, on or across any of the works, banks, or channels of a canal or drainage work after he has been desired to desist therefrom, excepting by means of such bridges, fords, and ferries, and their approaches, as are provided by the Divisional Canal Officer.

63. No Canal Officer, unless specially exempted by the Lieutenant-Governor from the operation of this rule, shall have any interest in the distribution of water from any of the canals, or purchase or bid for any Government property sold thereon, either in his own name, or in the name of another, or jointly, or in shares with others.

NOTIFICATION.

*The 17th August 1880.*—The following revised rules passed by the Lieutenant-Governor under sections 31 and 41 of the Indian Forest Act (VII of 1878), having received the sanction of the Governor-General in Council, are hereby published for general information, in supersession of the notification of 13th January 1880 published in the *Calcutta Gazette* of the 14th idem. They will take effect in the protected forest tracts of the Sunderbuns described in the schedule annexed to the notifications of the 7th December 1878 and 24th February 1879 published in the *Calcutta Gazette* of 11th December 1878 and 26th February 1879), and will come into force from the date of their publication :—

**Rule I.**—No trees, timber, or any other forest produce shall be cut, sawn, gathered, or removed from within the boundaries of the Sunderbuns protected forests without prepayment in full of the charges due thereon at the rates following :—

- (1) For every maund of sundri timber, one anna.
- (2) For every maund of any other forest produce, one-fourth of an anna.

These, or such other charges as may from time to time be fixed under this rule, will also be levied on timber and other forest produce which may be exported from lands leased under the rules for the lease of waste lands in the Sunderbuns.

**Rule II.**—Any person desiring to enter the Sunderbuns protected forests for the purpose of cutting, sawing, converting, gathering, or removing trees, timber or any other forest produce, shall take out a permit or license for the produce which he proposes to remove. The said permit will be granted only on prepayment of the prescribed charges by the officer in charge of the Sunderbuns Forest Division, or by any of his subordinates duly authorized to receive payment and to issue permits.

**Rule III.**—The holder of a permit or license for the cutting, sawing, conversion, gathering, or removal of any forest produce within the boundaries of the Sunderbuns protected forests, shall produce the said permit or license when called upon to do so by any forest or police officer, and shall further be bound, on leaving the Sunderbuns protected forests, to return the said permit or license to one of the forest officers in charge of the revenue stations, a list of which will be notified from time to time in the *Calcutta Gazette*.

**Rule IV.**—Any forest produce in transit within, or passing out of, the Sunderbuns Protected Forests, and any such produce found in any water-channel skirting or leading from the said forests, when there is reason to believe that any thing is payable to the Government in respect of such produce, may be stopped and examined by any forest or police officer.

The following is a list of the revenue stations referred to in Rule III of the above rules :—

## GOVERNMENT OF INDIA.—MARINE BRANCH—MILITARY DEPARTMENT.

## NOTICE TO MARINERS.—(No. 9.)

## RED SEA—GULF OF SUZ.

## Suez Bay—Lights at Port Ibrahim.

Information has been received that the undermentioned lights are now exhibited at port Ibrahim, Suez bay:—

1. Two floating lights are placed 897 yards seaward of the entrance of the harbour—*green* on the northern side of the channel, *red* on the southern side.
2. A fixed *green* light is shown from the extremity of the north mole-head; a fixed *red* light from the extremity of the south mole head.
3. A fixed *white* light is shown from the extreme (western) end of the inner pier of the harbour.

*Notz.*—The foregoing green and red lights mark the channel into the port.

Entering port Ibrahim—the green lights are left on the port hand, the red lights on the starboard hand, the vessel being steered for the white light on the inner pier.

4. Also, that it is intended, when the state of the sea prevents the exhibition of the floating lights, to show two lights, *green* and *red* placed vertically, from the eastern commencement of the inner pier. These lights kept in line with the white light at the extreme (or western) end of the pier will then indicate the channel.

*Buoyage.*

Also, that a buoy has been placed on each side of the channel to port Ibrahim, 568 yards from the mole heads—the northern buoy in a line with the green lights, the southern buoy in a line with the red lights.

*The 3rd August 1880.*—The following rules regarding the possession of licit salt in the excepted limits of Calcutta, and its transport therefrom into protected limits, are published for general information:—

(a)—Every application for a "certificate" for landing salt from shipboard, or for removing it from the bonded golahs into the excepted limits of Calcutta, must in future be made to the Collector of Customs instead of to the Board of Revenue, and any person attempting to land salt within such limits without having taken out such certificate will be liable to the penalties provided under the Sea Customs Act VIII of 1878.

This cancels rule 36, section 2 of the Rules for the guidance of officers engaged in the administration of the Salt Department in the Lower Provinces of Bengal.

The following rules are added to Rule 30, section 2 of the same rules:—

(b)—In granting a rowanah for salt which is to be conveyed out of the excepted limits of Calcutta into protected limits, the Board will require the applicant for the rowanah to give the full particulars of the certificate under which it was landed in Calcutta.

(c)—If the holder of a rowanah issued by the Board of Revenue for salt to be taken from shipboard out of the excepted limits desires to land the whole or any portion of such salt within the excepted limits, he must apply for the Board's orders to cancel the original rowanah. On his application being granted, he will, on payment of the usual fees, be furnished with a letter of advice to the Collector of Customs for the issue of a "certificate" in respect of the whole or such portion of the salt as he desires to land within the excepted limits of Calcutta; and if necessary, with an "exchange rowanah" in respect of the balance to be taken beyond the excepted limits.

(d)—The holder of a rowanah for the transport of salt from the bonded golahs, or from shipboard into the protected limits *via* the Chitpore pass-station, will be at liberty to choose any of the three following routes:—

- (1)—By the river Hooghly by boat.
- (2)—By the Port Commissioners' tramway *via* Armenian Ghât.
- (3)—By the Port Commissioners' tramway *via* Rathtollah Ghât.

The route chosen must be declared when the rowanah is taken out, and the customs officer on board the ship from which the salt is delivered will make out the boat-notes according to the route chosen. If the holder of the rowanah wishes to alter the route, he can do so by applying to the Board as provided in Rule 31.

*At the Court at Osborne House, Isle of Wight, the 14th day of August 1879.*

## PRESENT:

## THE QUEEN'S MOST EXCELLENT MAJESTY IN COUNCIL.

WHEREAS by "The Merchant Shipping Act Amendment Act, 1862," it was enacted that on and after the first day of June one thousand eight hundred and sixty-three, or such later day as might be fixed for the purpose by Order in Council, the Regulations contained in the table marked C in the schedule to the said Act should come into operation and be of the same force as if they were enacted in the body of the said Act; but that Her Majesty might from time to time, on the joint recommendation of the Admiralty and the Board of Trade, by Order in Council, annul or modify any of the said Regulations, or make new Regulations in addition thereto or in substitution therefor; and that any alterations in, or additions to, such Regulations made in manner aforesaid should be of the same force as the Regulations in the said schedule:

And whereas by the same Act it was further provided that whenever it should be made to appear to Her Majesty that the Government of any foreign country was willing that the Regulations for preventing collisions contained in Table C in the schedule to the said Act, or such other Regulations for preventing collisions as are for the time being in force under the said Act, should apply to the ships of such country when beyond the limits of British jurisdiction, Her Majesty might, by Order in Council, direct that such Regulations should apply to the ships of the said foreign country, whether within British jurisdiction or not; and it was further provided by the said Act that whenever an Order in Council had been issued applying any Regulation made by, or in pursuance of, the said Act to the ships of any foreign country, such ships should in all cases arising in any British court, be deemed to be subject to such Regulation, and should, for the purpose of such Regulation, be treated as if they were British ships:

And whereas by an Order in Council made in pursuance of the said recited Act, and dated the ninth day of January one thousand eight hundred and sixty-three, Her Majesty was pleased to direct: First, that the Regulations contained in the schedule to the said Act should be modified by the substitution for such Regulations of certain Regulations appended to the said Order;

Secondly, that the said Regulations appended to the said Order should, on and after the first day of June one thousand eight hundred and sixty-three, apply to French ships, whether within British jurisdiction or not:

And whereas by several Orders in Council subsequently made, Her Majesty was pleased to direct that the Regulations appended to the said Order of the ninth of January one thousand eight hundred and sixty-three, should apply to ships of the countries specified in the said Orders, whether within British jurisdiction or not:

And whereas by Order in Council, dated the thirtieth day of July one thousand eight hundred and sixty-eight, Her Majesty, on the joint recommendation of the Admiralty and the Board of Trade, was pleased to make certain additions to the Regulations appended to the said first-recited Order in Council, for the purpose of explaining Articles 11 and 13 of the said Regulations, and of removing doubt and misapprehension concerning the effect of the said two Articles:

And whereas the Admiralty and the Board of Trade have jointly recommended to Her Majesty that the Regulations contained in the Order in Council dated the ninth day of January one thousand eight hundred and sixty-three, and the additions to the said Regulations contained in the said Order in Council of the thirtieth day of July one thousand eight hundred and sixty-eight, shall be annulled from the first day of September one thousand eight hundred and eighty, and that there shall be substituted for the said Regulations and additions respectively the new Regulations hereinafter set forth:

And whereas it has been made to appear to Her Majesty that the Governments of the several foreign countries mentioned in the second schedule hereto are respectively willing that the Regulations contained in the first schedule hereto shall apply to ships of the said countries respectively, whether within British jurisdiction or not:

Now therefore Her Majesty, by virtue of the powers vested in Her by the said recited Act, and by and with the advice of Her Privy Council, is pleased to direct—

First, that on and after the first day of September one thousand eight hundred and eighty, the Regulations appended to the said Order in Council of the ninth day of January one thousand eight hundred and sixty-three, and the additions to the said Regulations contained in the said Order in Council of the thirtieth day of July one thousand eight hundred and sixty-eight, shall be annulled, and that there shall be substituted for the said Regulations and additions respectively the new Regulations contained in the first schedule hereto.

Second, that the said Regulations contained in the said first schedule hereto shall, from and after the first day of September one thousand eight hundred and eighty, apply to ships of the countries mentioned in the said second schedule hereto, whether within British jurisdiction or not.

C. L. PRAL.

## FIRST SCHEDULE.

## REGULATIONS FOR PREVENTING COLLISIONS AT SEA.

*Preliminary.*

ART. 1. In the following rules every steam-ship which is under sail and not under steam is to be considered a sailing ship; and every steam-ship which is under steam, whether under sail or not, is to be considered a ship under steam.

*Rules Concerning Lights.*

ART. 2. The lights mentioned in the following Articles, numbered 3, 4, 5, 6, 7, 8, 9, 10, and 11, and no others, shall be carried in all weathers, from sunset to sunrise.

ART. 3. A sea-going steam-ship when under way shall carry—

- (a.) On or in front of the foremast, at a height above the hull of not less than 20 feet and if the breadth of the ship exceeds 20 feet, then at a height above the hull not less than such breadth, a bright white light, so constructed as to show an uniform and unbroken light over an arc of the horizon of 20 points of the compass; so fixed as to throw the light 10 points on each side of the ship, viz. from right ahead to 2 points abaft the beam on either side; and of such a character as to be visible on a dark night, with a clear atmosphere, at a distance of at least five miles.
- (b.) On the starboard side, a green light so constructed as to show an uniform and unbroken light over an arc of the horizon of 10 points of the compass; so fixed as to throw the light from right ahead to 2 points abaft the beam on the starboard side; and of such a character as to be visible on a dark night, with a clear atmosphere, at a distance of at least two miles.
- (c.) On the port side, a red light, so constructed as to show an uniform and unbroken light over an arc of the horizon of 10 points of the compass; so fixed as to throw the light from right ahead to 2 points abaft the beam on the port side; and of such a character as to be visible on a dark night, with a clear atmosphere, at a distance of at least two miles.
- (d.) The said green and red side lights shall be fitted with inboard screens projecting at least three feet forward from the light, so as to prevent these lights from being seen across the bow.

ART. 4. A steam-ship, when towing another ship, shall, in addition to her side lights carry two bright white lights in a vertical line one over the other, not less than three feet apart, so as to distinguish her from other steam-ships. Each of these lights shall be of the same construction and character, and shall be carried in the same position, as the white light which other steam-ships are required to carry.

ART. 5. A ship, whether a steam-ship or a sailing ship, when employed either in laying or in picking up a telegraph cable, or which from any accident is not under command, shall at night carry in the same position as the white light which steam-ships are required to carry, and, if a steam-ship, in place of that light, three red lights in globular lanterns, each not less than 10 inches in diameter, in a vertical line one over the other, not less than three feet apart; and shall by day carry in a vertical line one over the other, not less than three feet apart, in front of, but not lower than, her foremast head, three black balls or shapes, each two feet in diameter.

These shapes and lights are to be taken by approaching ships as signals that the ship using them is not under command, and cannot therefore get out of the way.

The above ships when not making any way through the water, shall not carry the side lights, but when making way shall carry them.

ART. 6. A sailing ship under way, or being towed, shall carry the same lights as are provided by Article 3 for a steam-ship under way, with the exception of the white light, which she shall never carry.

ART. 7. Whenever, as in the case of small vessels during bad weather, the green and red side lights cannot be fixed, these lights shall be kept on deck, on their respective sides of the vessel, ready for use; and shall, on the approach of or to other vessels, be exhibited on their respective sides in sufficient time to prevent collision, in such manner as to make them most visible, and so that the green light shall not be seen on the port side, nor the red light on the starboard side.

To make the use of these portable lights more certain and easy, the lanterns containing them shall each be painted outside with the colour of the light they respectively contain, and shall be provided with proper screens.

ART. 8. A ship, whether a steam-ship or a sailing ship, when at anchor, shall carry, where it can best be seen, but at a height not exceeding 20 feet above the hull, a white light, in a globular lantern of not less than eight inches in diameter, and so constructed as to show a clear uniform and unbroken light visible all round the horizon, at a distance of at least one mile.

ART. 9. A pilot vessel, when engaged on her station on pilotage duty, shall not carry the lights required for other vessels, but shall carry a white light at the mast-head visible all round the horizon, and shall also exhibit a flare-up light or flare-up lights at short intervals which shall never exceed fifteen minutes.

A pilot vessel, when not engaged on her station on pilotage duty, shall carry lights similar to those of other ships.

ART. 10. (a)—Open fishing boats and other open boats when under way shall not be obliged to carry the side lights required for other vessels; but every such boat shall in lieu thereof have ready at hand a lantern with a green glass on the one side and a red glass on the other side; and on the approach of or to other vessels such lantern shall be exhibited in sufficient time to prevent collision, so that the green light shall not be seen on the port side, nor the red light on the starboard side.

(b)—A fishing vessel and an open boat when at anchor shall exhibit a bright white light.

(c)—A fishing vessel when employed in drift net fishing, shall carry on one of her masts two red lights in a vertical line one over the other, not less than three feet apart.

(d)—A trawler at work shall carry on one of her masts two lights in a vertical line one over the other, not less than three feet apart, the upper light red and the lower green, and shall also either carry the side lights required for other vessels, or if the side lights cannot be carried, have ready at hand the coloured lights as provided in Article 7, or a lantern with a red and a green glass as described in paragraph (a) of this Article.

(e)—Fishing vessels and open boats shall not be prevented from using a flare-up in addition if they desire to do so.

(f)—The lights mentioned in this Article are substituted for those mentioned in the 12th, 13th, and 14th Articles of the Convention between France and England scheduled to the British Sea Fisheries Act, 1868.

(g)—All lights required by this Article, except side lights, shall be in globular lanterns so constructed as to show all round the horizon.

ART. 11. A ship which is being overtaken by another shall show from her stern to such last-mentioned ship a white light or a flare-up light.

#### *Sound Signals for Fog, &c.*

ART. 12. A steam-ship shall be provided with a steam whistle, or other efficient steam sound signal, so placed that the sound may not be intercepted by any obstructions, and with an efficient fog-horn to be sounded by bellows or other mechanical means, and also with an efficient bell. A sailing ship shall be provided with a similar fog-horn and bell.

In fog, mist, or falling snow, whether by day or night, the signals described in this Article shall be used as follows, that is to say—

(a)—A steam-ship under way shall make with her steam whistle, or other steam sound signal, at intervals of not more than two minutes, a prolonged blast.

(b)—A sailing ship under way shall make with her fog-horn, at intervals of not more than two minutes, when on the starboard tack one blast, when on the port tack two blasts in succession, and when with the wind abaft the beam three blasts in succession.

(c)—A steam-ship and a sailing ship when not under way shall, at intervals of not more than two minutes, ring the bell.

#### *Speed of Ships to be moderate in Fog, &c.*

ART. 13. Every ship, whether a sailing ship or steam-ship, shall in a fog, mist, or falling snow, go at a moderate speed.

#### *Steering and Sailing Rules.*

ART. 14. When two sailing ships are approaching one another, so as to involve risk of collision, one of them shall keep out of the way of the other as follows, viz :—

(a)—A ship which is running free shall keep out of the way of a ship which is close-hauled.

(b)—A ship which is close-hauled on the port tack shall keep out of the way of a ship which is close-hauled on the starboard tack.

(c)—When both are running free with the wind on different sides, the ship which has the wind on the port side shall keep out of the way of the other.

(d)—When both are running free with the wind on the same side, the ship which is to windward shall keep out of the way of the ship which is to leeward.

(e)—A ship which has the wind aft shall keep out of the way of the other ship.

ART. 15. If two ships under steam are meeting end on, or nearly end on, so as to involve risk of collision, each shall alter her course to starboard, so that each may pass on the port side of the other.

This Article only applies to cases where ships are meeting end on, or nearly end on, in such a manner as to involve risk of collision, and does not apply to two ships which must, if both keep on their respective courses, pass clear of each other.

The only cases to which it does apply are, when each of the two ships is end on, or nearly end on to the other, in other words, to cases in which by day each ship sees the mast of the other in a line, or nearly in a line, with her own and by night, to cases in which each ship is in such a position as to see both the side lights of the other.

It does not apply by day to cases in which a ship sees another ahead crossing her own course; or by night, to cases where the red light of one ship is opposed to the red light of the other, or where the green light of one ship is opposed to the green light of the other, or where a red light without a green light, or a green light without a red light is seen ahead, or where both green and red lights are seen anywhere but ahead.

ART. 16. If two ships under steam are crossing so as to involve risk of collision, the ship which has the other on her own starboard side shall keep out of the way of the other.

ART. 17. If two ships, one of which is a sailing ship and the other a steam-ship, are proceeding in such directions as to involve risk of collision, the steam-ship shall keep out of the way of the sailing ship.

ART. 18. Every steam-ship when approaching another ship, so as to involve risk of collision, shall slacken her speed, or stop and reverse if necessary.

ART. 19. In taking any course authorized or required by these Regulations a steam-ship under way may indicate that course to any other ship which she has in sight by the following signals on her steam whistle, viz:—

One short blast to mean—"I am directing my course to starboard."

Two short blasts to mean—"I am directing my course to port."

Three short blasts to mean—"I am going full speed astern."

The use of these signals is optional; but if they are used, the course of the ship must be in accordance with the signal made.

ART. 20. Notwithstanding anything contained in any preceding Article every ship, whether a sailing ship or steam-ship, overtaking any other, shall keep out of the way of the overtaken ship.

ART. 21. In narrow channels every steam-ship shall, when it is safe and practicable, keep to that side of the fair way or midchannel which lies on the starboard side of such ship.

ART. 22. Where by the above rules one of two ships is to keep out of the way the other shall keep her course.

ART. 23. In obeying and construing these rules due regard shall be had to all dangers of navigation, and to any special circumstances which may render a departure from the above rules necessary in order to avoid immediate danger.

*No Ship under any circumstances to neglect proper precautions.*

ART. 24. Nothing in these rules shall exonerate any ship, or the owner, or master, or crew thereof, from the consequences of any neglect to carry lights or signals, or of any neglect to keep a proper look-out, or of the neglect of any precaution which may be required by the ordinary practice of seamen, or by the special circumstances of the case.

*Reservation of Rules for Harbours and Inland Navigation.*

ART. 25. Nothing in these rules shall interfere with the operation of a special rule duly made by local authority relative to the navigation of any harbour, river, or inland navigation.

*Special Lights for Squadrons and Convoys.*

ART. 26. Nothing in these rules shall interfere with the operation of any special rules made by the Government of any nation with respect to additional station and signal lights for two or more ships of war, or for ships sailing under convoy.

DRAFT RULES PROPOSED FOR THE SONE CANALS UNDER ACT III (B.C.) OF 1876.

*Dated the 20th July 1880.*

No. 102.—*Notification*.—In exercise of the powers conferred on him by section 99 of Act III (B.C.) of 1876, the Hon'ble the Lieutenant-Governor is pleased to direct the publication of the following rules for the Sone Canals which it is proposed to substitute for the rules passed and published at pages 761 to 767, Part I of the *Calcutta Gazette* of the 23rd July 1879.

C. TAYLOR,

*Offg. Asst. Secy., for Joint.-Secy.  
to the Govt. of Bengal, P. W. Dept.,  
Irrigation Branch.*

## RULES UNDER ACT III (B.C.) 1876.

1. The Collector, before awarding compensation under section 16, or for making a reference under section 17 of the Act, shall obtain the written opinion of the Superintending Canal Officer, which shall form part of the record of the proceedings.
2. Persons desirous of acquiring land for the construction of a village channel, or for having a village channel constructed by Canal Agency, shall prefer a written application to the Divisional Canal Officer, or to any other officer duly authorized by him to receive such application.
3. Ordinarily, no village channel shall exceed two miles in length from its head to the point of contact with the village boundary.
4. It shall be the duty of the Canal Officer to register all village channels after due notice has been given to the owner of his intention to do so; if the latter objects, no water will be given.
5. No alteration among the shareholders will be recognized, unless the sanction of the Canal Officer has been first obtained.
6. Persons desirous of taking water from a registered village channel shall, previous to doing so, prefer a written application (Appendix A) to the Divisional Canal Officer, Sub-Divisional Canal Officer, or any subordinate duly authorized by the Divisional Canal Officer to receive such application; and no water shall be taken until after the receipt of a permit (Appendix B) from competent authority.
7. Water shall not be granted where, in the opinion of the Canal Officer, waste is likely to occur.
8. An application under Rule 6 shall, if granted, and unless otherwise specially agreed upon, be subject to the following conditions:—
  - (a)—That the water supplied shall not be used for other purposes than irrigation without the written consent of the Divisional or Sub-Divisional Canal Officer.
  - (b)—That the Sub-Divisional Canal Officer shall, in consultation with the applicants, appoint a headman (to be called a *Lambardar*), known, or ascertained to be, a substantial person possessed of property, to attend to their interests, to receive and carry out the orders of the Canal Officers, and to distribute the water among the shareholders in the village channel according to their shares.
  - (c)—That in any case where the Sub-Divisional Canal Officer cannot agree with the applicants in the appointment of a *Lambardar*, the Sub-Divisional Canal Officer shall make the appointment himself, subject to the approval of the Divisional Canal Officer.

9. The Divisional Canal Officer is empowered to pay to the *Lambardar* appointed under Rule 81, the fees detailed in the rule next following, subject to the condition of satisfactory performance of duty.

10. The allowance to the *Lambardar* for duties connected with the village channel such as arranging that it shall be kept in proper repair, reporting unauthorized irrigation, distributing the water to the shareholders, seeing that the outlet is closed according to the orders of the Sub-Divisional Canal Officer, and generally assisting the officers of the Irrigation Department, shall be half anna in the rupee on the amount of canal water-rates assessed on the lands irrigated from the village channel under his charge. The Divisional Canal Officer may retrench the whole or any part of the fees under this rule in the event of non-compliance with these conditions.

11. The Sub-Divisional Canal Officer may, by written order under section 76 (a), stop the supply to any village channel when he is satisfied, after inspection by himself or by one of his subordinates, that it is not maintained in proper repair; such order shall be recorded in the Sub-Divisional Office.

12. The Divisional Canal Officer may close the outlets in rotation as he may consider necessary. Such closures shall not extend beyond ten consecutive days, and shall be notified to the *Lambardars* of village channels. For longer closures the authority of the Superintending Canal Officer is required.

13. Nothing in the above rules shall be taken to affect the power of the Superintending or Divisional Canal Officer to stop the supply of water in case of pressing emergency.

14. The water-gauges on distributaries or other channels shall be held to give authoritative data for all calculations of discharge required to verify claims for remission of water-rate on account of loss of water.

15. Claims to remission of water-rates under section 76(b) shall only be admitted on proof of actual loss caused by the stoppage of supply. On proof of such loss, the Divisional Canal Officer may remit the whole or any portion of the rates. All applications for remission of water-rates shall be made in writing by the parties concerned, either in person, or through their headman, to the nearest Sub-Divisional Canal Officer, at least seven days prior to the cutting of the crop. On receipt of such application, the Sub-Divisional Canal Officer shall, after due local enquiry, forward the application with his remarks to the Divisional Canal Officer for decision.

16. Before awarding compensation under section 76(c), the Collector shall obtain the written opinion of the Divisional Canal Officer, and such opinion shall form part of the record of the proceedings.

17. Contracts between the Divisional Canal Officer on the part of Government, and private individuals, for the use of water as a motive power, or for any other purpose whatsoever, not included in the published schedule of rates, shall, if for any period not exceeding one year, require the previous sanction of the Superintending Canal Officer. If proposed for longer periods, such contracts shall be submitted for the sanction of the Lieutenant-Governor in the Irrigation Department.

18. Tanks may be filled with canal water without charge, and without reference to the area irrigated in any village, wherever water can be made available without injury to the cultivation dependent on any canal, under the following conditions:—

(a).—No tank shall be so filled unless the water is to be exclusively used for domestic purposes or for watering cattle, or both.

(b).—No tank shall be so filled from which irrigation is practised.

(c).—No tank shall be so filled which, intercepting any line of drainage, is liable to overflow from accumulation of water derived from natural causes.

(d).—No tank shall be so filled except on the written order of the Sub-Divisional Canal Officer issued on the written application of the parties concerned.

(e).—No tank shall be so filled unless the village channel used to fill it shall be shown to the satisfaction of the Sub-Divisional Canal Officer to be in a sound condition when the application is made.

(f).—The privilege herein accorded may, by written order of the Divisional Canal Officer, subject to revision by the Superintending Canal Officer, whose decision shall be final, be suspended for 12 months for breach of any of the above conditions.

19. Leases for terms of five years for the supply of water between the 25th June of one year and the 1st April of the following year will be given at the rates fixed in the Schedule, Rule 83, provided that land leased in any village forms one or more compact blocks, each of not less than 50 acres, defined by well-marked boundaries of such a nature as clearly to distinguish leased from the adjoining unleased lands, and to prevent the latter from being surreptitiously watered under cover of the lease.

20. Well-marked boundaries of the nature required by the foregoing rule generally exist. Village roads, bunds of *abrah*, village boundaries, and similar natural marks will be sufficient. If such do not exist, and it appears advisable to grant the lease, the villagers may, at the discretion of the Divisional Canal Officer, be required to make small bunds round the leased area, or mark its limits by the erection of cheap boundary marks, or cause to be carried out such arrangements as may suffice for the future identification of the leased area.

21. No restriction is placed on the description of crop to be grown under five-year leases, but no water will be given on these leases between the 1st of April and the 25th of June. The Superintending Canal Officer may relax this rule in the case of water being required for rice-seed beds.

22. If in the opinion of the Divisional Canal Officer it appears advisable to grant a lease for a block of less than 50 acres in area, he must refer the matter for the decision of the Superintending Canal Officer, at whose discretion the restriction as to area may be relaxed.

23. Present holders of three-year leases may at their option avail themselves of the terms offered to the holders of five-year leases, but without retrospective effect.

24. Leases for five years at the rates entered in Rule 33 may be given—(1) on the application of all the cultivators of the area proposed to be leased, on condition of their agreeing in such application to become jointly and severally responsible for the payment of all amounts due on account of water-rates; or (2) on the joint application of the cultivators and of some person hereinafter called the Contractor, who may agree to collect and pay to Government, under section 82 of Act III (B.C.) of 1876, all sums due under the agreement on account of water-rates. The agreement of villagers binding themselves jointly and severally will be in the form prescribed in Appendix C. The joint agreement of villagers and a water-rate Contractor shall be in the form prescribed in Appendix D. Every agreement under this rule must be signed by each applicant in the presence of at least one respectable witness.

25. Contractors shall be entitled to collect water-dues, at the rates given in schedule 4 attached to Rule 33, from the cultivators who have applied for the water supplied. Every due from a cultivator to the Contractor on account of water-rates shall be deemed to be a sum due to Government under sections 82 and 85 of Act III (B.C.) of 1876.

26. A Contractor (or in case there be more than one, each Contractor severally and jointly) shall be responsible for all sums payable on the agreement (Appendix D), except such sums as may be remitted by competent authority under the rules in force, and shall be entitled to a deduction of 5 per cent. for cost of collection.

27. No water shall be taken previous to the receipt of a permit (Appendix B) signed by the Divisional Canal Officer. When an agreement has been made for the collection of the rates by a Contractor, the Divisional Canal Officer shall under section 82 furnish such Contractor with a written authority to collect the amounts due by the cultivators according to a list furnished in the application, one copy of which is to be sent to the Collector.

28. Every Contractor shall nominate a headman, to be approved of by the Divisional Canal Officer, to perform the duties specified in Rule 10. Such headman or the contractor, according to the arrangement made at the time of contract, shall receive 5 per cent. on the assessment, but the Divisional Canal Officer may retrench the whole or any part of these fees if the duties are not properly performed.

29. All water-rates leviable under the above rules for five-years leases shall become due on the 31st December and 15th March in equal portions, and shall be paid within one month of such dates.

30. Under section 78 of the Act, the rates chargeable per acre for water supplied to the different description of crops up to 1st of April 1881, except in cases of three-year leases now in existence, will be as follow:—

SCHEDULE I.—Existing rates. (Annual.)

	Rs. A. P.
Under five-years leases per acre	2 0 0
During hot months	4 0 0
Total per acre	6 0 0

34. The statements of the amounts demandable for water-rates levied under the rules in force shall be prepared under the supervision and signature of the Divisional Canal Officer in such form as shall from time to time be sanctioned by the Lieutenant-Governor.

35. All water-rates shall become due on the dates below stated, and shall be paid within one month of such dates :—

Water-rate on spring crops, wheat, barley, peas, poppy, &c.	15th March.
Water-rate on summer crops, choena, &c.	15th July.
Water-rate on bhadoi crops, early rice, indian-corn, murwa, &c.	31st October.
Water-rate on annual and winter crops, sugarcane, aghani rice, jowar, &c.	31st December.

36. In the case of lands held in *bhaoli*, the water-rate shall be recoverable from both the cultivator and the person or persons in receipt of the *bhaoli* rents in the same proportion as the produce is divisible amongst them.

37. In the case of lands held in *bhaoli*, the zemindar shall sign jointly with the cultivators. (This rule only applies to the case of five-year leases.)

38. The area irrigated in any village shall be measured by an *Ameen* appointed for the purpose. The *Putwari* shall be present at the measurement, and shall at the time take a copy of the *khasrah* of the *Ameen*; if for any reason the *Putwari* is not present, the cost of preparing the copy will be charged against him. This copy shall be delivered to the *Putwari*, or, in his absence, to the *Lambardar*. Both the *Lambardar* and *Putwari* shall sign the *khasrah*.

39. When the measurement is completed, the *khasrah* shall be forwarded to the Sub-Divisional Canal Officer, who shall prepare the *khatiani* with all possible despatch. A copy of the *khatiani*, signed and sealed by the *Zilladar*, shall, as soon as it is prepared, be forwarded to the *Putwari*, who shall grant a receipt for the same. If the *Putwari* is not present, or declines to receive the *khatiani*, the Sub-Divisional Officer shall forward it direct to the Collector.

40. It shall be the duty of the *Putwari*, immediately on the completion of the measurement, to inform each ryot, on application, of the fields measured against him, and on receipt of the *khatiani* to supply each person charged with a *percha* showing the water-rates due. For these duties, and for attending the measurement and rendering such other reasonable assistance to the Canal Officer and Collector as may be required, an allowance of one quarter anna per rupee on the amount collected shall be made.

41. This allowance shall be paid to the *Putwari* by the Collector if he is satisfied that the work has been properly done.

42. The Canal Officer shall note on the *khatiani* whether the *Putwari* has given proper assistance during the measurement.

43. If a cultivator is dissatisfied with the entries made against him in the *khatiani*, whether as to the fact of the land having been charged "flow" instead of "lift" or as to the measurements and entries of classes of crops, he must lodge a complaint, either personally or through the *Lambardar* of his village channel, with the Divisional or Sub-Divisional Canal Officer within a month after the date of the demand being made on him.

44. The *Zilladar* shall submit his check measurements in a form (Appendix E) which shall be sent in for the inspection of the Divisional Canal Officer. The Sub-Divisional Canal Officer shall check the *Ameens'* measurements as often as he possibly can. If it be found that any *ameen* wilfully or frequently makes wrong measurements, he shall be punished by dismissal.

45. Collection of all water-rates shall be made by the Collector in accordance with the statement of demands furnished to him by the Divisional Canal Officer.

46. Objections to the demand addressed to the Collector, if preferred within one month after the demand has been made, shall, if remission be claimed on the score of short supply, or of any matter affecting the Irrigation Department, be referred for orders to the Divisional Canal Officer. The Collector shall have discretion to suspend collections by a written order in cases where (objections having been filed) it may seem advisable to do so.

47. Claims for remission, referred by the Collector and admitted by the Divisional Canal Officer, shall be reported by him for the sanction of the Superintending Canal Officer, except in cases where remissions are made on account of excess areas having been charged, or a wrong name entered in the *khatiani*.

48. If the Divisional Canal Officer reject the claim, an appeal may be made to the Superintending Canal Officer, provided that it is preferred within forty days from the issue of the order of the Divisional Canal Officer.

49. A remission statement, signed by the Superintending or Divisional Canal Officer, shall be sufficient authority for a refund by the Collector.

50. In special cases not otherwise provided in these rules, and in cases where water-rates are not recoverable owing to the absconding or bankruptcy of the defaulter, the Collector will obtain the sanction of the Commissioner of the Division to the remission of such sums as he may deem irrecoverable. The details of such remission shall be communicated at the close of each official year to the Divisional Canal Officer.

51. The Collector shall appoint a headman (to be called a *Tehsildar*), whose duty will be to collect and pay in, to the Collector or other duly authorized person, all water-rates leviable on the land irrigated.

52. The *Tehsildar* shall furnish security for the payment of all sums realized by him, the stamp and registration fees on security bonds being deducted from the percentage allowed, under the following rule.

53. The allowance to the *Tehsildars* of a village or villages for collecting the water-rates shall be fixed by the Collector, but the total amount to be paid in any one year to all the *Tehsildars* in a district shall not exceed half an anna in the rupee on the amounts actually paid in. If the *Tehsildar* shall satisfy the Collector that arrears have not accrued through any negligence on his part, it shall be at the option of the Collector to pay him the allowance on the whole or any part of such arrears.

54. If only a portion of a field be irrigated, the water-rate shall be chargeable on the whole field, unless such portion shall have been clearly demarcated, previous to the admission of the water, by a ridge not less than half a foot high.

55. When a portion of a field has been irrigated with canal water, and a portion with well or reservoir water, the whole field shall be liable for canal water-rate, unless a clearly distinguishable boundary exists between the two portions.

56. If well or reservoir water is conveyed in the same channel as canal water, the whole of the irrigation from that channel shall be liable to canal water-rate. The *Lambardar* will be held personally responsible that any breach of this rule or of Rules 54 and 55 is duly reported.

57. Irrigation from escape channels, when the supply is permanent, shall be governed by the same rules as irrigation from other parts of the canal.

58. Irrigation from such channels, when the supply is intermittent, may be allowed at such reduced rates as shall from time to time be fixed by the Lieutenant-Governor.

59. Persons using water without a written permit, or taking water at times prohibited by proper authority, shall be liable to a penalty not exceeding double water-rates on the area irrigated, and such charge shall be leviable at the time of report to the Collector.

60. The charge leviable for water suffered to run to waste on uncultivated lands shall be calculated at the highest rate specified in the schedule, on the area flooded; provided that in every such case the Divisional Canal Officer may impose a lower rate if he thinks fit. The *Lambardar* is to be held responsible for reporting such waste of water.

61. When the original crop sown in a field irrigated by canal water fails, and is ploughed up, and a fresh crop is sown in the same season, the water-rates shall be levied on the second crop.

62. No person shall, without the permission in writing of the Divisional or Sub-Divisional Canal Officer, pass, or cause any animal or vehicle to pass, off or across any of the works, banks, or channels of a canal or drainage work after he has been desired to desist therefrom, excepting by means of such bridges, fords, and forries, and their approaches, as are provided by the Divisional Canal Officer.

63. No Canal Officer, unless specially exempted by the Lieutenant-Governor from the operation of this rule, shall have any interest in the distribution of water from any of the canals, or purchase or bid for any Government property sold thereon, either in his own name, or in the name of another, or jointly, or in shares with others.

*The 17th August 1880.*—The following notification is published for general information.

A. MACKENZIE,  
Secy. to the Govt. of Bengal.

GOVERNMENT OF INDIA.—MARINE BRANCH.—MILITARY DEPARTMENT.

NOTICE TO MARINERS.—(No. 9.)

RED SEA—GULF OF SUZ.

Suez Bay—Lights at Port Ibrahim.

Information has been received that the undermentioned lights are now exhibited at Port Ibrahim, Suez Bay :—

1. Two floating lights are placed 897 yards seaward of the entrance of the harbour—*green* on the northern side of the channel, *red* on the southern side.
2. A fixed *green* light is shown from the extremity of the north mole head; a fixed *red* light from the extremity of the south mole head.

3. A fixed *white* light is shown from the extreme (western) end of the inner pier of the harbour.

NOTE.—The foregoing green and red lights mark the channel into the port.

Entering Port Ibrahim—the green lights are left on the port hand, the red lights on the starboard hand, the vessel being steered for the white light on the inner pier.

4. Also, that it is intended, when the state of the sea prevents the exhibition of the floating lights, to show two lights, *green* and *red* placed vertically, from the eastern commencement of the inner pier. These lights kept in line with the white light at the extreme (or western) end of the pier will then indicate the channel.

#### *Buoyage.*

Also, that a buoy has been placed on each side of the channel to port Ibrahim, 568 yards from the mole heads—the northern buoy in a line with the green lights, the southern buoy in a line with the red lights.

By direction of the Government of India,
